LARGE COLT.—Mr. John Delbridge, of the 9th con. of Usborne, has a colt which was foaled on the 24th of May. It stands 12½ hands high, girths 2 feet 3 inches, measures around the arm 14 inches, knee 12½ inches, and shank 7 inches. It has a fine long neck, short back, tail well up, wide breast, and extra good in strifle. Good horsemen pronounce it the largest and best colt they ever saw. It was sired by Mr. George Ullyott's imported horse "Lorne."

We are requested to state by one of our leading quoit players that he is ready at any time before the 15th (saving Dominion Day) to meet the pitchers of Auburn or Smith's Hill four on a side. Let our friends in these places name a day for the fun.

FAREWELL SERMON.—A farewell sermon was preached by the Rev. Mr. Broad at the B. C. Church on Sunday evening last. In spite of the rain there was a good attendance. The choir under the leadership of Mr. Hotton, sang a number of appropriate pieces. The preacher had as his text 1st Cor. 13 chap. 16th v. He urged on his hearers to be ever true in their Christian duties, to be united in God's cause and to put their trust in Him. In doing so they would grow in love, knowledge and zeal, and a perfect faith, and to be called away meant to go to a happy heme. In closing, he made an earnest appeal to young people to make God's word their counsellor and to take up the cross and follow him. At the close of the service many of the congregation came forward and bade good by to Mr. Broad. He sand a pumber of different articles, but being and to take up the cross and follow him. meeting of the Directors of the Hay Branch Agricultural Society was held in the town hall, Zurich, on Thursday of last week. Besides other business the Directors appointed the day for the fall wire in his fall, his injuries were not of last week. Besides other business the Directors appointed the day for the fall show, and thoroughly revised and over hauled the prize list. The show will this year be held on Thursday and Friday, the 21st and 22nd of September. The principal alteration made in the prize list, as competed for last year, is in sheep. This year there will just be two classes of sheep, viz: long wooled and short, or fine wooled, and the pens of sheep will be composed of one aged or shearling ram, one pair of breeding ewes, one pair of ewe lambs and one ram lamb. The Directors earnestly urge upon all within the limits of this society to do what lies in their power to assist them to make the show of this year the best and most successful ever held in Zurich. A little assistance, combined with the necessary interest on the part of each, will accomplish this object, and from our knowledge of what the people of Zurich and vicinity have done in the past we have no hesitation in predicting that they will not be derelict in their duty to their society this year. It would also greatly assist the Directors and increase the prospects of the Society if as many as possible would forward their nembership fee to the Secretary at once, and not to delay undirectly of the benefits of the day and indirectly of the benefits of the day and indirectly received from it the past of the propects of the benefits of the day and indirectly of the benefits of the propects of the benefits of the day and indirectly of the benefits of the propects of the benefits of all y and indirectly of the benefits of all y and Secretary at once, and not to delay until after the first of August. The fee is able sickness since their removal west, only one dollar, which, in consideration of the benefits of the delay in the consideration of the benefits of the delay in the consideration owing to her own illness, to do much for herself and two children. The young ladies of the Zien B. C. Church, Colborne, met in the basement of the church on Monday evening the 19th, and invited the Rev. Mr. Broad, with his wife and daughter, to join them. After singing and prayer, Mr. Broad was called to the front, and was presented with a handsome present in token of their deep respect for him, expressing deep sorrow on account of his having to leave the circuit. Mrs. Broad Howick, sold seven head of cattle lately weighing as follows: 1,615, 1550, 1,520, 1,480, 1,265, 1,355 and 1,350 peunds.—
Also Messers Wm. Wallace and James Sudden, of the 17th Concession, sold 4 head, the former 3 head, weighing 1,545 1,400, and 1,305 pounds, and the latter 1 head, weighing 1365. We have some good farmers between Belmont and Lakelet.

THE ASSASSIN'S END.

Washington, June 16. — Warden Crecker, of the jail, has received already over 200 applications from representa-tives of the press for tickets to witness

eourt, has rendered decision denying the application for a writ of habeas corpus in the Guiteau case, and affirming the judgment of the court below.

The assassin has as yet shown no fear of meeting death, although it is expected by the jail officials that he will break down at the last moment. Ten murder-

ers have been hung at the jail since it was built, and only one of them showed any signs of fear on the scaffold. The fact that Guiteau has shown himself to be a consummate coward is the reason why the jailor believes he will break lown before the execution takes place. He is inclined to be serious, indulges in no bravado, but says he has not abandoned the hope that the President will reprieve him. The prisoner is under surveillance day and and night. No one is allowed to speak with him excepting his counsel and Dr. Hicks, the clergyman in attendance. It is said that no one is permitted to see the prisoner, but people properly introduced are some-times allowed the privilege of peopling through the barred door of his cell. Guiteau passes most of his time reading the Bible, an occupation that is peculiarly appropriate to a person in his situa-tion. No arrangements for the execu-

and it is now in the jail at Newark, where two condemned murderers are awaiting the result of their applications to the court of errors for new trials. Heise is a working carpenter.

Sent Home Again.

New York, June 20.-Forty Russian Jews were sent back to Germany on Saturday and forty yesterday by the Hebrew Emigrant Aid Society, having been found vicious or incurably idle. Some were placed in factories or on farms ten successive times, only to beg their way back to New York to ask for more help. Despatches have been sent to Europe asking the Relief Com-mittee there to stop sending refugees for the present.

Playing it on an Engineer.

Fred. McCabe, the ventriloquist, was a great joker. Some years ago he was on the Mississippi, on board one of the steamboats, and making an acquaintance with the engineer was admitted to the engine room. He sat down in a corner, and, drawing his hat over his eyes, seemed lost in reverie. In a few minutes a certain part of the machinery began to squeak. The engineer oiled it and went about his business. In another few minutes the squeaking was again heard, and the engineer rushed over, oil car. hand, to give the offending spindle another lubricating. Again he rushed to his post, and again the spindle began squeaking louder than ever. "Jupiter, he yelled, "the darned thing's bewitch More oil was administered, but

The refusal of a number of the steam-ship companies to pay a head-tax of fifty conts for every immigrant landed at Castle Garden may be the means of arming at least a past of the armine of foreign immigration in the direction of lander of the great bulk of foreign immigration that comes across the Atlantic goes to New York. By and bye New York will be as Irish as Dublin, not to say Cork.

The original rafters of Westminster hall were of Irish oak. In early days an idea prevailed that Irish wood was a sort of sacred material and proof against all objectionable reptiles. The venerable Bede lays it down that timber from Ireland "hath a virtue against poison," and as r the earthquake of Lisbon the King of Portugal specially imported Irish oak, presumably from some belief in its blessed qualities, for a magnificent new church.

That me marry without thinking whether the soman of his choice is counted to the cooking him a meal. It has pity he is no short-sighted, as his health, his cheerfulness, and induced his success in life depend in a very great degree upon the food its cast; in fact the whole household is influenced by their diet. Feed them on fried cakes, fried meats, hot bread and other indifried meats, hot bread and other indi-gestible riands day after day and they will need medicine to make them well. A man will take alcohol to counteract the evil effect of such food, and the wife and children must be physiced. all the girls have a share in the house-keeping at home before they marry; let each superintend some department by turns. It need not occupy half the time tives of the press for tickets to witness the hanging of Guiteau. A law of the district says that all executions shall be private and witnessed by the jail officials and twelve citizens, who shall certify that the sentence of the court was faithfully executed. Unless some way is found to get around this law Guiteau will not have the audience he evidently wants when he is hanged.

Justice Bradley, of the U. S. supreme court, has rendered decision denying the application for a writ of habess cortine. It need not occupy half the time to see that the house is properly swept, dusted and put in order, or to prepare puddings and make dishes, that many young ladies spend in reading novels that enervate both mind and body, and unfit them for everyday life. Women do not, as a general rule, get pale faces by deing housework. Their addentary habits, in overheated rooms, combined with ill-chosen food, are to blame the bad health. Our mothers used to pride themselves on their housekeeping and themselves on their housekeeping and fine needlework. Why should not we?
