Better Ensilage Equipment With Greater Economy

Good ensilage will increase dairy or meat production 25%. But good ensilage demands a good silo, protecting the ensilage and giving ample capacity.

Toronto Silos are the best on the market. Made of double tongued and grooved staves of selected spruce, saturated with creosote, they give ample protection from air and cold.

Hip Roof design Toronto Silos have an unusually large capacity. Ensilage can be tramped right to the top of the walls.

The greatest profits result from your silo when you have a Toronto Ensilage Cutter on your farm. Rigid, durable, constructed entirely of metal, it will withstand the roughest usage. A Toronto Ensilage Cutter eliminates all chance

of loss through corn lying in the field waiting for a hired machine. You can fill your silo when you are ready—as often as necessary.

A Toronto Kerosene Engine is the ideal economical engine for farm use. Gives efficient power on cheap kerosene. Not only will it run your ensilage cutter, but any other farm machinery you possess.

Write for more complete information on these three Toronto products. Let us show you how they increase your profits 25%.
