A notting match for \$100 is announced to take acolon the Humber river, Monday next, between it. Hol and's Dan O'Connell and Mr. Farrell's Wilam the Third. Walkerton defeated Kineardine at curling yesterday by 27 p.ints. It was the second match for a series of three for a gold medal. Kineardine won the first, and the final remains to be played.

The number of lawa tennis, or rather court tennis, cause in New York this winter is only limited by the number of available cours. Every armory is occupied, and dozens of clubs are wandering around searching for quarters. Absurd prices are paid for good courts.

He is after them with a by-naw to stop what he calls a desceration of the Sabbath. It is understo d he will press the matter at the council meeting to-day.

A despatch from Detroit states that Parker Tomlinson, of Toronto, has challenged John M. Cook, of Chicago, who holds the championship medal of the Nor hwest, to a skating contest. In response Cook says he will skate under Canadian rules. He would rather skate for \$100 than \$23, the stake proposed by Tomlinson, but the latter will be accommodated for the smaller sum, and \$60 will be added by the proprietor of the Central rink, Detroit, if the contest takes place there.

C. A. Livingstone, Pittsville, says: "I have much pleasure in recommending Dr. Thomas' Eclectric Oil, from having used it myself, and having sold it for some time. In my own case I will say for it that it is the best preparation I have ever tried for rheumatism."

The ladits have formed a ring, and intend boycotting' Hurlingham until the gun club discards the 'pretty dove' and adopts the 'terra cotta pigeon,' a new inv. ntion which is being brought out under the paironage of the Prince of Wals, and can be seen at work at the Ranelagh club grounds."

The New York Sun thus hits the nail on the head: "The concentration of forces from all parts of the English speaking world for the purpose of overseaming Mr. John L. Miss Mary Campbell, Elm, writes t "After taking four battles of Northop & Lyman's Vegetable and Dyspeptic Gure, I fell as if I were a new person. I had been troubled with dyspepsia for a number of years, and tried many remedies, but of no avail, until I used this celebrated Dyspeptic Cure" For all impurities of the blood, sick headache, liver and kidney complaints, costiveness, etc., it is the best medicine known. Harrington, of the Globe, was referre and started the boats shortly before three. The ilben, with Capt. Saunders in charge of the sheet and Hanlan at the heim, was the first to show in front and reached the first buoy, stationed at the baths, three sconds ahead of the Oriole, with Capt. Remp at the sheet and Capt. Dick at the helm. At the second buoy, stationed at the baths, three sconds ahead of the Northern elevator, the Eileen head lengthened the distance between herself and her competitor, and on the run over to the starting buoy opposite Hanlan's hotel had still further widened the gap. This course had to be gone over four times. The Eileen kept on the lead up to the last round, when the Oriole came up on her and the race for a time was very close, but the Eileen getting a good run and being magnificently handled, both at sheet and helm, managed to get in 22 seconds ahead. The distance agreed upon for the race wassevently miles, but the necessary tacks to reach the bitoy's must have made the course travoiled at least twee tw-five niles. A stiff cast breeze was blowing, but the sow covering the ice was soft-made heavy, thus preventing particularly fast time being made. The race, however, was sailed in 8s minutes, which after all is pretty good. Capt. K nap with hand over the flour to Hanlan to-day and the champlon will present it to the mayor to be distributed to the various city charities. There was considerable betting on the event at 2 to 1 on Hanlan's boat. The London correspondent of the Manchester Guardian, referring to the proposed Roman catholic cathedral in Westminster, says that Sir Tatton Sykes has offered to contribute £100,000 toward the building, and it is likely that subscriptions will be asked, and subscription lists for small as well as large subscribers will be opened throughout England, as well as in certain parts of the continent. It is calculated that from first to last the proposed cathedral will cost over £250,000.

The attendance at the German universi-

dral will cost over £250,000.

The attendance at the German universities has been increasing of late years to an extent which causes alarm in some quarters. The number of students has gone up from 15,113 in the summer of 1872 to 23,834 in the summer of 1882. This increase amounts to no less than 57.6 per cent. That the demand of modern lite for men of education has increased to such an entent as this is demand of modern lite for men of education has increased to such an entent as this is regarded as more than doubtful by many authorities. An official warning has just been issued against students taking up the law as a profession, as its ranks are already hopelessly overcrowded.

The Revue Scientifique records some im The Revue Scientifique records some important experiments which have been made to show the effects of various conditions upon the vitality of seeds. It appears that farmers had been in the habit of keeping seeds hermetically sealed. The experiments showed that but 45 per cent, of the peas and 2 per cent. of the beans kept in confined air germinated when planted. On the other hand, of peas and beans exposed freely to the air, 90 per cent, of the former and 98 per cent, of the latter proved fruitful. The experiments were made for the benefit of farmers and covered a period of about three years.
