LORD BYNG HERE EARLY IN JUNE

The date of the visit of Lord Byng, of Vimy, to New Brunswick will be early in July, according to advices received by Premier Veniot. The expectation is that the Governor General, Lady Byng and their official party, will reach Fredericton about July 3rd on a tour which is to embrace the three Maritime Provinces.

Laying the corner-stone of the new Memorial building at the University of New Brunswick will be one of the public functions at which the Governor General will officiate.

Apparent Cure For Cancer Reported

Apparent cure for cancer

An apparent cure for cancer, consisting of a solution of colloidal lead, which is an enemy of diseased tissues, has been discovered by Professor Blair Bell, Liverpool University, according to Dr. L. E. Houghey, Concordia, Kansas, who returned on the President Adams after studying surgery abroad for several years.

Not Always What They Are Called

It is curious how certain expressions are now accepted without question by everybody and are even frequently used in writing, when in reality they are most misleading. For instance, galvanized iron, is not galvanized but is merely iron coated with zinc; German silver is not silver at all and was invented in China; catgut has nothing to do with cats but comes from sheep; the Welsh onion is not an onion and it comes from Liberia; Brazilian grass is not grass but comes from Cuba; moles are not blind; Irish stew is almost unknown in Ireland; kid gloves are made of sheepskin; Baffin's Bay is not a bay; sealing wax contains no wax; whalebone is not bone; the titmouse is a bird; and Prussian blue does not come from Prussia. So that it is not wise to take the book by the cover, as it were, in all things.

Miss Canada On Fishing Trip To Cain's River

Miss Canada, accompanied by her mother, Mrs. F. R. Blair, Mr. and Mrs. W. H. Golding, St. John, and W. G. MacLauchlan, Halifax, representing a moving picture company, were met by W. H. Allen, who will conduct the party on an eight days salmon fishing trip on Cain's river.

HOW TO GO TO SLEEP
The best way to learn to sleep is not to care if you do or not. Nothing could be better than Du-Bols' advice: "Don't look for sleep; it flies away like a pigeon when one pursues it." Attention to anything keeps the mind awake, and most of all, attention to sleep. We cannot, however, fool ourselves by merely pretending indifference. The only sensible way is to get the facts firmly fixed in our minds so that we actually realize that we do need more sleep than our bodies take. As soon as it is realized that insomnia is of no importance, it tends to disappear.

A GUIDE TO ROSE GROWING

Although most persons who love flowers desire to grow roses, any who have planted a few bushes have been unsuccessful and have become discouraged. To assist in overcoming the difficulties that gardeners sometimes find in growing roses, the Dominion Horticulturist has prepared a bulletin that deals with practically all phases of rose culture in Canadian gardens. The bulletin is entitled Hardy Roses, Their Culture in Canada, and bears the official number 17 of the Department of Agriculture at Ottawa.

The observation is made that certain species of roses are very easy to grow and that those who are not prepared to give the finer types the attention their beauty merits, will find in the Rugosa hybrids, the Austrian briars, the Provence or Cabbage and the Damask roses a very good assortment of roses that are hardy and of easy culture, requiring but little pruning, and not being troubled by insect and fungous enemies.

It will be of interest to learn that the Experimental Farms have succeeded in producing a very beautiful rose of unusual hardness. It is a cross between Rugosa and Persian Yellow and has been named Agnes.

Besides giving complete instructions as to soil, planting, pruning cultivation, winter protection, and insect enemies, the bulletin gives lists of various classes of garden roses that have succeeded in Ottawa. The following varieties of Hybrid Perpetuals and Hybrid Teas have been selected as a dependable collection of reasonably hardy roses: Frau Karl Druschki, white; General Jacquemiot, scarlet crimson; Her Majesty, pink; Hugh Dickson, crimson; Mrs. John Laing, pink; Mrs. R. G. Sharman Crawford, pink; Ulrich Brunner cherry red; Caroline Testout, pink; General McArthur, bright crimson; Gruss an Teplitz, bright crimson; Lady Ashtown, pink; Lady Pirrie, coppery pink; Madame Edouard Herriot, coral red; Madam Ravary, yellow.

Recommended climbers are American Pillar, Dorothy Perkins Hiawatha, Tausendschon. This bulletin which is generously illustrated, is available at the Publications Branch, Department of Agriculture, Ottawa.

British Embargo Will Affect Prices Here

Montreal, May 22.—The raising of the embargo on Canadian cattle in England is having an adverse reflection here, where the price of meat has been increased two cents—and in some cases four cents—a pound. The reason given is that the supplying of the English market has had the corresponding effect of decreasing the available supply for the Canadian domestic market with the result noted. Whether the increase will be temporary or permanent, local wholesalers do not at the moment indicate.

American Women Burn German- Made Poppies

Cedar Rapids, Iowa, May 22.—"Poppies made in Germany are not fit to honor our boys who perished on Flanders Field," said the women of the American Legion Auxiliary to day. They voted last night to burn ten thousand cloth poppies in a public bonfire on the Municipal Island Friday night. The poppies had been purchased to sell on "Poppy Day" which falls on next Saturday. Later it was discovered they were German made.

FOREST FIRES AND THE CITIZEN

Forest fires have made such inroads upon Canada's forests, that no citizen having the country's interests at heart can refrain from adopting every sensible precaution in his personal conduct. Unextinguished camp fires, lighted matches and tobacco have robbed the nation of millions of dollars in public-owned property. To leave a camp fire burning while in or near standing timber is a plain invitation to a disaster. The lighted match and the cigarette are in the same category.

AN INTERESTING REPORT REGARD- ING THORNTON

A report that Sir Henry Thornton, President of the Canadian National Railways had been elected a director of the Canada Steamship lines was called to the attention of the government in the House of Commons by H. A. Stewart, Conservative member for Leeds. He wanted to know whether the information was accurate and if so, whether the government approved of his becoming a director of a corporation that competed with the Canadian National Railways and the Canadian Government Merchant Marine.

Hon. George P. Graham, Minister of Railways, replied that the government had no other information than that contained in the press but that he would enquire.

Back to Work
Kendall's Spavin Treatment will get that lame horse back on the job again. Something to Consider

Who makes the RANGES sold here and did you ever try to find out the REPUTATION of the foundries back of the ranges on sale? Then did you ever consider the KNOWLEDGE the salesman has of a stove or range while he TALKS to you and you are looking over a range? There is nothing so VOID of SENSE as a person talking RANGE who has not grown up in the business.

When you want a RANGE call and let us REASON a bit with you.

We have the finest line of RANGES produced in CANADA. Our prices cannot be trimmed—we know the Business and have no substitute for QUALITY.

This is the REASON we have the RANGE business of the entire country.
