## PACK PARCELS TO GERMANYS STRONGLY

Mail Matter for Prisoners in Germany Should Have Special Care in Packing

The Post Office Department has been notified by the British Post Office that many parcels sent from Canada to Prisoners of War in Germany are being received in London in a damaged condition, so that frequently they have to be repacked before they can be forwarded to Holland for transmission to Germany. The British Post Office adds that in most cases the damage appears to be due to the fact that the parcels were inadequately packed by the senders.  
The public are warned, therefore, that parcels for Prisoners of War, unless they are very strongly packed, will probably arrive in such a condition as to be of little or no use to the recipients.  
Ordinary thin cardboard boxes, such as shoe-boxes, and thin wooden boxes should not be used; nor does a single sheet of ordinary brown paper afford sufficient protection. Even where proper materials are used, it is important that the contents should be tightly packed so as not to shake about during transit. The following forms of packing are recommended:—  
(1) Strong double cardboard or strawboard boxes. Those made of corrugated cardboard and having lids which completely enclose the sides of the box are the most suitable.  
(2) Tin boxes such as are used for packing biscuits.  
(3) Strong wooden boxes.  
(4) Several folds of stout packing paper.  
The British authorities advise that parcels for Prisoners of War in Germany must not be wrapped in linen, calico, canvas, or any other textile material.  
Parcels posted in Canada for Prisoners of War in Germany which have not been adequately packed by the senders will not be forwarded but will be returned to the senders, as the British Post Office has notified the Department that parcels which are inadequately packed must be returned to the senders.

## PIPES SUPPLIED FOR 26TH BATTALION

American Gentleman Sends Word to Col. McKenzie to Buy Them

It will be remembered that in writing to Col. McAvity in reference to the work of the 26th Battalion, Col. A. E. G. McKenzie suggested that a set of bagpipes would be very acceptable, and would be a help to the Battalion.  
Mr. George Cutler of Boston, who has large lumber interests here, wrote Mr. W. F. Napier, manager of the Shives Lumber Co., authorizing him to cable to Col. McKenzie and instruct him to purchase the needed pipes and to draw upon him at sight in Boston for the required amount.  
Mr. Cutler has taken great interest in our local Battalions and has, through his interests here, been a generous contributor to the various funds being raised for patriotic and other purposes.  
No doubt the pipes will cheer our boys on their marches and in billets in France.  
**SUCCESSFUL TAG DAY**  
The young ladies of the Tipperary Club were very successful in their tag day last Saturday. The total receipts up to date were \$259.00.  
**GOT A MOOSE**  
His Worship Mayor A. A. Andrew, Coun. C. A. Alexander and Town Clerk John T. Reid spent ten days at the Royal Fishing and Hunting camp on Pope Logan lake and despite bad weather had a very successful hunt. They killed a moose and about forty partridges.  
**GET LIGHT SENTENCES**  
The two men charged with breaking into freight cars between Mont Joli were given very light sentences, 15 and 30 days.  
**OBITUARY**  
The death of Mrs. Allison, widow of the late Alexander Allison of Escuminac occurred suddenly Tuesday evening, aged 64 years.

## PUBLISHERS MEET AND TALK BUSINESS

Increase of White Paper a Vital One to Publishers—Weeklies Advance Rates

A meeting of the publishers of the Maritime provinces was called to meet at Truro last Thursday afternoon to discuss the paper question.  
President J. G. Elliott, of the Canadian Press Association, and Roy Saylor, of the weekly sections of the Canadian Press Association, addressed the gathering of representatives of the newspapers of the maritime provinces.  
It was shown that if the proposed new price goes into effect it will mean an extra expenditure by Toronto papers for paper alone of double the profits of all newspapers published in Toronto.  
The matter of increasing the subscription price of weekly papers was also discussed, and those present were unanimous in their expression of opinion that drastic steps would have to be taken if the papers were to survive the present crisis.  
In the evening the Maritime Press Association elected officers and decided to meet in Moncton next year.

## DID STUDENT START THE FIRE?

Etene Levesque Areated for Recent Fire at College  
A student at St. Thomas College, Z. Etene Levesque, has been handed over to the police by the Rector of the college, charged with setting or attempting to set fire to the college buildings. It will be remembered that a mysterious fire was discovered early one morning recently in the wall of the building, but fortunately had gained no headway.  
The authorities investigated the matter carefully and had young Levesque arrested. Three other students who are important witnesses in the case are being held for the case which is scheduled to come before the magistrate at ten o'clock tomorrow morning.  
Levesque was a student at the Carleton college at the time it was totally destroyed by fire. He does not seem willing to stay in any institution of learning.—Chatham Gazette.

Made Strong By Delicious Vinol  
Lakewood, N. H.—"Our little girl 8 years of age was in a debilitated, run-down condition and had a stubborn cough so she was weak and ailing all the time. Nothing helped her until we tried Vinol. Then her appetite increased and she is strong and well, and I wish other parents of weak, delicate children would try Vinol."—Geo. A. Colvers.  
This is because Vinol contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates which she needed.

## LONDON JUBILANT OVER THE VICTORY AT VERDUN

French General Nivelle, After Watching for Weeks, Sent Troops Leaping at the Enemy and They Carried All Before Them.—German Front Swept Away.  
London, Oct. 25—On the French communique announcing the recapture of the fort of Douamont and the Hautdemont Quarrie and the smashing of the German line over a four and one-third mile front north of Verdun all the morning papers comment exultantly in special late editions.  
The Times says—"This strikes a severe blow at German prestige and shows the German staff the danger of weakening its lines in the west. The victory will disquiet the enemy, hearten the Russo-Romanian parties and inspire all the allies with fresh confidence."  
The Daily Telegraph asserts—"The French have dealt a staggering blow, putting a finishing touch to the story of the heavy British blow delivered in the last week-end. The victory proves to what point of mastery our troops have attained in the business of grinding Germany in the mill."  
Took Them by Surprise.  
Paris, Oct. 24—Verdun, long lost sight of, sprang suddenly and unexpectedly into the forefront of the public mind which exclusively had been directed towards the Somme front. The German front on the right bank of the Meuse literally was swept away for a distance of four and a half miles like straw before the wind.  
General Nivelle for weeks has been watching the German movements like a lynx, carefully calculating the effect of every withdrawal of troops to the Somme and eastern fronts. At the same time, he quietly made his preparations and when he judged the Germans had thinned their defenses to the danger point, he struck like lightning. The result was one of the most brilliant operations of the campaign.  
The Germans who yesterday were pressing close upon the inner line of defenses at Forts Souville and Tavannes, have now been driven beyond the outer defenses of the Fort Rougemont-Vaux line. Vaux fort remains in possession of the Germans but the French line extends beyond it on the north as also on the south of it at Devillon, Batory and Chemois Wood from both of which positions it can readily be attacked.  
The French artillery preparation was brief but intense and was covered by the German commanders had time to bring up reinforcements, even if they were available. The assaulting French waves caught them before the Germans recovered from their surprise and swept over trench after trench, sending prisoners in all lines to the rear. The French losses were very slight, it is believed, even lighter than any recorded in the attacks on the Somme front.
