

Our Eye Examining

is not merely placing different lenses before the eyes, but a diagnosis bringing out (by the use of scientific instruments, with which we view the interior of the eye) all errors of refraction or causes of eye strain, enabling us, by the use of the glasses ground in our own laboratories, to attain absolute accuracy.

AS A WORKING TOOL

for the student and the writer, as an authoritative reference book for schools, teachers, families, business and professional men, there is one book which offers superior advantages in the solid value of its information, and the ease with which it is obtained.

One's admiration for Webster's International Dictionary increases daily as it comes to be better known. It never refuses the information sought and it never overwhelms one with a mass of misinformation illogically arranged.

The St. James Gazette of London, England, says: For the teacher, the pupil, the student and the litterateur, there is nothing better; it covers everything.

The New and Enlarged Edition recently issued has 25,000 new words, a revised Biographical Dictionary and a revised Gazetteer of the World, 2,280 pages and 5,000 illustrations. It has just received

Farmers Win Against Bank.

Judge McHugh has handed down his decision in the important action brought by the Farmers' Bank against a farmer named White. The suit was dismissed with costs.

The action was brought by the bank as a test case to collect a note for \$200 given by the defendant. He and a number of farmers took stock in the old Consumers' Tobacco Company and gave their notes in payment. The company was to buy their tobacco at a certain stipulated price, this being provided for in agreements, but the company was amalgamated with the McAlpine Tobacco Company in Toronto and after the McAlpines acquired full control they repudiated the agreements with the farmers.

The notes had been discounted by the Farmers' Bank, but the farmers kicked about settling after the company did not purchase the tobacco, according to the agreements. Some of the farmers paid up rather than defend a law action, but White signified his willingness to dispute the claim. About 80 farmers who were also in the position of White, contributed to pay his legal expenses and protest payment. The decision is a victory for the defendant, who declares he will defend the case in the highest court in the country if an appeal is taken.

Lunatic Evades Capture.

Toronto, Ont., Sept. 13.—John Bagnall, of Mimico, who was sent to the asylum July 22, and escaped about a week later, is still eluding efforts to recapture him. Since getting free he took J. M. Godfrey's dingy and drifted over to Port Dalhousie in it. He was nearly dead when found.

Yesterday he paid a visit to his Mimico home, rounded up a few head of cattle, drove them to the city market and there disposed of them. How he managed to do it without the authorities getting news of it is a puzzle.

Until recently Bagnall was wearing a dark blue suit. Now he is sporting a grey one.

A Case in West Archat.

Mrs. A. P. Ferguson a well known Cape Bretoner has cured asthma by "Catarrh-zone." Her statement is convincing. "Although I was troubled for years it was only recently I tried Catarrh-zone. When an attack started I got out my inhaler and invariably got quick relief. Feeling satisfied Catarrh-zone would cure, I continued the treatment till one bottle was finished. I didn't use more because I was cured and the asthma has never returned." Catarrh-zone is sure death to asthma and bronchitis. Try it and be convinced. Two sizes, 25c and \$1.00 at all dealers.

Brain Workers.

Brain workers do their best between the ages of 25 and 45; before that they are preparing for work, after that their work, no matter how extensive, is largely routine. Lawyers and physicians do much of their practice after 40, but the learning was accomplished before 40 or 45. Successful merchants lay the foundations for wealth and success in youth and middle life. The great men that we know are all old men; but the foundations for their greatness were laid when they were young. Prof. Frederic E. Bolton in the Popular Science Monthly.

When That Cold Comes.

How is it to be cured? This method is simplicity itself. Rub the chest and throat well with Nervilleine, use it as a gargle and take some in hot water before retiring along with one of Dr. Hamilton's Pills. Next morning finds you refreshed, free from cold and bright as a dollar. These household remedies are wonderfully successful, and certainly won't fail in your case. For sale at all dealers.

Western Harvest.

Winnipeg, Sept. 12.—Crop reports from the west to-day show that the grain is about 80 per cent. in Saskatchewan.

The weather is very wet and cold in the west and work is greatly retarded. Heavy frosts are reported from some localities.

May wheat soared to the highest point this year, and touched \$1.00, and October \$1.03. Cash oats are very scarce in the Winnipeg market. Local dealers have very few on hand, which they are holding for railway contractors.

Recipe.

Take one gallon of rain water from the barrel at the southeast corner of the house and remove the wiggles. In it squeeze the juice of two rutabagas and add five drops of benzine. Boil over a quick fire and drink while hot. This makes a very refreshing summer drink.—Milwaukee Sentinel.

Stand up for Your Town.

If you have made up your mind to live in a town, then stand up for it and if you know of positively no good, then silence is golden. Do all you can to help along every man who is engaged in legitimate business. Do not send away for everything nice you want and still expect the home men to keep a stock to suit the whim of one or two customers. The success of your fellow townsmen will be your success. No man liveth to himself, and no man can do business independently of his fellow men. Take the home paper. Do not imagine the big dailies fill up all the space. There are many little crevices of good cheer, social sunshine and personal mention, in the home paper, that the big dailies do not print. Do not abuse your neighbor. The main difference in the number of his faults and your own is that you see through a magnifying glass as a critic. The ill-omened, the croaker, can do a town more harm in a minute than two good citizens can repair in a month.

A Hard Case Overcome.

No longer necessary to suffer from muscular rheumatism. Every case can be cured. Ferrozone is unfailing as proved by David Johnston of Oranville, Ont. "My wife was a dreadful sufferer," he writes. "For two years she could scarcely do any work. Her knuckles and joints swelled, causing torture. To get up or down stairs was impossible. She took box after box of Parozone and rubbed the sore places with Nervilleine. Improvement started and she mended fast. Today she is quite cured and we thank Ferrozone for her recovery." No remedy more popular with doctors than Ferrozone: it does cure, 50c per box at all dealers.

How Tunnel Will Be Built.

The Sarnia-Port Huron tunnel was a most remarkable engineering feat but it was built in the usual way by boring through the soil underneath the river. The tunnel that is to connect Windsor and Detroit at an expense of some ten million dollars, is an entirely different proposition. Immense tubes are being made at the St. Clair steel works on the river and these are to be made in sections each of which will be temporarily sealed at the ends and slid into the water and floated down to the proper position; and then will be sunk in a trench scooped out at the bottom of the Detroit river. The tunnel will be a double tube, so as to be a two track road, and after it is sunk in position it will be covered with sand and gravel. This is an unique way of building a tunnel, and, to the ordinary person, would seem an impossibility, but the engineers who conceived the plan are no doubt sure of their ability to carry it out, and the result will be watched with the keenest interest by everybody whether they are engineers or possessed of only the ordinary minds of the laymen.

A CURE FOR COSTIVENESS.—Costiveness comes from the refusal of the excretory organs to perform their duties regularly from contributing causes usually disordered digestion. Parmelee's Vegetable Pills, prepared on scientific principles, are so compounded that certain ingredients in the pass through the stomach and act upon the bowels so as to remove their torpor and arouse them to proper action. Many thousands are prepared to bear testimony to their power in this respect.

DOES THIS INTEREST YOU?

A prominent physician, famous for his success in the treatment of kidney and bladder diseases, attributes a great deal of his success to the following simple vegetable prescription:—

One ounce Fluid Extract Dandelion;

One ounce Compound Salatone;

Four ounces Compound Syrup Sarsaparilla;

Mix, shake well, and take in teaspoonful doses after each meal and again at bedtime.

Your druggist can supply the ingredients, and the mixture can be prepared at home at very little expense.

This, the doctor says, acts directly on the kidneys, assisting them to filter the poisons from the blood and expel same in the urine, at the same time restoring the kidneys to healthy, normal action.

We feel that a great many readers will be pleased to learn of this simple prescription, and knowing the ability of the physician whose formula it is, we do not hesitate to recommend it to any sufferer.

PANDORA RANGE

HOLDS FIRE ALL NIGHT

The good housewife always feels like bestowing upon the Pandora a cheerful "good morning."

Why? Because the Pandora always has a nice bed of hot coals as a reward for checking off the dampers closely before retiring to rest.

In five minutes after turning on the drafts she will have a good, strong fire.

Should she sleep two or three hours longer than usual there will still be a fire ready for her.

The fire-box, flues and dampers are so scientifically arranged that the Pandora can be

regulated to hold a fire from 24 to 36 hours.

Pandora owners never have their sleep disturbed with dreams of making a new fire in the morning.
