DR. HESS Poultry PAN-A-GE-A

Think how exactly contrary to nature is the condition of a hen shut in a house or closed run. Is it a wonder she mopes about, lazy, sickly, unproductive? Give the food elements nature meant her to have—make digestive organs work as nature intended them to work and your hen is healthy, happy and productive. **Dr. Hess Poultry Pan-a-ge-a** takes care of the digestion.

It gives a natural condition to the hen when every surrounding is unnatural. It makes perfect digestion—tones and strengthens the system and wards off disease. Leading poultrymen endorse **Poultry Pan-a-ge-a**. It is the prescription of **Dr. Hess (M.D., D.V.S.)** and is a guaranteed egg producer, makes chickens grow fast and helps old fowls to fatten. Costs but a penny a day for 30 hens.

GOSSIP.

Mr. Israel Groff, Elmira, Ont., writes: "I have just received a letter from Mr. W. C. Flurry, South Omaha, Neb., stating that the carload of Shorthorn bulls I shipped him a few days ago landed in good condition, and that he is well pleased with the selection I made for him. I selected these animals from most of the leading herds of Western Ontario, two from Senator Edwards (Rockland), four from H. Cargill & Son (Cargill), three from J. A. Watt (Salem), one from John Watt & Son (Salem), one from F. W. Ewing (Salem), one from Ephraim Weber (Elmira), one from T. S. Shantz (Waterloo), one from Aaron Shantz (Waterloo), one from Jonathan Snider (Bridgeport), one from my own herd, and two from Harry Smith (Exeter). These were all selected with great care, and were pronounced by good judges the best lot of young bulls that ever left these parts at one time and consigned to one individual. In looking over the herds from which these animals were selected, I found our Shorthorn herds, in general, are in fine condition, and a bright future is in store for this popular beef breed. I find the best demand for the best cattle."

HAMPSHIRE SWINE.

Mr. Artemas O'Neil, Brr, Ont., writes: "Something new to Canada is the Hampshires, or Belted swine, which are progressing rapidly in favor, and promise to be the coming hog of the century, being claimed by their friends to be the most handsome and early-maturing breed of hogs in existence. They are a black hog with a white belt or a listed mark extending over the shoulders, including the fore legs, which attracts the attention of hog fanciers. They are hardy, responsive feeders, of stately carriage and free from broken-down or disjointed limbs, easily attaining the weight of 225 pounds at six months old. In the hog section at the World's Fair they received admiring attention, and have also proved themselves successful over all breeds at the International Live-stock Exposition, Chicago, three years in succession. They are said to be the most prolific of all breeds, it being not unusual for a gilt to produce from ten to twelve well-developed pigs; and are uniformly good mothers, and bear more litters than sows of other breeds. The first importation of this breed was made in 1904, and since that time they have made a wonderful mark." Persons desirous of improving or establishing a herd of swine should read the advertisement of Mr. O'Neil in this paper.

Messrs. W. G. Pettit & Sons, Freeman, Ont., in sending a change of advertisement, report the following recent sales of Shorthorns: "To Mr. J. F. Mitchell, Burlington, the choice young imported bull, Redstart; this is a very smooth, even bull of excellent quality, and we are pleased that he is going into a high-class herd. Messrs. C. J. Schoenfeld & Son, Fox Lake, Wis., selected a very nice cow of the Marr Roan Lady family, and sired by Imp. Prime Favorite. They also took a very promising bull calf, sired by the same bull and from a Scotch-bred cow. Mr. Andrew Kersell, St. George, Ont., purchased a young bull of the Miss Ramsden family, and sired by Prime Favorite, that should leave him some good calves. He won first at New York State Fair as a calf. Messrs. P. M. Brett & Sons, Regina, Sask., are taking from the herd a pair of very choice Marr Roan Lady heifers. This is choice excellent family, both for breeding and milk, and Messrs. Brett are making no mistake in introducing this blood into their herd. Messrs. Geo. Wander & Son, of Elgin, Iowa, secured an imported yearling bull that promises to develop into a large, thick fellow, and should do a great deal towards improving their herd. We still have five imported bulls to offer. They are just past a year old, and represent some choice Scotch families. The home-bred bulls we are offering are a good lot, and parties in need of such should see what we have before purchasing elsewhere. Our prices are very reasonable. We have a catalogue of our Canadian-bred bulls which will be sent on application."

THE DEERING

GRAIN CUTTING WITHOUT INTERRUPTIONS

WHEN the grain is ripe you want the work of harvesting to go right along. You cannot afford to be annoyed by breakages and delays. Breakages and tinkering with the knoter or other parts to get them to work right means more than vexatious delays. It means expense and it may mean that you will not get your grain harvested in good condition.

The Deering binder comes nearer giving you insurance of uninterrupted work than any machine you can buy.

What can be more satisfactory to the grain grower at the beginning of harvest than to have a machine he knows he can depend upon?

The Deering binder is such a machine. It has stood the test in thousands of harvest fields. It is not only dependable and

right working but it harvests all the grain. It handles tall and short, light and heavy, down and tangled grain all to a nicety and with least possible loss. Machines are made in 5, 6, 7 and 8-foot cuts. In addition to grain harvesting machines the Deering line includes binder twine, mowers, tedders, sweep rakes, side delivery rakes, hay loaders, stackers, corn machines and knife grinders. Also a complete line of tillage implements and seeding machines, comprising disk drills, shoe drills, hoe drills, cultivators and seeders, smoothing, spring-tooth and disk harrows, land rollers and scufflers. Also gasoline engines, cream separators, hay presses, feed grinders, wagons, sleighs, and manure spreaders.

For all particulars call on the local Deering agent or write to any of the following branch houses for catalog:

SHIRE.

Sixty head have been sold by me in Ontario alone during the past year. The quality of the stock may be judged from the fact that while we have nothing forced for exhibition purposes these horses won in the show-rings at The Ontario Horse Breeders' Association, Toronto; The Western Fair, London; The St. Thomas Horse Show, and other places. A fresh consignment of mares and fillies in foal, and stallions ready for service, among them several handsome two-year-olds, will be ready for inspection and sale at my barns, St. Thomas, Ont., about April 10th. We show the goods, and sell at reasonable prices. Our terms are reasonable. Correspondence solicited. **G. K. GEARY, St. Thomas, Ont., Agent for Canada and the United States.**

Imported Shires!

From the famous breeding farms of

JOHN CHAMBERS & SONS, Holdenby, Northampton, England.

CLYDESDALES AND FRENCH COACHERS, IMP.

Scottish and Canadian winners, stallions, mares and fillies. The Clydes represent the blood of such noted sires as Baron's Pride, Up-to-Time, Royal Favorite, Ethiopia and Acme. They combine size, quality and action. The French Coaches are a big, flashy, high stepping lot, and are winners in both France and Canada. Our prices are right, and our horses as good as the best. Long-distance telephone.
