Base Ball Match.

A match for the championship came off on Saturday, between the first nine of the Maple Leaf Club, and nine of the the Mapie Leaf Club, and mine of the Dauntless Club, of Toronto, on the grounds of the former. There was a very fair attendance of spectators. The Toronto men, who playad here on the Queen's Birthday, have improved considerably during the season, though they are yet very far behind in their fielding. The Maple Leaf nine played with their average ability, but finding they had run up such a large score, were a little careless towards the close, or they might have made a larger number. As

The London Free Press, of Friday, says:—There arrived by the Grand Trunk train last night from the township

casion to speak of the man who had achieved independence of Italy, Count and Construct and Italy County, a farmer named John Rowan, and three of his children, whom he intends placing in safe keeping in the Asylum for the idiots near this city. The oldest of the three is a young woman aged 2f years, the others being males of 18 and 11 years respectively. The father had considerable trouble with them on the way thither, and was kindly assisted from Stratford to this dity by Londoners. The unfortunets made a terrible noise on their way to the proles Station by meaning and muttering peculiar cries, which were only understood by the father. They have been in this condition since their infancy, and the parents decided on placing them in the Asylum, on the recommendation of the physicians. Mr. Rowan is the father of ton children, seven of whom are possessed of reason, the others being the time above named. After a good deal of persuasion they were lodged in the cells that the companies of the time. A Threatened Potato Famine.

(From the London Times.)

We are threatened, according to John Algernon Clarke, with an obliteration of the potato crop; at any rate, so far as this year is concerned. Yesterday (Mr. Clarke writes) I carefully examined a number of fields in the potato-growing districts around Long Sutton, in Lincolnshire, and found that already three-fourths of the tubers (by weight) are districts around the same of the tubers (by weight) are districts around Long Sutton, in Lincolnshire, and found that already three-fourths of the tubers (by weight) are districts around Long Sutton, in Lincolnshire, and found that already three-fourths of the tubers (by weight) are districts. cased, while the mischief is still in active progress. The testimony of many grow-ers in the neighborhood is that scarcely any sound potatoes can be discovered throughout whole fields, and the generers in the neighborhood.

Thursday. A N. Y. paper says:—

It was their sixteenth annual festival, and, although the sky was lowering the attendance was fully equal to that of any preceding year. There is a fascination in these Soctitish games which never fails to attract vast multitudes. All day long parties were coming and going, and at one time during the attenoon it was estimated that 20,000 persons were on the ground. Two large balconies had been ground. Two large balconies had been erected near the sides of the ring, and the rising hill in front was thronged from the base to the very peak. The dinner given to the Arbitrators by the city of Geneva last night was a most satisfactory affair. Mr. Corteret, on the part of his fellow citizens, declared that the presence of the arbitrators was an honor to Geneva, and he hoped that all nations would follow the example of England and the states in setting, their differences through such as England and the United States in set-tling their differences through such a peaceful appeal to reason and justice. Count Selopis replied with words of praise for the city of Geneva.
