- WINTER WEATHER
- HARD ON LITTLE ONES
- Our Canadian winters are exceedingly hard on the health of little ones. The weather is often so severe that the mother cannot take the little one out for an airing. The consequence is that baby is confined to overheated, badly ventilated rooms; takes cold and becomes cross and peevish. Baby's Own Tablets should be given to keep the little one healthy. They are a mild laxative which regulate the stomach and bowels and thus prevent colds. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Oil of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

On Canadian Railways

There are more miles of our Champion Brand "CANADIAN" and "AMERICAN" Fence in use on Canadian Railways than all other brands combined!

This fact should dispel all doubt as to which is the best fence to buy—because Railroads, before purchasing, put their fence to most rigid inspection tests.

"AMERICAN" GALVANIZED STEEL POSTS—no Staples or clips required.

BARB WIRE, COILED WIRE, STAPLES.
