a coal. Untario not only has no coal of its own, but is separated by long distances from mines in any of the other provinces. It is said coal exists north of us, between the C.P.R. and Hudson's Bay, in the country through which it is proposed to build the Hudson Bay Railway. The promoters of that railway give this as a reason why the like should be subsidized and built. But the public has been offered very little definite information as to the quantity or quality of the alleged coal fields of this dis-trict. A few thousand dollars devoted to surveying and prospecting the locality would be more y well spent. In any event Canada's prospects as to coal are becoming better and

In violation of the first and game laws of the province. The necessary papers are being prepared and will be forwarded to the marshal at Windsor in a day or two. This action means practically that the boats are confiscated and cannot be bonded. They will have to remain here until the decision of the court is an-nounced. The tug Oggles, which was beized by the Canadian authorities last fall and put in the Exchequer Court, is still tied up here.
