> WARRANTED POTASH KETTLES.

POTASH KETTLES.

THE Subscribers, Agents of the ST. MAURICE IRON WORKS, will receive large quantities of the above during the Season of sleighing, and have a few on hand at present, assorted, 34, 5, 74, and 11 cwt. Owing to the increased demand for this make of the article, arrangements have been made at the Works which will enable them to execute orders to the extent of 50 per week, if required. They beg to remark that the KETTLES latterly and now Manufactured at the above Establishment, are quite superior in quality and much lighter in weight than those formerly made, it having been the practice heretofore to cast from a Cupalo Furnace, a considerable portion of Scotch Pig Iron was necessarily used with Coke as fuel; at present they are cast from the Blast Furnace and solely and directly from the St. Maurice Ore, smelted exclusively with Charcoal, thereby producing a durability in the article that cannot be approached in any other Kettles that can be offered in this market. The weights have been made to compare with the lightest imported ones by keeping the edges and upper part thin, retaining the original thickness of bottom, and great care is taken to produce a perfectly sound casting in every Kettle. Notwithstanding the extra quality of the article and the circumstance of their being warranted, the Agenta have instructions to sell them at a very small servance upon the price of other makes.

They have also on hand a Large Assortment of POTASH COOLERS of all sizes, including the Flat Bottomed article of the most approved dimensions, with a Full Assortment of all the WARES and MI ST. MAURICE POTASH KETTLES, COOLERS, SUGAR KETTLES are BOILERS, as well as STOVES, will be known by the letters "F. Sr. M.," being cast apon them.
