A VIENNA correspondent says a report has been received from Rome that a street riot occurred at Pegolia between Republicans and Inter-nationalists, in which one man was killed and several wounded.

IT WOULD be well if some of our confreres of the press would bear in mind that the time has passed when they can with impunity use insulting language when dealing with Irishmen or Irish questions. LECTURE IN ST. MARY'S CHURCH. FATHER O'MAHONY ON POPULAR OBJEC-TIONS TO CATHOLICITY.

On Sunday evening last St. Mary's Church, Hill street, was crowded to the doors, the occasion being the delivery of a lecture on the above subject. That this church has fostered ignorance in all ages, that her priests have been in the habit of receiving sums of money for the purpose of forgiving sins committed against both of lorgiving sins committed against both the law of God and the law of man—that the children of the church have been taught to pay that divine honor to the Blessed Virgin which is due to God alone, have for ages been believed by persons who, on the one hand, never took the trouble to find out for themselves whether and his upright character eminently fit him for a prominent position in this honorable calling.

A WORD OF COUNSEL TO YOUNG MEN.

In these days of push and business "vim," that man stands a slim chance of success who recklessly launches his bark of destiny on the turbid tide of life, without first having fitted himself for the emergencies of the voyage by laying in a plentiful supply of Commercial lore. It s estimated that nine-tenths of the failures that occur, are clearly traceable to a lack of business knowledge and a systematic practice of keeping, a complete and detailed account of all that pertains to the occupation pursued.

How many of our farmers, mechanics, merchants or professional men could, if called upon, within twenty-four hours, produce a satisfactory and lucid

could do this. And, yet, without the knowledge necessary to such an end, no man is really safe.

We, however, know one man at the head of one of our most prosperous establishments, who is conducting two different kinds of business at the same time, involving the expenditure and receipt of thousands of dollars during the year, and either of which would generally belowed. either of which would generally be deemed quite sufficient to occupy the entire attention of an ordinary business man; but who keeps, with his own hand, such a perfect and distinct account of all the exnect and distinct account of all the ex-penditures and receipts of both establish-ments, besides superintending and taking part in the various transactions of each, that he may know, any hour of the day, just what his profits or losses are in either branch, and show to a dollar, how much has been received or expended within any specified period. specified period.

specified period.

It is not at all surprising that such a man should prosper, or that, whilst others become insolvent and disappears from business circles, he should be making money and steadily extending his operations.

Young man! you are about leaving home, to battle for a name and place among your fellows. Take the advice of a friend, and do not make the attempt, a friend, and do not make the attempt, before you have paved the way to success by acquiring a thorough knowledge of business customs, and of those branches of education, that will enable you to estimate and properly record the results of all your business transactions. Do this and you are safe, neglect it, and you are almost sure to meet with disaster, and are almost sure to meet with disaster, and

The London Commercial College, under the direction of its founder and proprietor, Mr. J. W.
