**LOCAL**

**T. Hugh, farmer, Stoney Plains, was in the city yesterday.** He states that cutting of the crops is well under way. The oats are practically all cut, and the same is true of the barley. The crop is a good one.

Wheat cut on the farm of Phil Otwell at Clover Bar, on Monday, August 9th, was brought into the Bulletin office this morning. Mr. Otwell has been in the midst of harvest during the past week on two splendid fields of Alberta Red.

John R. Landon, son of Mr. and Mrs. J. H. Landon, of Landonville, Alta., underwent a general operation Wednesday at the Central Hospital.

W. M. Ingram, Dominion commissioner of school lands, is in the city arranging for the sale of school lands in the Edmonton district. The sale will be held in the latter part of October and 17,000 acres of land will be put up for sale at an upset price of \$5 to \$7 per acre.

**CITY'S WATER CONSUMPTION.**

The new Venturi meters installed several weeks ago at the pumping station show that the present water consumption per day of the city averages between one and a quarter million and one and a half million gallons. This is the amount of water used at the power house itself, which averages about a quarter of a million gallons. The meters have been installed in order to definitely the water consumption. This information is necessary for consideration of the Frank R. Gray gravity water scheme which is now before the city.

**TWO SENATORS IN TOWN.**

Fifty-one years in political life without a defeat at the polls is the unparalleled record of Hon. John Yeo, of Prince Edward Island, a member of the Dominion Senate who is visiting Edmonton in company with Hon. Frederick Thompson, of Brunswick senator. The two senators arrived in the city Wednesday evening over the C.N.R. from Saskatoon.

When seen by the Bulletin at the Alberta Hotel, Thursday, they were on the point of leaving for Strathcona to take the afternoon train to Calgary. This is going to be a great city, said Thompson. "We have been much surprised at its present state of advancement."

The two senators are on a holiday trip through the west en route to the Pacific Coast where they will visit the Seattle Fair.

**SINCLAIR-BELI**

A fashionable wedding took place high noon Wednesday when Miss Bellamy, eldest daughter of Mr. Thomas Bellamy, was united in marriage to Mr. C. W. Sinclair, of Winnipeg. The ceremony was performed by Rev. F. W. Patterson, in the presence of invited relatives and friends of the contracting parties. Professor Hunt presided at the organ. The bride's dress was of white satin, Princesse style, with deep bertha of cream lace. She carried a magnificent bouquet of white roses and wore a wreath of orange blossoms. Her fiancée was dressed in a gown of white tulle, with a long train, and a yellow dress was of green linen with lace to match. Mr. and Mrs. Sinclair will take up their residence in Winnipeg about the 10th of September.

**ELLEN YEARS AT FORT ST JOHN**

W. H. McDermitt, for eleven years in the employ of Revillon Brothers at their trading post at Fort St. John, in Northern British Columbia, has returned to Edmonton and will shortly on an extensive visit to his old home in Ontario. Mr. McDermitt tells of several large parties of prospectors in the South Saskatchewan district, where the general manager of the Peace River. These prospectors expect to locate gold and other minerals in the area, and have met with considerable success. The presence of prospectors has necessitated the location of a land agency, and the office and registry office at Fort St. John by the British Columbia government.

**GOOD ROADS PROPAGANDA.**

The Ladies Board of Trade, which is conducting a campaign for good roads in the Province of Alberta passed the following resolution at a meeting, which was held on Wednesday, Aug. 21: "Resolved that in order to provide for the adequate construction of roads and bridges throughout the province it is desirable that the Federal government, the Provincial government and the proposed municipalities should contribute equally and in order to facilitate the Federal government in doing so this board is of the opinion that two sections (say 9 and 27) out of each township should be had."

**PICKPOCKETS AT WONDERLAND.**

During the crush at the exit from Wonderland Wednesday about eleven o'clock Jim Math, of the First street Chinaman, who conducts a store adjoining Alberta college was robbed of about \$75 and a bankbook. The money was in his pants pocket and the book in an inside breast pocket. He has no recollection of anything suspicious occurring though in the heavy crush at the gate pocket-picking was not a difficult job to experts in this line. The case has been reported to the police but it is unlikely that any capture can now be made.

**SUCCESSFUL MATRICULANTS.**

Dr. Tory, president of the university has given out the following list of students who have passed the complete matriculation examination throughout the province. The list is exclusive of those who have passed Grade VII, of the school board examinations but who may enter the university in the fall as conditional students.

Dr. Tory states that the university supplemental examinations will begin on September 21st and lectures in the class rooms will open on September 28th. It is expected that a large freshman year will be present at the university.

The following is the list of matriculants with the preparatory schools: Margie Rodgers, Strathcona Collegiate Institute; Leyton Brown, Edmonton High School; W. Hudson Scott, Strathcona Collegiate Institute; C. Y. Weaver, Alberta College; George Henry Holmes, Western Canada College; Muriel M. Luce, Calgary Collegiate Institute; Purcilla E. Hill, Edmonton High School; Fulton Gillespie, Edmonton High School; Kathleen Lavell, Strathcona Collegiate Institute; Ed. W. Greer, Calgary Collegiate Institute; Kathleen Doyle, Vegreville; Bessie Brickman, Strathcona Collegiate Institute; Helen B. Rose, Edmonton High School; Myrtle Mowers, Didsbury; Walter Dawson, Alberta College; C. Percival Hotchkiss, Alberta College; Allen W. Geddes, Western Canada College; Percy Young, Western Canada College; Noble Black, Calgary Collegiate Institute; R. D. Horstman, Calgary Collegiate Institute; Maurice E. Malhotra, Calgary Collegiate Institute.

**FRED CROSS HAS RECOVERED.**

A few months ago a public subscription was taken up in Edmonton in order to send Fred Cross, of Rumburg, Ont., back to the Old Country in order to undergo an operation. Owing to the generosity of Edmonton

people sufficient money was subscribed to send Mr. Cross, who had been injured on the G.T.P. and his wife to their old home.

The accident first appeared to be a small one caused by being hit on the shoulder with a plank. A tumor, however, developed on the bone and it was on the advice of the surgeons here that he returned to England for an operation. When the injured man was examined after his arrival at his old home he was told that if operated upon there was only one chance in a hundred that he would recover.

He insisted upon the operation however, and he now writes Dr. Hislop to say that he is completely recovered and is better physically than he was in his life. Both the left arm and the shoulder blade were removed by the operation. Despite his ailment while in Alberta he is warm in his praise of the country and is very desirous of returning to Canada, to which his wife, however, objects.

**DISMISSED APPEAL.**

In the District Court Friday, before Judge Taylor judgment was given dismissing the appeal of the Alberta Grain Co. against their own assessment. The company has an elevator on the C. N. R. right of way north of the station, and they claimed that they were exempt as a result of the C. N. R. agreement made with Edmonton four years ago.

The city assessor took the ground that the agreement did not specify that the land should be used by elevators for commercial purposes and upon this ground the assessment was upheld.

The amount of taxes involved in this case was only \$35, but there are a number of other assessments on C. N. R. property that are in the same position. The result of the decision is that there will be no further suits to test the legality of the assessment.

**WITHDRAW AGREEMENT.**

Owing to legal technicalities arising out of the refusal of two of the shareholders of the Strathcona Radial Tramway Company, Ltd., to sign a release of their corporate rights, the Bruntel radial agreement, before the city council for some weeks, will be withdrawn. The promoter B. Bruntel will seek, however, another charter to build radial lines, from the Provincial Legislature. The city council will at once consider a new short draft agreement providing alone for running the lines over the municipally owned lines.

Under the recent agreement it was stipulated in order that work might be started this fall and would not have to wait on the meeting of the legislature, that Mr. Bruntel's company should purchase the charter of the Strathcona Radial Tramway Company, now held by Edmonton and all property and powers granted or acquired by the said company, the members of which are John Walter, Robt. Ritchie, F. C. Jamieson, Strathcona, Robt. Loos, R. J. Armstrong, W. J. Crafts, B. J. Saunders and A. E. Jackson, Edmonton.

Two of the members, R. J. Armstrong and Robt. Ritchie, however, have refused to sign over their corporate rights, without which although worthless from a monetary standpoint, Mr. Bruntel is unable to proceed with the construction of lines. The consequence is that the agreement over which the city council has pondered for weeks has to be withdrawn.

By the new draft agreement now being drawn up the centre of the radial system will be in Edmonton instead of in Strathcona as it would necessarily have been if the Strathcona charter had been used. This city thus stands to gain considerably as a result of the two shareholders refusing to surrender their corporate rights.

Work on the radial lines to be built cannot now be started till next spring as Mr. Bruntel will have to await a session of the legislature in order to secure a charter in lieu of the Strathcona charter which it was proposed should be sold to him. The delay however will not greatly affect the building of radial lines as little work could now be done this fall after the agreement is voted by the ratepayers.

**BRICK MASON SCARCITY.**

During the construction of the large business blocks in the city there has been a great scarcity of brick masons. It is with difficulty now that men can be secured, but with several large contracts about completed it is expected that the scarcity will not be so keenly felt.

Buildings which are requiring brick masons at present are the apartment blocks being erected at the corner of Sixth street and Victoria and the Lemarchand Block at the southeast corner of Sixteenth and Victoria. The addition to the King Edward Hotel will soon be ready for the masons and the G.T.P. shops and round-house will also require a good number of men for the mason work.

Masons in the city have a minimum union wage scale of sixty cents per hour, but so great is the demand for men that scarcely a man gets less than sixty-five cents per hour and some of them get a great deal better pay than that.

"We must get good wages," said one mason, "because we can only work a few months in the year and never know when we will be laid off for a day or two owing to some hitch in the construction. We envy the man who has the steady job."
