han piANDs CHRONICLES and rote Saturday, October 17 18682

heltte Sirius" on Confederation error" way, he says, will give Canada ablest champion of Anti-Confederaonly \$365,000 out of the estimated tion, the Anti-Confederates have a Revenue of \$576,000. Here is a dit. very poor cause indeed. ference between the first and last statement of \$29 000; Why make an error of this kind? Was it to deceive barque Mauna Los, Capt Reinking, arrived or mislead? But his last statement is from Honblalu yesterday morning, having as great an error as the former. We have showed in our leading article day before yesterday, that in consequence of the Canadian Tariff being five per cent lower than ours, that Canada would derive from Customs only, \$247,058. making, with the item of Postage, \$262,058 Here there is an error in the second position of 'Sirius," amount ing to \$102,942 too much. Not contont. however, with mis stating the Revenue that Canada would get from eatt. She will commence discharging this the Colony he mis-states the Expenditure. He admits "one side of the Inlet to load with lumber. Vessel and cargo account" based on the terms of the are consigned to Janion, Rhodes & Co. Convention, and gives the other side without any relation to those terms of Cariboo, has presented the Committee of at all, or at least, so incorrectly as to the Mechanics' Institute with a beautiful amount to a change of the ground model of a beleting gear, as used in the mines work of his argument. He says that of Cariboo, and which was lately exhibited the Canadian Expenditure for the at Yale. Accompanying the above is a very Colony would amount to \$203,100, handsome case of specimens from different claims at Cariboo, collected by Dr Carrall, only; whereas we have shown in our Thursday's leader, that the Expenditure of Canada on the terms of the Convention would be \$521,713. The the Institute would also acknowledge the error therefore that "Sirius" makes, is kindness of the Hudson Bay Company in only a diminution of the Expenditure forwarding the same, free of charge. to the extent of \$318,613! Is such an error as this calculated to mislead or deceive the public? If it is not so trate, in connection with the City Corporacalculated, what is? But as one error tion, is having a building arranged upon the that would deceive and mislead the Reserve, for such indians as are suffering public was not sufficient, another is from the prevailing epidemic. A nurse is uttered as its effect. The last error also to be especially provided to attend on places "Sirius" in a most ridiculous them; tank yes of em rel viscossenu en light before the public. He admitted in the outstart, that we had shown fone in working order to Bellingham Bay; but of agriculture, which be characterized as the

it \$208,100, he makes out that Canada would have a Surplus of \$161,900. If we add the Surplus of the local Government, \$200,919 to sirius Canadian Surplus of \$161,900, we Dr Tolmie, oats have a total of \$362,819. The two turn our attention to the letter of this large amount to divide between "Sirius" that appeared in a previous them, (without creating any new number. Our leader on Thursday was sources of Revenue). Notwithstandvirtually a reply; but in order that ing the fact that "Sirius" has said that andh certors as those put forth by the paying off of temporary loans' "Sirius" to create, evidently a false prevents money, being "expended in impression on the public mind, respect Public Works," "Sirius" conclusion is ing Confederation, may be directly simply this; that we have not a dime: refuted, we intend to fulfil our pro- yet we have \$362,819 Surplus Revenue: mise now. "Sirius" said that our that we have a thing, and have it not article on the "Revenue and Expendi- at the same time; that this Colony ture of the Local Government under has no Surplus Revenue now, but if Confederation" "shows only one side she will only enter into partnership of an account." He admits, therefore, with Canada and divide up the present "one side of the account," He admits revenue, that British Columbia will that we have shown that the Colony have a Surplus of \$200,919, and under Confederation would have a Canada a Surplus of \$161,900: and Bevenue of \$326,000: a current Ex that these dividends may be obtained penditure of \$125.081; and a Surples by dividing nothing! "Sirius" how-Revenue of \$200,919. After making ever, not being content with perpethis admission, he says that it was trating these "errors," he must try "calculated to mislead or even to how better we would be off in a few deceive the public." Now, is it not a years, He says that the loan of 1862 most singular way to deceive the will be paid off in three years, and public by showing them that by that there will then be a reduction of making a contract with Canada con- the Interest and Sinking Fund to the Dr Tolmie, pears tsining certain covenants, they would extent of \$36,000 per annum. At half past three Dr Tolmie, the President of the Society, ascended the band stand with the Chiel Justice, and in an appropriate speech alluded to the re-establishment of the Society and the revival of the annual show, after an interval of three years. He expressed the satisfaction which the promo-ters felt at the manner in which their efforts. at respectating the show, had been met by the community in general, and by the agri-culturists of the Island and of the mainland, considering the shortness of the notice and the extreme dryness of the season, and after alluding briefly to the prospects of the im-provement next year, wound up with a promise of \$25 as a subscription; and after stating that there could be no difference of stating that there could be no difference of opinion as to the importance of such exhibitions in young colonies, he had much pleasure in introducing one who, himself neither a farmer nor an exhibitor, could more appropriately dwell upon that subject as well as upon the merits and demerits of the shew than himself. He then introduced the Honorable Chief Justice Needham; who after congratulating his fellow-citizens upon the revival of this annual agricultural means and the shew which he felt confident only against a ag, which he felt confident only required a lair support from the agriculturists and from the general public to make it an institution the general public to make it an institution which would be of real good to the Colony. source of prosperity in all countries; he then proceeded to offer practical auggestions for the consideration of the public, in connection with the annual show of stock and produce; and also in regard to agriculture generally.

Mr Needham eloquently reminded his hearers of the necessity of laying the founda-

excellence, nor were the size and shape of the cattle such as warrant the assumption that tion amongst themselves, the stock-raisers of this Colony might obtain animals of a first class, kind from which they might improve the breed. It would be necessary for the farmers of the Colony to exert themselves to improve the character of the exhibition year

but we are serry to say that others of them were taken away without the owners pers

to be sold, so that parties desirous of improve ing their stock would do well to attend.

Fign. The bell of the Union Hook & Ladder Co rang an alarm last night at half past seven; but on getting half way down Government street the companies returned to their quarters. It turned out to be the burn-Rocky Moderaine. Likidder emos lo gai

To Self Reliance.

EDITOR COLONIST, If I had any doubts bout the quarter from which Self Reliance hailed, my doubts would have been dispelled by the length of time which he takes to make his promised return ready-it is in course of preparation, what a stereotyped official expression. How long a time do you intend to allow to Mr Self Reliance? If his statements were true, a-half hour would have sufficed to make out the tabular list of his proofs; if incorrect, a year will not make them true. DIOGENES.

Holloway's Olymment and Pills will be found the best friend to persons afflicted with nicerations, bad legs, sores, abscesses, fistules, and other painful and complicated complaints. Printed and very plain directons for the application of the Ointment are wrapped round each pot. Holloway's alterative Pills should be taken throughout the progress of the cure, to maintain the blood in a state of perfect purity and to prevent the health of the whole dody being jeopardised by the local aliment; bad legs, old age's great grievances, are thus readily cured, without confining the patient to bed, or withdrawing from him the nutritious diet and generous support so imperatively demanded when weakening disease attacks advanced years or constitutions evincing premature

The people have been so much imposed pon by several worthless Sarsaparille that ve are glad to be able to recommend a preparation which can be depended on as containing the virtues of that invaluable mediacine, and is worthy of the public confidence.

Door. Ayer's Sarsaparata cures when anything can cure the diseases that require an alterative medicine.

tion of stability for the Colony by due atten-tion to agriculture; seeded them that with out due regard being paid to this all imports ant source of wealth, they could never rise to greatness; he next touched upon the practical assistance which might be given to the cause of agriculture by a systematic raising of agriculture by a systematic raising of automotion throughout the Island—pointing ont the necessity of each one contributing according to his means, so that by the number of contributors a fund might be placed at ber of contributors a fund might be placed at the disposal of the Committee which would enable them to offer prizes which would in-duce producers to send the best stock and produce that they had to the show. There could be no excuse, said the Chief Justice, for farmers not producing grain and roots of a first-class quality. There was evidence in the produce yard of the great capability of the soil; the cereals which were exhiof the soil; the cereals which were exhi bited would bear comparison with those ex-hibited in any part of the world; he in stanced the weight of some Australian wheat, which took a prize at a late exhibition in England, which weighed two pounds less per busheli than did that produced in this Colony, and exhibited in this show. He was not there, he said to flatter exhibitors or those who had taken prizes, such flattery would be beneath his hearers and himself, he must, therefore, ask leave to speak withhe must, therefore, ask leave to speak without reserve. From what he had seen is the exhibition yards he had deduced a moral which he thought the agriculturists of the Island ought to take into their serious consideration, it would be for them to say whether he was right in his deductions. The Chief Justice then proceeded to say, in most forcible and eloquent language, that he could come to no other conclusion than that the farmers of the Island had not done by any means so much as they might have done, the exc llence of the small quantity of produce exhibited showed that energy and perceverance would enable the farmers of this Island to produce crops another wonderful ingredient, of Spanish origit, parting beauty to the complexion and brilliancy to mind, is yet unknown to the commerce of the world, we withhold its name for the present.
With this recipe before the community, and evidences of effects meeting them on all sides, the success of Drakks stands founded upon the rock of truth. Almost every family has some case of suffering which the Plantation Butters will alleviate and cure. as good as could be grown on any soil, but when he turned to the other yard he could not say that in the quality of the stock such as warranted any commendation, there did not appear to be the frame that was essential for Notice—Any person pretending to sell Plantation Bit-ters by the bulk or by the gallon is a swindler and im-postor. It is put up only in our log cabin bottle. Be ware of bottles reilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel-plate side label. the farmers were doing what was in their power to obtain a proper kind of stock. There was really no excuse, he said, for being content with mediocrity when by combina-

by year if they wish to be successful, and one of the most prominent defects that had to be remedied was the character of the stock; AGENTS FOR CALIFORNIA & NEVADA. when this was really improved, agriculture when this was really improved, agriculture might flourish, but without proper attention it never could be really successful. The learned Chief Justece concluded an excellent speech by exhorting the farmers and horticulturists to emulate one another in striving to make next year's show, in every way, and MEXICAN MUSTANG LINIMENT.

are instantaneous soothing and wonderful.

Cuts, bruises, sprains and swellings are so common, and certain to occur in every family that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.
