MOTT'S BROMA. The following observations having in reference to the preparation of Broma, appeared in a latenumber of the Boston Medical Journal:—

A few years since a great manufacturer of Broma intenumber of the Boston Medical Journal:

"A few years since a great manufacturer of Broma sought the opinions of many unclical gentlemen of distinction, for the purpose of having an unobjectionable food for invalids, and was assured that he had fully successed. Hospitals, infirmaries, and households generally, should always be provided with it. When grael, arrow-root, groats, barley, starch, rice, farina, and many other things ordinarily resorted to for patients are of no utility, the Broma is sometimes relished. It is believed that those who use it as a beverage will have manifest diatetic advantage over the consumers of tea and coffee. We see it stated that during the last summer those individuals who were continually using Chocolate or Broma neither had attacks of cholera or dysenteric affections, while others of the same families, taking their daily polations in tea, coffee, or simple cold water, were the sufferers, if any.—We cannot vouch for the trath of this, but it has recalled to mind the statement that the oil dealers in London have been free from Cholera or the choleroid symptoms. And it has been further observed that persons who were taking cod liver oil for chronic difficulties, during the prevalence of the late epidemic, were not affected by it. Vegetable oil in the first instance, and animal oil in the last, taken internally, would appear, by these statements, to have secured those who took them from the that's of the pestience. At is certainly a point well worth while to determine, whether the chocolate drinkers have been secure in other infected cities.

Mott's Broma has now been before the public for a been secure in other infected cities.

been secure in other infected cities."

Mott's Broma has now been before the public for a cassiderable period, and along with the commendations of the Medical Falculty of this and the neighbouring Provinces, it has received the approbation of all classes of consumers.—It is held to be an article of standard reputation, and the demand for it is constantly increasing.

TRY ERE YOU DESPAIR. HOLLOWAY'S PILLS.

CURE OF ASTHMA.

Extract of a letter from Mr. Benjamin Mackle, a respectable Quaker, dated Creenah, near Loughall, Ireland Sept 11th, 1840.

Professor Holloway, RESPECTED FRIEND.—Thy excellent Pills have effectually cured me of an Asthma, which afflicted me for three-years to such an extent that I was obliged to walk any room at night for air, afraid of being suffocated if I went to bed by cough and phlegin. Besides laking thy Pills I rubbed plenty of thy Omement into my chest night and morn

OURE OF TYPRUS FEVER, WHEN PUPPOSED TO BE AT THE POINT OF DEATH.

A respectable femule in the neighbourhood of Loughall, was attacked with Typhus Fever. She lay for five days without having tasted any description of food. She was given over by the Surgeon, and preparations were made for her demise. Mr. Benjamin Mackie, the Quaker, whose case is referred to above, heard of the circumstance, and knowing the immence benefit that he himself had derived from Holloway's Phile, recommended an immediate trial, and eight were given to her, and the same number was continued night and morning for three days, and in a very short time she was completely cured.

N. B.—From selvice just received, it appears that Colonel Dear, who is with his Regiment in India, the 21st Fusileers, cured himself of a very bad attack of Fever by these coelebrated Pills. There is no doubt that any Fever, however malignant, may be cared by teking night and morning, copious doses of this fine medicine. The patient should beindaced to drink plentifully of linseed tea, or barley water.

Extract of a Letter from his Lordship, dated Villa Meesina
Leghorn, 21st February, 1845.

To Professor Holloway,

To Professor Holloway,

Sin, Warious circumstances prevented the possibility
of my thanking you before this time for your politeness in
sending your Pills as you did. I now take this opportunity of-sending you an order for the amount, and, at the
same time, to add that your Pills have effected a care of a
disorder in my liver and Stomsch, which all the most
eminent of the Faculty at home, and all over the Continent, had not been able to effect; hay! not even the waters of Carls, Bad and Barienbad. I wish to have another
box and a put of the Ointment, in case any of my family
should ever require either. could ever require either.

CURE OF A DEBILITATED STOMACH Mr. Mate, a storekeeper, of Gundaga, New South Wales, ad been for some time in a most delicate state of health, Mr. Mate, a storekeeper, of Gundaga, New South Wales, had been for some time in a most delicate state of health, his constitution was debilitated that his death was shortly looked upon by himself and friends as certain; but as a forlorn hope, he was induced to try Holloway's Pills, which had an immediate and surprising effect upon his system, and the result was to restore him in a few weeks to perfect health and strength, to the surprise of all who knew him. He considered his case so extraordinary that he, in gratitude, sent it out for publication to the Sydney Morning Herald, in which paper it appeared on the 2nd January, 1848. A few doses of the Pills will quickly relly the energies of both body and mind, when ether medicines have failed.

Ehis is to certify, that I have been afflicted with the Erysipelus, or the Sait Rheum, as the Doctors call it, for ten years. My hands were frequently so diseased, that I could make no use of them. I employed several physicians, but to no purpose as my suffering only increased.

I applied Mrs. Bertaux's Medicine for a short time and was soon cured of every vestige of the disease. The thank-fulness which I felt, on the long and pusific disease being removed, was much more than tongue can express. After three years from the time when I used the Medicine, was threatened with a relapse or return of the disease. was threatened with a reliable or return of the disease. I applied the Medicine and the disease disappeared. From that time to the present, I am perfectly free from all symptoms of Erysipelus or Nati Rheum. I therefore heartily recommend it to all who are similarly afflicted, as a speedy and effectual-remedy.

ANN S. WHEELOUK, Nictors.

Annapolis, January 3rd, 1851. Annapolis, January 3rd, 1831.

This is to certify that my daughter about a year ago had a very severe attack of Erysipelus in her head and face, so much so that there was left no hope of life. Medical aid was called, but the word was, that all was over as the dreadful disease had oversprend the brain, and she was raving distracted. In this extremity I had accidently heard of Mrs. Berraux & Medicals. I went and yot a small phial, and proceeded to apply it as directed; and simost instantaneously the disease was arrested from further progress, and, in a few days, the awelling was gone, and her natural cour returned, and she is now alive and well.

S., wargeen to the Leeds General Infirmery, and which are so highly spoken of in the Medical Gazette, February 1, 1850. For the information of those who cannot refer to the above work, it may be attented, that these Trusses consist of "an elastic ettel girdle, a pad of varying form, according to kind of hernia, and apprint aprint acting directly on the pad; elements which existing its various trusses besteafore known, are here combined in the construction of one." The "mode of attackment between the apiral and the pad renders my other instening unaccessary. An uniform pressure throughout the whole extent of the pad is thus obtained; and the spiral, acting as a universal joint, allows the girdle to adapt itself to the varying movements of the body without disturbing the pad."

A full description of these invaluable Trusses cannot be given in an advertisement; but it may be stated that they have been shown to several of the most distinguished Medual Practitioners of this City, who have expressed their nqualified approval of them.
