WE open tomorrow the ground floor of the new annex to the store on Broad street. This extensive floor space is devoted exclusively to the "Busy Basement" and the Stove and Range Departments.

House and kitchen Furnishings have formed so valuable and popular a feature in the store that it has proved impossible to cope with an ever increasing volume of business in so restricted an area, consequently the "Busy Basement" ascends to a space where proper justice can be done to so popular a department.

In a removal of a stock so vast, with the daily augmentation of huge new stocks, we find an excellent opportunity of offering special sale goods that will very forcibly demonstrate what the department can do in its new home.

Merchandise in immense quantities has been specially purchased at valuable price concessions from the manufacturers. We will therefore offer these, commencing with tomorrow at very tempting sale prices.

Entrance to the house and kitchen furnishings and stove departments can be obtained through the shoe department in addition to the new entrance on Broad street.
