

THE MAIL AND ADVOCATE

VOLUME 1, No. 145.

ST. JOHN'S, NEWFOUNDLAND, THURSDAY, JULY 9, 1914.

PRICE:—1 CENT.

LECTURE OF CHILDREN'S PHYSICIAN LAST NIGHT AT GRENFELL HALL BY DR. ADAMS WELL ATTENDED

Speaker Dealt in an Interesting and Instructive Manner With Some of the Problems of Rearing Children in Sane and Healthy Fashion—Premier Morris in the Chair

The lecture delivered at the Grenfell Hall last night by Dr. Adams, was fairly well attended considering the holiday season is now over and many are out of town, as well as considering the fact of the little attention that is being paid by not a few of our leading citizens in arousing the public on the great matters of health and how to preserve it for not only the present generation, but the generations to follow.

Dr. Adams was introduced by Sir Edward Morris, who in a pleasing introduction said it was a matter of regret few were present, but at the same time it was also a matter of congratulation that while so many were away from town, there were so many of those remaining who were interested in the subject of the lecture, as well as the work of the Grenfell Mission. The Grenfell Institute was now the concern of two continents and the two great branches of the Anglo-Saxon race and really had become international.

Praised the Lecture Sir Edward then referred to the gratuitous and self-denying offer of Dr. Adams, in placing himself at the disposal of the Grenfell Mission for a time to help in its philanthropic work and referred particularly to the work already done by him the past few days at the General Hospital. He hoped something of a permanent character may soon be established whereby remote sections of the country would be able to avail of the services to be afforded by specialists of Dr. Adams' class. Sir Edward then paid a tribute to the medical profession and all interested in the conquest of pain. A complete change, said the Premier, is coming over the world. We are becoming more cosmopolitan, and that will probably result in carrying out more fully the highest ideals of Christianity.

Was Well Received Sir Edward then introduced Dr. Adams, who was well received by the audience. Dr. Adams expressed the extreme pleasure to him of standing on the platform of the Grenfell Institute, associated as it was with the name of a man who is considered by Americans as one of the world's heroes. Dr. Adams then eulogized the medical profession and its services to humanity, told of its triumphs over the fevers of Panama, Cuba and other places, and its victories over the dread disease of consumption in the United States, where a few years ago the victims of this disease numbered 200,000 yearly, it now had been reduced to 50,000.

MILITANT LEADER AGAIN "MOUSE" "CAT" OF LAWS OF GREAT BRITAIN CHASES MRS PANKHURST TO JAIL

Spent a Few Hours at the Headquarters of the Suffragettes, But Was Seized by the Police On Her Way to a Luncheon and Haled Off to a Prison Cell

London, July 8.—Mrs. Pankhurst has again resumed command, and was at the suffragette office at noon today. Simultaneously with her re-appearance, a violent scene was created in the Central Criminal Court, where Alice Hall, Grace Roe, Julia James and Ellen Armes were brought up for conspiracy.

They had been arrested during a raid in a West End flat on May 21. In their rooms had been found shot-grenades, coils, fuse and plans of houses with instructions how to reach them.

Roe and Hall refused to plead, threw the pens and papers from the prisoner's enclosure, and shouted a running commentary on their treatment in Holloway jail. Two policemen and five women attendants carried them out of the court to their cells.

Mrs. Pankhurst was permitted to remain in active command for only a

Coming to his subject, "Deformities and Possible Prevention," he said, deformities were produced by tuberculosis, infantile paralysis, rickets, club foot. The prevention of deformities should begin with the child. In the pipes of the human body were the life fluids that contained the cause, the effect and the cure. Cleanliness within and without, fresh air and good food were the requisites for the proper care of the body and the giving of good blood, preventing physical malformations and ensuring an allround healthy organism. Mothers are largely responsible for the child and should carefully watch what goes into its mouth as food, its quality and its quantity. Candy should be avoided until children had reached the age of fourteen or fifteen years. Only food that contained proper proportion of protein, fat, etc., such as beef-tea, baked potato, baked apples, etc., should form the diet of a child.

Cases Observed Dr. Adams then treated on infantile paralysis and briefly referred to the cases coming under his observation the past few days. Tuberculosis,

SHACKLETON'S NEW SOUTH POLE TRIP WILL EMBODY MANY ORIGINAL IDEAS

Much of the Travelling Will be Done With Motor Sledges—Portable Tents to be Used Light, Compact Cooking Apparatus—What He Expects to Accomplish

London, July 6.—Imagine a wireless "S O S" being sounded from the Antarctic pivot of the world—from the South Pole itself.

"Hurry—We are dying." And then suppose this answer flashed back across leagues of polar snow from the quarters on Weddell Sea from which the Shackleton expedition will start for its march across the Antarctic continent.

"Cheer up. Motor sledge No. 2 is on the way to your rescue." Not probable, of course; but possible. For Sir Ernest Shackleton will in his forthcoming expedition depart from formula and tradition in attacking the secrets of the utmost south. Always in the past polar explorers have placed their main reliance upon leg muscle and endurance and a capacity to eat dog when the pemmican was gone—and when the dog was gone to get on somehow without eating anything. If nothing

ATTEMPTED TO DESTROY MEMORIAL TO BURNS

Militant Suffragettes Out At Acts of Vandalism Again

Glasgow, July 8.—An attempt to destroy the College at Ayr, where Burns, the Scottish poet, was born, was made last night by two suffragettes of the Arson Squad.

The women were surprised by the night watchman, while placing bombs against the doors and windows. One of them was captured.

English Man Winner Of French Trophy

Beats All His Rivals In Contest For Open Golf Championship

Le Touquet, France, July 8.—The French open Golf Championship has been won by a young and practically unknown player, J. B. Edgar, of Newcastle on Tyne, whose score was 238 for 72 holes.

Vardon, the British open champion, finished second with 294; Edward Ray, ex-champion of Great Britain, third, with 295; John Taylor, British open champion for 1913, was fourth with 296.

Particularly interesting was his criticism of the footwear used to-day which interfered with the proper balance of the body and produced many backaches through want of proper motion. In closing he asked the audience to deal fairly with the medical profession, for while it made mistakes there was no need for much of the criticism it receives to-day.

Vote of Thanks Hon. R. Watson, in proposing a vote of thanks, expressed appreciation of the spirit prompting the doctor in offering his valuable services

SPANISH DEPUTIES PUT THRU BILL TO CONSTRUCT NEW WARSHIPS

Madrid, July 8.—Despite strong opposition from Socialists and Republican deputies, the Lower House of Parliament have passed by a large majority, the Bill providing for the construction of a second squadron consisting of four battleships and several minor vessels, to be completed within five years.

CANADIAN NAVY WILL GO INTO SERVICE

Ottawa, July 9.—Part of the Canadian Navy will put to sea at the end of the present month. The Government has made an offer to the British Admiralty to send the Rainbow to Behring Sea to carry on the British share of the International patrol, following the sealing convention. The Admiralty has accepted the offer.

MINISTER PICCOTT INTERVIEWS BORDEN

Both Public Men Are Extremely Nice And Complimentary

Halifax, July 8.—Minister of Marine and Fisheries Piccott had a short interview with Sir Robert Borden today. He expressed great admiration for Canada, and said he was much impressed with the future possibilities and boundless wealth of the Dominion as a result of his trip to the coast.

Premier Borden returned the compliment by making very complimentary references to the sister Colony, and expressing good wishes for her prosperity.

Mr. Piccott was much pleased with his interview with the Premier.

League Football, St. George's Field, 7 o'clock this evening, St. Bon's vs. Saints.

WEATHER REPORT.

Toronto (noon)—N.W. to N. winds. Fine to-day and on Friday with slight lower temperature.

NATIONALIST FUNDS MOSTLY FROM U. S. A.

Funds For Volunteer Movement Almost All Subscribed in New York

London, July 8.—Fully seventy per cent. of the funds of the Irish National Volunteers are coming from the United States, according to the London Standard. The financial end of the movement is being controlled systematically from headquarters in New York.

A committee of wealthy Irish-Americans will shortly leave for the South of Ireland, with the object of obtaining first hand knowledge of the needs of the Home Rule Army.

SUFFRAGETTES BURN A RAILWAY STATION

Chester, July 8.—Suffragettes burned the railway station at Board Health to-day.

NEW AUSTRIAN HEIR IS THREATENED NOW

Belgrade, July 8.—Death threats having been received by Crown Prince Alexander, a special body guard has been provided.

DRAMATIC TIME IN THE COMMONS GOVERNMENT MAJORITY DOWN TO 23

Narrowest Shave Asquith's Government Has Ever Had—Division Was on the Question Of Closure—Bad Day for Ministerialists in Both Houses

London, July 8.—There was dramatic suspense in the House of Commons last night when the Government's majority fell to 23, the lowest Asquith has yet secured, except on one or two occasions when a snap division was called.

This situation which gave rise to great excitement in lobbies where there was talk of an almost immediate general election, arose from the Premier's motion to allocate only seven days to further discussion of the Finance Bill.

MINISTER PICCOTT INTERVIEWS BORDEN

Both Public Men Are Extremely Nice And Complimentary

Halifax, July 8.—Minister of Marine and Fisheries Piccott had a short interview with Sir Robert Borden today. He expressed great admiration for Canada, and said he was much impressed with the future possibilities and boundless wealth of the Dominion as a result of his trip to the coast.

Premier Borden returned the compliment by making very complimentary references to the sister Colony, and expressing good wishes for her prosperity.

Mr. Piccott was much pleased with his interview with the Premier.

WEATHER REPORT.

Toronto (noon)—N.W. to N. winds. Fine to-day and on Friday with slight lower temperature.

Laying Plans For Drive Of Rodents

South Alarmed Over Outbreak Of Bubonic Plague

New Orleans, July 5.—State and city health authorities are astir here preparatory to the inauguration of the first wholesale campaign in the history of the south, for the extermination of rats, to prevent the spread of bubonic plague.

Two cases of the disease recently have been discovered in the Industrial Volunteers of America, in New Orleans. One man died, another is ill, and twenty-eight inmates of the place have been isolated. With the home as a radius of a zone extending four blocks in every direction, the plans were for the construction of a concrete barrier around the entire area and for a rat drive toward the centre. Other barriers will be erected as the warfare progresses so that when the final onslaught is made every rodent within the infected area will have been destroyed.

Poison and traps will be used, drain pipes will be screened to prevent the escape of a single rat, and every expedient of scientific rat killing employed to prevent a spread of the infection to other parts of the city.

Health officers stated to-day that a spread of the plague was not expected. No further cases had developed.

Mr. G. Lewis, who was attending the S. A. Congress in London, returned by the Durango.

WENT OVER DETAILS

By telephone Mr. Curtis and I kept in touch over the details of construction. Mr. Curtis started yesterday morning building new hydroplaning surfaces attached as extensions of the bottom of the hull, making a surface fourteen feet wide. The work was not completed, but was patched up temporarily for a short test last night.

TO SELECT QUIET BAY

Mr. W. D. Walker called to-day on the Red Cross liner Stephano, for St. John's. There he will be met by Mr. W. D. Reid, of Newfoundland, who has generously offered his assistance in selecting a quiet bay for the launching of the America for her brief trials after her re-assembly. With Mr. Walker went E. R. Bowring, of Bowring Brothers, agents of the Red Cross line, who has lent great assistance to the Rodman-Wanamaker expedition in arranging for the transportation of the America and for the large number of friends who are going to Newfoundland to wish us bon voyage.

HOLD CONFERENCE

I hope still to leave for St. John's next Saturday. Captain Greigh Osborne, of the British Navy, arrived yesterday in Quebec and is coming to New York for a conference on the meteorological conditions. We shall have before us the newly issued pilot chart of the north Atlantic, issued by the United States Hydrographic office, which has been most courteous in furnishing data for our guidance. The weather indicated for July is about as we have been led to expect from the charts of former years.

TO WATCH FOR THE "AMERICA"

Porto Delgaña, St. Michael's, Azores July 4.—In connection with the transatlantic flight of the hydro-aeroplane America, John Lansing Callan has returned to St. Michael's from a tour of the Azores.

CALLAN IS ESTABLISHING GASOLINE STATIONS

Callan is establishing gasoline stations and has already fixed depots up at Flores and Fayal, but the principal one will be at St. Michael's. With the aid of the American Consul, Mr. Callan has arranged for the government to have the police at the harbors and the crews at the pilot stations keep a watch for Lieut. Porte and his America.

MR. BENTLEY, HON. E. R. BOWRING'S CHAFFEUR, ARRIVED BY THE DURANGO.

S.S. Adventure, Capt. Couch, leaves on Saturday for Sydney and Montreal en route to Hudson Bay.

PORTE LEAVES N. Y. ON SATURDAY FOR THIS COUNTRY TO ARRANGE FOR PROPOSED TRANSATLANTIC FLIGHT

W. D. Walker, His Advance Agent, Arrives Here by the S.S. "Stephano"—The Aviator Hopes to Make the Start This Month—Looks For Favorable Weather Conditions

Mr. W. D. Walker, accompanied by his wife, son and daughter-in-law, arrived by the Stephano this morning from New York.

The object of Mr. Walker's visit is to select a site for Lieut. Porte to start his Atlantic flight.

He will interview the Government as soon as possible, and will make the necessary arrangements.

Choose a Beach. Mr. Walker says that a beach will be necessary to start from.

The most favorable place nearest to St. John's is Topsail and the start may be made from there, but Mr. Walker will have to visit the place to see if the locality is suitable.

The intention was to ship the hydro-aeroplane by the Stephano this time, but the trials had not been sufficiently satisfactory and the machine did not arrive. It will likely leave by the Florizel on Saturday and if not by the Stephano next trip.

Some Stayed Over. A party of thirty had engaged passage by the Stephano to visit Newfoundland and view the start, but as the machine did not come they cancelled their tickets.

ARRESTED ON CHARGE OF MURDERING WOMAN

Freeport, N.Y., July 9.—Mrs. Florence Conklin Carman, wife of Dr. Edwin Carman, was arrested, accused as the mysterious woman who a week ago, murdered Mrs. Louise Bailey, by firing a bullet through her heart while she was standing in the physician's office.

FIND THREE BODIES HIDDEN IN A SWAMP

Atlanta, Ga., July 6.—The bodies of S. C. Bennett and two unidentified women, were found in a swamp at East Point, a suburb of Atlanta.

Witnesses indicated that all three had been shot. The bodies of the women were covered with brush, while that of Bennett lay in the open a few yards away.

The Coroner of Fulton County has been summoned to investigate.
