

PASSED MANY A SLEEPLESS NIGHT

Will He Used Dodd's Dyspepsia Tablets—They Set H. S. Barnes Right On His Feet.

Hot weather and indigestion travel hand in hand, each helping to make the other more disagreeable. For when the stomach lags in its work the body grows weak, and weakened bodies cannot stand inconveniences of any kind.

The remedy is to help the stomach and the help the stomach needs is contained in Dodd's Dyspepsia Tablets. Those who have used them will tell you that. H. S. Barnes, of Rat Portage, has used them and he says:

"I was a victim of Dyspepsia and reading of Dodd's Dyspepsia Tablets led me to try them. The effect was marvellous. They set me right on my feet after having spent many a sleepless night suffering from a disordered condition of the stomach." Dodd's Dyspepsia Tablets cure all stomach ailments. One or two Tablets taken after a hearty meal is an insurance policy against discomfort of any kind.

Many men get an idea they know a great deal through women's flattery.

A boy may know entirely too much without having finished his schooling.

'The YELLOWSTONE,' NATIONAL PARK

is something absolutely unique in this world.

The popular route to this delightful spot is via Union Pacific to Monida, thence by stage to all points in the park.

The stage ride from Monida, by the splendid Concord Coaches of the Monida & Yellowstone Stage Co., through scenery hardly inferior to the park itself.

Very low rates during June, July, August and September.

TOWNSHIP COUNCILS

RALEIGH COUNCIL.

The above Council met, pursuant to adjournment, in the Town Hall, on the 31st of July, with all members present.

Minutes of last meeting were read and adopted.

Communication from Co. Clerk, that county rate for 1905 is \$4.4, 635.70, the same as 1904.

From Edw. Randall, that he had paid Alex. Baird, C. E., \$7.25 for inspection of the Martin drain.

From Lewis & Richards, solicitors for Perry Dolsen, objecting to the township draining part of the 4th Con. road into his tile drain.

From Geo. T. Crow, complaining that Mr. Thomas, who is operating the free ferry, will not allow him to take 3-ton loads of coal across on the ferry.

From Clerk of Tilbury East, a copy of resolution appointing A. McDowell to act with an engineer appointed by Raleigh to report on the improvement of the Town Line, north of Jeannette's Creek.

Moved by Sykes and Wellwood, that J. W. Shackleton, C. E., be appointed to act with A. McDowell, C. E., to examine the Town Line, north of Jeannette's Creek, and to examine the Dauphin and Pike Drainage Works, and report, with plans, specifications and estimates of whatever works are necessary for the improvement of the road and for the better maintenance of the Drainage Works, and to allow each municipality compensation for work already done, and to make an assessment upon all lands and roads liable therefor.—Carried.

A petition was received from John Pepper to extend the Wright drain along the south side of the 15th Con. road to lot 12.

Referred to J. W. Shackleton, C. E., to examine and report.

A petition was received from D. and S. Orr, to repair the Hooper King drain.

Referred to J. W. Shackleton, C. E., to examine and report on from lot 12 to the Drake road.

A petition was received from John Houston and other ratepayers on the Graham drain, to place a dam in the 11th Con. road ditch in front of lot 8, to prevent the waters from the lot 75 acres of lot 8 flowing into the Graham drain.

Messrs. F. Sutor and J. Houston waited on the Council and asked for a grant to the West Kent Agricultural Society.

Moved by Irwin and Sykes, that the W. K. Agr. Society be granted \$50.—Carried.

A. Broadbent informed the Council that the Pere Marquette Ry. Co. had a small pipe on the ground ready to place in the Wright drain, and that the pipe was not of sufficient size to carry the water.

Moved by Sykes and Irwin, that the Clerk notify the P. M. Ry. Co. that the Council objects to the placing of a small pipe under their road-bed in the Wright drain, and request that an opening of sufficient size to allow the free passage of water be constructed by the company.—Carried.

R. D. Payne waited on the Council in reference to the opening up of La-robe street to the 6th Con. road, petitioned for in May, 1904, by 75 ratepayers, and asked that steps be taken to have the road opened, that the city was willing to procure one-half of road from the Robertson-of-Inches estate.

Moved by Sykes and Wellwood, that the Reeve and Mr. Irwin be a committee to wait on the owners of the Fairbanks property and report on what arrangements could be made with them.

The Reeve reported that he had submitted the treasurer's bond to J. G. Kerr, who informed him that the same was useless and that he instructed Mr. Kerr to draw a new bond and enter the lands of the treasurer and T. B. Harvey in the same. The Reeve submitted the new bond and the treasurer expressed his willingness to execute the same.

Moved by Wellwood and Sykes, that the resolution of Feb. 6th in reference to the treasurer's salary be rescinded and the said treasurer be paid \$325 per year.—Carried.

James Wellwood reported that he had built the bridge at the corner of the 13th concession and Drake road for \$60.61 and charged same to the Larabee drain.

W. J. Shreeve reported that he had repaired the bridge for John Kearns for \$107.74, and the one crossing the Drake road for \$84.01, and charged to Government Drain No. 2; and bridge over the tap to the Phipps drain for \$47.75.

The Reeve reported that he had paid the costs of Wilson & Co. re: Bailey vs. Raleigh, \$173.74, and the costs re: Houghson vs. Raleigh, \$260.

Edward Dillon reported that he had omitted to report in 1904 allowing Wm. Larabee two years roadwork for levelling the grade on the 14th concession road.

Moved by Sykes and Wellwood, that the Clerk notify the commissioner of the Lewis drain to have said drain completed at once, and to report on the Millar, Puce and Waddick drain.

Moved by Wellwood and Shreeve, that whereas complaint has been made to this Council that the tile culvert in the Wright drain at the 15th concession was not put down to the proper depth, be it resolved that the matter be referred to the commissioner of Division No. 5 to have said culvert lowered at the earliest convenience.

Moved by Sykes and Wellwood, that whereas Alexander Baird, C. E., has been appointed engineer under the D. & W. C. Act, the Clerk be instructed to notify W. G. McGeorge of the same.

Moved by Irwin and Sykes, that the following parties be paid for sheep killed by dogs, viz.: A. Broadbent, two sheep and one lamb killed, \$13.33; James Millar, one sheep and one lamb killed, \$7.33; Edgar Lark, three sheep killed, \$12.33; Wellwood, three sheep and one lamb killed and three sheep and three lambs damaged, \$32.33; Walter Bennett, one sheep and two lambs killed and one sheep injured, \$14.66.

It is just a common cold, people say, there's no danger in that. Admitting their statement, then there are uncommon colds which are dangerous; for many a fatal sickness begins with a cold. If we could tell the common cold from the uncommon we could feel quite safe. But we can't. The uncommon variety is rarely recognized until it has fastened its hold on the lungs, and there are symptoms of consumption.

At the first symptoms the careful person will heed the warning by taking a mild laxative; some vegetable pill that will not disturb the system or cause griping. About the best is "Dr. Pierce's Pleasant Pellets." If the cold starts with a cough, and it persists then some local treatment for the throat should be taken. A well known extract, which has been highly recommended by thousands of users, is Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of only the extract of roots and herbs and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnated and poisoned blood.

It contains no alcohol to shiver up the blood corpuscles, but makes pure rich red blood.

Dr. Pierce's two-page illustrated book, "The Common Sense Medical Adviser," is sent free in paper covers on receipt of 31 one-cent stamps to pay cost of customs and mailing only. For 50 stamps the cloth-bound volume will be sent. 1008 pages. It was formerly sold for \$1.50 per copy. Address Dr. R. V. Pierce, Buffalo, N. Y.

Moved by Irwin and Shreeve, that the treasurer's half yearly report be adopted.—Carried.

Moved by Wellwood and Irwin, that the complaint of Geo. T. Crow re: ferry be referred to Mr. Shreeve to investigate and report.—Carried.

Moved by Wellwood and Irwin, that the Clerk advertise for applications for collector of rates to be in by next meeting.—Carried.

Moved by Irwin and Sykes, that the commissioner of Division No. 5 be instructed to build a bridge over the Shadd drain for Henry Parson and the Clerk notify Alex. Parson to return the money received for same.—Carried.

Moved by Sykes and Shreeve, that the Clerk notify James Ross that this Council has received a petition to place a dam in the 11th concession ditch at the line between the west 25 acres and the east 75 acres of lot 8, but if he will agree to pay the assessment to the Graham drain placed on him by the Court of Revision then no action be taken, but if he refuses to pay said assessment then steps will be taken to have the dam constructed.—Carried.

The report of J. W. Shackleton, C. E., for the proposed extension of the Bradley drain was laid over.

Moved by Wellwood and Irwin, that the Court of Revision on the Merin sidewalk be held on Aug. 28 at 10 a. m., and the Clerk serve a copy of the assessment, etc., on each owner in accordance with section 671 of the Municipal Act.—Carried.

J. W. Shackleton submitted his reports for the repair of the Slaggs and the Crow drains, which will be considered at next meeting.

Council adjourned.
A. E. ROBINSON,
Clerk.

JAPANESE WHALERS.

The Curious Way They Do Their Work With Nets and Knives.

Whales are captured in nets by the Japanese. The whalers put off from the shore as quietly as possible, and when they come within the proper distance of their objective the boats, which have hitherto worked in couples, separate and, dropping their nets as they go, work around to the rear and flanks of their expected kill. The nets are made in large squares, each side being about forty feet long. One net is composed of six squares in line, and the squares are fastened to each other lightly. When all is ready the boats which have been worked around to the rear of the whale then commence to drive him gently toward the nets. Moving along lazily at first, the whale soon realizes that something untoward is happening and, hurrying forward, dashes on to one of the nets. This is the critical moment, and when the fishermen see that the whale is well in the center of one of the squares they raise a great shout and charge in upon him.

When the whale is about spent a man chosen for his strength, activity, pluck, coolness and general fitness for his work then leaps upon his back and with a great triangular shaped knife proceeds to cut two great gashes in his body just back of his head. Through the underlying blubber and these two gashes he passes a rope and, knotting it, makes a loop of it. He then repeats the same operation as far back on his body as he can. When the tight has been completely knocked out of the whale, boats range alongside of him, and by the help of the loops already mentioned the hapless cetacean is slung between them in such a manner as to minimize the danger of his carcass sinking.

Then the boats form in procession, and, making for the shore, there commences the most curious part of the whole affair. The whalers, with real fervor and in the most solemn manner possible, begin a chanting prayer for the ease of the departing spirit by calling out "Joraku! Joraku! Joraku!" in low, deep tones. Upon the third day after the kill a memorial service is held in the village temple, and prayers are offered for the repose of the dead whale's soul.

POINTED PARAGRAPHS.

How many men work too hard? How many do you know?

Every good husband is henpecked. That's all there is to it.

Classical music is like some people—very hard to understand.

It is said that a farmer gets the best work out of a farm hand who is aspiring to be his son-in-law.

Perhaps one reason why a poor man lives longer than a rich one is that the doctors don't take so much interest in him.

When an economical man suffers a ten dollar loss he cuts out expenditures reaching to \$50 before he feels right about it.

If you have faults the idea is not to humiliate yourself by acknowledging them to your enemies, but to get over them if possible for your own good.

Leaping Treason.

King William III. of England was passionately fond of the chase and made it a point never to be outdone in any leap, however perilous. A Mr. Cherry, who was devoted to the exiled family, took advantage of this to plan the most pardonable design which was ever formed against a king's life. He regularly joined the royal hounds, put himself foremost and took the most desperate leaps in the hope that William might break his neck in following him. One day, however, he accomplished one so imminently dangerous that the king when he came to the spot shook his head and drew back. It is said that Mr. Cherry at length broke his own neck and thereby relieved the king from further hazard.

Rossini's Jealousy.

Rossini was intolerably jealous of all his musical contemporaries and particularly of Meyerbeer. In 1836 he heard "The Huguenots," and on listening to the performance from the beginning to the end he made up his mind that Meyerbeer had excelled him and determined to write no more. He lived until 1868, but produced nothing for the lyric stage. His thirty-two years of retirement were spent in the pleasures of a voluptuary. He was particularly fond of good eating and drinking and assembled about him the youngest and gayest society he could attract to his house.

A Roumanian Custom.

A strange custom is still observed in Roumania which reminds one strongly of Robinson Crusoe. When a servant has displeased his or her master the offender takes his boots in his hands and places them before the bed-room door of his master. It is a sign of great submission, and the boots are either kicked away as an intimation that the fault will not be forgiven or else the servant is told to place them on his feet, which shows that he is forgiven.

Inherited.

Settlement Worker—What a well behaved little boy he is! The Burglar's Wife—And he comes by it natural, mum. His poor father never failed to have a sentence reduced owing to good behavior.

Shattered Ideal.

"Paw, what does it mean where it says here that the girl's ideal was shattered?"

"Why, it means she found that she could marry a wealthier man."—Detroit Tribune.

Better Than Ever

and Still the Best

"SALADA"

Ceylon Tea is the original sealed lead packet tea of America. It has many imitations but no equals. Black, Mixed or Green.

25c, 30c, 40c, 50c, 60c. By all Grocers. Highest award St. Louis, 1904.

For the Nerves.

Mere stroking, used in varying degrees of swiftness and pressure, is very soothing to an excited nervous system. The gentler and slower the stroke the more marked is its sedative action. In some way not quite clear it promotes mental peace and nerve rest. Soft fingers, ungloved, are the best implements, and no adjunct of any kind is needed. The stroking may be confined to the forehead, the head or may engage the entire body. A sympathetic mind will communicate itself to the touch. Try this for nervous headache and hysteria.

PURGATIVES ARE DANGEROUS. They gripe, cause burning pains and make the constipated condition even worse. Physicians say the ideal laxative is Dr. Hamilton's Pills of Man-drake and Butternut; they are exceedingly mild, composed only of health-giving vegetable extracts. Dr. Hamilton's Pills restore regular movement of the bowels, strengthen the stomach and purify the blood. For constipation, sick headache, biliousness and disordered digestion no medicine on earth makes such remarkable cures as Dr. Hamilton's Pills. Try a 25c. box yourself.

A Young Wife's Duties. Perhaps there is nothing more important to a young wife or more calculated to make home happy than a proper knowledge of her duties and a due regard for household expenditure. Yet many a young girl entering upon life is wholly unqualified for her duties and has to pick up, as it were, her knowledge instead of exercising it. A thorough knowledge therefore of domestic economy is an important part of the requirements of a young girl and as much a moral obligation on her part as it is on that of a man to have that professional information and tact which enables him to provide for the wants of a wife and family.—London Observer.

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, of the glands, palms of the hands, swellings, itching of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 5 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every Method Treatment for four months and at the end of that time every disease since. My boy, three years old, is sound and healthy. I refer any person to me privately, but you can use this testimonial as you wish."
