

LOCAL SUMMARY.

ATHENS AND NEIGHBORING LOCALITIES BRIEFLY WRITTEN UP.

Events as Seen by Our Knight of the Pen—Local Announcements—Billed Night Down.

Good lawn mowers, only \$4, at G. W. Beach's.

The model school was inspected by Dr. Kinney, I. P. S., last week.

The village and township assessors have made a due return of their rolls.

This week witnesses the departure of about all Athenian chessmen to their several factories.

Another lot of ladies' straw sailors just arrived at G. W. Beach's. Call and see the very latest styles.

Mr. Hugh A. Stewart, barrister, of Brockville, was a visitor in Athens last week.

E. S. Clow is prepared to furnish wheelmen with cyclometers, saddles, bells, cement and all other sundries, at lowest prices.

Mr. B. C. Phelps, Phillipsville, is in Athens yesterday delivering fruit trees for a Brockville nursery.

Mr. H. C. Phillips pulled in a big salmon near Goose Island last week, one of the first of the season.

Bicycles—Perfect, Garden City, Dominion, and others—four of the best wheels in Canada. Call and get prices at G. W. Beach's.

Mrs. Orren Little will sell by auction at lot 7, 8th, at 1 p.m., on May 8th, seven cows, 1 heifer, span of mares, 2 hogs, farm implements, vehicles, circular saw and jack, etc.

On account of funds accumulating quickly, will lend money on real estate at 7% lowest rate—\$12,000 on hand now. Mortgages also purchased.—JOHN CAWLEY, Athens, Ont.

CASH—\$800.00 worth of crockery china and glassware at bankrupt prices. Sale continues for a short time only.—T. W. Dennis, Tea Store and China Hall, Brockville, Ont., nearly opposite the Revere house.

T. G. Stevens has just received a fine assortment of fancy furniture for spring trade, making his stock complete in all lines. Please call and see. Will take basswood and ash lumber in exchange for furniture.

H. C. Phillips, assessor for village of Athens, returned his roll-book to the Clerk this (Wednesday) morning. The total assessed for the village is as follows: Real property, \$161,165; personal property, \$4,475; taxable income, \$1,300; making a total of \$166,940. Resident householders and householders, \$77; horses, \$136; dogs, \$33; birds, 7; deaths, 3. There is a slight increase in the total assessment over last year, and the population has increased 12 since last assessment was made.

The startling news reached Athens on Sunday of the sudden death of Allan Earl, of Pine Hill, Lansdowne. Allan has been a familiar figure on the streets of Athens since his boyhood. Last winter he lived in a shanty on the farm of A. E. Greene, being engaged in cutting and hauling logs and wood to the village. He preferred living there, and to any other place. A few days before his death he was taken ill with pneumonia and going to the home of his family he was sick only a couple of days when he was seized with a violent pain, which first developed in his elbow, and before a doctor reached his side he breathed his last. The funeral was conducted by the Rev. Wm. Wright in the Lansdowne church. He leaves a wife and seven children.

Athens Fire Protection.

For the benefit of those of our readers who reside inside the corporation of Athens, we repeat that portion of the proceedings of the village Council relating to fire protection. Summarized, it is as follows: The Captain of the Fire Company was instructed to reorganize the Fire Company, and the Council decided to grant the company the sum of \$100.00. Accordingly, an agreement was drawn up, reading as follows:—

"We, the undersigned residents of Athens, hereby agree to form ourselves into a Fire Company, and to have charge of the village fire engine, hose, hooks, ladders, etc., belonging to the village, and to work on such places as are assigned to us by the Captain of the Company. The signal on the engine house, making all haste possible to get to the engine house when an alarm for practice or a fire is sounded, and after the practice or fire is over, to assist in putting the hose and engine back in the engine house, and to assist the corporation of the village in the agreement of the sum of \$20 on the 15th day of December, 1896. We further agree to submit to a fire of 200 for each time called out to respond when we are within the corporation limits, unless given a written excuse by the Captain."

At the time of writing there are eleven names subscribed to the above agreement, and it is proposed to have not less than 15 in the Company.

The Council have decided that there should be two practices each month, held on the second and third Monday evenings in each month, at seven o'clock.

Any able bodied man willing to subscribe to the above agreement will please notify the Captain at once.

In order that the citizens may know the difference between an alarm for practice and a fire, the following rules regarding the ringing of the gong on the fire hall have been adopted: The alarm for practice will be three strokes on the gong; then a pause of a few seconds, then three strokes more, with a pause between each three strokes. For a fire, a steady, quick stroke, until the general alarm is sounded from the bell on the Presbyterian church, which will be detected by the short, quick strokes in the mind so as to prevent a misreading of the gong on the fire hall. The alarm on the Presbyterian church will never be rung except in case of fire.

The first practice for the season was held on Monday evening. The engine was placed at the well in front of the Armstrong house, and everything was found to be in first-class condition. A stream was thrown fully forty feet above the top of the three-story central block, with only 11 men and three boys at the brakes. All the town needs now is a few more tanks.

Miss Jeanie Walde of Phillipsville spent Sunday in Athens.

A number of Athenian ladies are riding bicycles this season.

Lace curtains at 25c, 45c, 50c, 75c, and \$1 pair at G. W. Beach's.

The village council is to be petitioned to have Sarah street opened up north of Main street.

5,000 Deacon skins wanted at the Athens Meat Market by S. Wilson & Son.

Make it a point to see that your blood is purified, enriched and vitalized at this season with Hood's Sarsaparilla.

Mr. T. Ikahara of Japan, who visited Athens last summer, last week graduated B. A. at Queen's college, Kingston.

Come and look through and see the wonderful bargains in dress goods at G. W. Beach's. All-wool serges, 12c per yard.

Rev. W. Warren Giles will occupy the pulpit of the Baptist church, Athens, on Sunday evening next at 7 p. m. All are invited.

Mr. W. H. Jacob is erecting a new cottage at Charleston Lake. It is situated near Foster's bay, beyond Lake View cottage, on one of the prettiest points of the shore.

The Conservatives of the Township of Yonge will, at their meeting on Saturday night, elect the officers for their association for 1896 and also delegates to the convention on May 6th.

On Saturday, May 2nd, M. L. Dunham will offer for sale by public auction at his farm, a half-mile south west of Toronto, 100 acres of splendid land with good buildings, fences, etc. The proceeds of the sale will be divided amongst the heirs, there being but very few outstanding liabilities. The farm was sold to wind up the estate.

The Reporters was in error last week in stating that the laundry business of W. G. McLaughlin had been bought out by E. W. Higgins of Brockville. The business and machinery are still the property of Mr. McLaughlin, who is prepared to sell to any responsible person. Wm. claims that there is a "bill" in it for good making, and it was only closed because he had to resume the barber business to save himself from loss. Any person wishing to engage in a good paying laundry business would do well to consult Mr. McLaughlin.

Marden Kemp, specialist in piano treatment and tuning, was in Athens last week. Brockville, Ontario, later. As every successful tuner has many enemies, Mr. Kemp has his share. Some, agents under the guise of tuners; others, who go from house to house, and who get a commission from those whom they recommend. Mr. Kemp does not commission any person to secure him work, as he is busy all the year without ceasing, which is the result of a most practical training in fact and was not before giving his services to the public, which is a record very few can claim, and he advises those who have instruments that it is most foolish to take charge of it, as many have very little knowledge of the finer branches, which is very necessary. Orders left at Lamb's Drug Store. Positively, no canvassing except to patrons.

An Exciting Bear Hunt.

Jack Kirkwood, living in the township of South Ontario, about six miles from Lavant Station, on the Kingston and Peninsular Railway, and the following account of one day's sport he had last year in the neighborhood of Denbigh. He was working in a lumber shanty, and wishing for a few days' recreation, he decided to go to the hills. He got nearly four miles from camp without seeing any game and had about concluded to return, when, walking along the ridge of a hill, he observed a large spotted deer on the slope near a large upturned pine tree. On getting close to the log he saw something black and commenced firing. Three large bears leaped out of the cavity and started at a lively pace for the cover of the trees. In the excitement of seeing two of them drop in their tracks and the third crawl off limping. Just at this moment Jack discovered that his ammunition had run out, and he had the mortification to find that he had no more powder in his gun. Hanging his now useless gun on a limb near the carcasses of the bears, he started at a lively pace for camp, where, procuring the assistance of a chum and taking with him a couple of cartridges, they returned, dragging an Indian hand-saw to bring the game home on. On reaching the vicinity of the place where he had left the dead bears, Jack was astonished to find the wounded bear on its feet and was standing beside one of its dead mates. How to get hold of his Winchester, which was hanging over the carcass of the other bear, not more than three or four rods distant, was the question that troubled Jack just at that particular time. He could not tell how badly the bear was wounded, and he knew that a wounded bear was an ugly thing to tackle without a gun in his hand. Happily he thought of an expedient which solved his purpose. He sent his companion round to a point directly opposite to where his gun hung, and told him to get up on a bluff rock a few rods from where the bear was standing and shoot to draw the bear's attention, and should draw the bear's attention, he took out and deliberately aimed at the bear's head, and the first shot killed the bear dead. Loading the two bears on the hand-saw and dragging the other one over the crust, they started for camp. On the way home they met a cross small lake, where they saw the hunter they saw a large otter fishing at a hole in the ice. Crawling up within 150 yards, Jack fired his trusty Winchester, with the result that the otter was blown from the hole and killed outright. They again took to land, and the sled and canoe towards camp, which they did not reach until midnight. The hunter saw a large otter fishing with his day's work. He said the bears' meat to the house of the shanty, the hunter brought him a nice skin, which he sold for a good price. Jack felt a great deal better after that trip than he did after eating a supper of bean soup at the Reporter camp a few years ago.

Eggs dropped to nine cents a dozen in Brockville last week.

Mr. and Mrs. George Mowat formerly of the Revere House, Brockville, are now in charge of Cedar Park Hotel, Charleston.

On Friday night Mrs. Wood, mother of Hon. John F. Wood, died at the family residence, Brockville, aged 74 years.

Mr. Edward Davis, administrator of the estate of the late N. E. Brown, New Dublin, will sell on Wednesday, May 6, at the late residence of deceased, nine cows, two colts, farm implements, vehicles, and other chattels belonging to the estate. G. N. Young, auctioneer.

High school students commence this week writing on the test examinations. The papers for these are very carefully prepared by the staff, so as to cover the work of the year as fully as possible, and the results will give the students a very fair idea of the progress they have made and of their prospects for success at the midsummer examinations.

The Old Fellows of Athens, instead of the customary church parade and special service, will this year mark the anniversary of the institution of the order on this continent by holding a public meeting in the Methodist church on Friday evening, when addresses by local clergymen, will be presented.

The farm of the late Levi Stevens of Plum Hollow was sold by auction at the Armstrong House on Tuesday evening, and was struck off to I. C. Aigue, who is said to be acting as agent for \$3,500. The farm consists of 110 acres of splendid land with good buildings, fences, etc. The proceeds of the sale will be divided amongst the heirs, there being but very few outstanding liabilities. The farm was sold to wind up the estate.

Jack felt a great deal better after that trip than he did after eating a supper of bean soup at the Reporter camp a few years ago.

Bicycling is growing in popularity here as elsewhere and it is probable that the village will contain over forty wheels before the season closes.

We know that we always get sparks from a match, but the sparks are still in the dark. For when it's a courtship, the case is reversed. We then get a match from a spark.

The season is now at hand when a man with a small patch of green grass will dance the tables of his neighbor as deep as sixteen feet, six inches. The grass is not a patch, but a patch, and the neighbor is not a neighbor, but a neighbor.

On the evening of Monday, 4th of May, Dalton McCarthy, M. P., and Wm. Galbraith, P. G. M., L. O. L., of the Province of Quebec, will deliver addresses in the opera house, Brockville, on the political questions of the day, particularly the Manitoba school question.

The grain fleet which has been wintering at Chicago will sail eastward this week, carrying 9,000,000 bushels of grain. A few of the vessels are loaded as deep as sixteen feet, six inches. The grain is not a patch, but a patch, and the neighbor is not a neighbor, but a neighbor.

Last week a paragraph appeared in the Charleston correspondence of the paper stating that Mr. A. E. Donovan whether he gets the Conservative convention or not. We are authorized by the political questions of the day, particularly the Manitoba school question.
