Wholesale Agents for the Maritime Provinces for the A S one of the founders of THE CANA-DIAN MONTHLY, and having been SMITH AMERICAN ORGAN CO.'S ORGANS. more or less connected with it since its first appearance in 1872, the present writer feels a just pride in emphasizing the fact that with the next issue the publication will enter upon its nineteenth rolume. That the periodical still lives and makes progress, however slow, is, in view of the mutability of literary ventures in Canada, something, at least, to be in Canada, something, at least, to be thankful for. With a publication of its character, and with a field limited at best, and encroached upon by foreign serials, it was hardly to be expected that, if saved from disaster, its progress would be rapid. That it has maintained itself and won a creditable reputation, rs has been said, is matter, at any rate, for congratulation. Those now connected with it feel, how-

Those now connected with it feel, how-ever, that the time has come when they may reasonably expect that from now onward the pregress of the Magnzine will be more marked, and that a heartier sup-port will be given to the undertaking, to justify the continuance of efforts made, not only for its pre-autions on old lines, but for its enlargement and improvement, and above all for the remuneration (as formerly) of its writers. With the develop-ment of national thought, with increasing interest in native literature, and the return, interest in native literature, and the return, withal, af 'better times,' it is believed that withal, at 'better times,' it is believed that these expectations will be realized, and the desire of Editor and Publishers be attained. Collectively, the friends of the publication can make this matter assured. Individually, each can aid in bringing about the desired result. The press, too, can be very helpful. Whatever is accomplished, to the favour and interest of a Canadian public, the publishers again commend their enterprise.
