TORONTO AS GOOD AS IN. The Canadian Base Ball League for 1897 is an assured thing. Arthur Sippi has never had any doubt about tt, and was not surprised, consequently, when Secretary Cal. All the most recent creations are admittedly too unwieldy, and it is quite time that the Yacht Racing Association should effect a reduction through the operation of time the Yacht Racing Association should effect a reduction through the operation of time allowance. There is more than a rumor that A. B. Walker will build a boat of this class to replace the Ailsa. Capt. Sycamore, who sailed Valkyrie against the Defender, will have charge of the "Bona." The Valkyrie remains at her moorings in Gourock Bay. She is much too deep to compete over most courses against the shallower boats. While as yet she has no orders for fitting out, it is hoped she may be got ready for the British season. THE RING.

LATEST FROM CORBETT'S RANCH. The old story of refusing sovereigns at sixpence apiece to illustrate the lack of credulity and simplicity of shoppers has oft been told. That's right. We'll forgive the maker who succeeds in placing bogus stuff on our counters.

Referee Siler was asked yesterday what he thought of the rules regarding hitting and clinches. He replied:—"My sole intention is to have the fight decided in the fairest manner possible. I desire that there shall be no questions in the public mind as to what constitutes a foul, in my ludgment, and it is no more than just to make such a declaration. The question of advantage to the fighters in knowing before hand what shall or shall not be allowed and not to be disputed is not unfair to one or the other. Each will be equally informed, and each will receive as much benefit as the other. This is to be a battle of skill with the gloves, as I understand it, and I shall not countenance any unfair roughing.
