BOBBED HAIR BEGAN IN ODD WAY

Brought In Fashion By Women
Who Faced Decapitation By
The Guillotine

Hollywood, Cal., Oct. 14.—The fashion of bobbed hair was in vogue during the French revolution, at least by women who faced decapitation by the guillotine. Testimony to this was disclosed in a grim little satire, written by a French woman at the time of the Commune, which was found in a mass of French books and manuscripts obtained by a large motion picture studio here for research work.

The writer commented on the prevalence of shorn tresses in this wise: "It is the custom before women are executed to cut off their hair, that it may not interfere with the executioner's blade. So all Royalist women go to the guillotine with their hair off at the neck. Incidentally, the head soon follows this example."

Grisettes, as a bit of humor, began cutting their hair the same way—aping the aristocrats in their last fashion. They are finding that it is comfortable and the custom is growing. No one knows where it will stop.

Douglastown

There passed away on Monday afternoon September 28th, at her home here Mrs. Clement Connolly (nee Caroline Price) at the age of seventy three years. The funeral took place to St. Patrick's Church on Wednesday morning where a high mass was chanted by Rev. Father Miles and was attended by a large number of friends and neighbors. The final mourners besides her husband are one son James H. of Douglastown and three daughters two residing in Buffalo, N. Y., and one at home. Mrs. Connolly was born at Grand Greve

RAPID GROWTH OF AUTO BUSINESS

New Record In License Receipts
—N. B. Has More Than 20,000
Licensed Cars.

Motor vehicle license fees receipts at the Provincial Department of Public Works have passed the half million dollars' mark and the fiscal year will not close until the end of October.

Last year's receipts from automobile fees reached \$452,489.23, and skeptics shook their heads when ex-Premier Veniot's estimate of \$500,000 for the present year was presented to the Legislature. Five years ago receipts were less than \$200,000, while ten years ago—in 1915—the total receipts were \$23,116 and in 1910 the amount was less than \$1,000—\$763 to be exact.

The number of cars licensed in New Brunswick this year is to be upwards of 20,000 and the registrations show that the automotive industry has had an exceptionally good season, there being many new cars on the lists this year. Last year there were 18,310 cars and 1,443 trucks licensed. Complete returns for the present year will not be available for some time. Meanwhile a good many sales of 1926 models are being made by automobile dealers throughout the province.

At present there is considerable speculation as to what changes will be made by the new Government in the system of licensing of automobiles. Reduction in the present license fees and introduction of a gasoline tax were promised by Premier Baxter during the election campaign.

and was a convert to the R. C. faith and spent all her life after her marriage in this place where she was respected and loved by a wide circle of friends. Much sympathy is extended to the family who are mourning the loss of a good mother.

AS THE SENATE WILL STAND WHEN SESSION OPENS

With Vacancies Filled Still A
Conservative Majority Of
Twelve Members.

Ottawa, Oct. 14.—A party Analysis of the Senate, whose representation, is now complete, following the nine appointments made by Premier King in the last six weeks, and as it will appear with the opening of the fifteenth Parliament, provided no more of its members die in the meantime, shows that only some radical change in its constitution can free it from the hold of the dead hand which a minority party in the popular House of Commons is still able to maintain.

Even after four years of Liberal rule, and with a considerable number of deaths—Premier King has appointed 18 to the Upper Chamber since he came into office in December, 1921—the party representing the majority in the elective chamber are now actually in a minority of 12 there being at this date 42 Liberals and 54 Conservatives.

Another feature of this present composition of the Senate is that only in two provinces of the Dominion—Quebec and Prince Edward Island. In one other province, Ontario, the Liberal party a majority Alberta, the parties are equally divided, each having three. In Quebec, there are now 15 Liberals Senators and 9 Conservatives, and in Prince Edward Island there are 3 Liberal Senators and 1 Conservative. Nova Scotia is now represented by 2 Liberals and 4 Conservatives; New Brunswick, by 4 Liberals and 6 Conservatives; Ontario, by 10 Liberals and 14 Conservatives; Manitoba, by 2 Liberals and 4 Conservatives; Saskatchewan by 2 Liberals, (including Senator Turfitt, who is called a Progressive) and 4 Conservatives; Alberta, by 3 Liberals and 3 Conservatives, and British Columbia by 1 Liberal and 5 Conservatives.

WOUNDED MOOSE CHARGED HUNTER

Freeman McLean, of Chatham,
Saved by Unerring Aim
at Close Quarters.

Chatham, N. B., Oct. 14.—Freeman McLean, who goes annually on a moose hunting trip, has had great luck this season.

He started out from home and after a comfortable night's rest was early on the way path. Just after dinner he saw a big fellow in the distance and made off after him. He hadn't got far on the way when he heard the report of a rifle from another direction. His quarry, however, only moved about uneasily, so he pursued his course to get within sure rifle shot.

He was going along easily and cautiously seeking vengeance on Mr. McLean.

He heard a great crashing to his right. Turning quickly he got the surprise of his life, for there not more than fifty yards away was a big bull moose coming at him as quickly as he could. Mr. McLean had just time enough to recover himself and get his rifle into action.

When Mr. Moose fell with a bullet in his forehead he was only fifteen feet away from the hunter. He rose, however, and made off. But another shot brought him to a full stop. A curious discovery made on examining the carcass was that the animal had been shot before, the bullet hitting the hard bone of the head about three inches below the left eye.

It is supposed that the shot that had been heard at the beginning of the hunt was the one that hit the animal and in its pain it had attempted to seek vengeance on Mr. McLean.

The head is one of the finest ever brought out of the woods here. It has a spread of 53 inches with eight points on one branch and nine on the other. The carcass weighed over 700 pounds when dressed.

\$5 POTATOES IS AROOSTOOK'S HOPE
Farmers Holding Off Although as High as \$4 Has Been Offered at Some Places

Presque Isle, Me., Oct. 14.—Aroostook potato growers are having visions of \$5 potatoes, which is said to be the reason that some of those who can afford to do so have been holding off and have refused even \$4 a barrel during the past few days.

Prices generally have run over \$3.50 for some days for table stock, with occasional sales up to \$3.80 and even \$4 reported. Meanwhile stocks are being moved at the rate of about 200 cars a day out of Aroostook county. Latest reports of the movement of potatoes show almost twice as many potatoes shipped out of Maine's commercial potato growing belt as for the same date last year. Shipments to date run up to almost \$7,500 cars this season; total shipments last year were 43,129, but up to this time less than 4,000 cars have been shipped.

A LIVING HOBBY

(Herbert N. Casson, in Forbes Magazine.)

Trust people. Believe in people. Make a hobby of people. You'll be cheated—yes—many times. But in the long run you'll win all that the cynics and pessimists lose.

The new definition of business is Personal Service. If you are pleased to do pleasant things for people, then you are a business man of the new sort.

The world spent \$3,300,000,000 on automobiles and motor-cycles last year. Almost as expensive as war and only a degree less harrowing.
