Would Not Release Him. John Henry, a contractor, whose tender was accepted for the carpenter work on the new fire station, appeared and told the aldermen that he had made a mis-take of \$500 in his figures, and that if he was obliged to proceed with the work he would lose that much on the job. Ald. Peregrine inquired why he did not come forward before this, and Mr. Henry re-plied that he thought after the Council had sent the tenders back the first time he expected the whole thing was going to fail through.

He claimed that the committee in the case of the electric pumps had called for tenders, and when a mistake was made permitted new tenders to be called for. Chairman Clark said the committee had done nothing of the kind. Through a mistake in the engineering department one of the firms did not receive a sup-plementary specification, and as the tenders had not been accepted new figures were called for. The aldermen expressed sympathy for Mr. Henry, but agreed that they could do nothing.
