Poetry.

BRILLIANTS. Each lawless thought will mar the plan. Each warring day will blot the man.

What will it matter, in a little while, No; the two kinds of people on earth I care...

Select Literature.

DEEP AS FIRST LOVE. BY MARY TAPPAN WEBSTER.

It was an old road, long fallen into disuse, winding up and down along the edge of a wild moorland that spread to the right over miles of moor, lowland stream hills...

little gentle climbing Mrs. Hathaway found herself on the other side, but here the house was twenty-five or thirty feet high and quite perpendicular. With compressed lips and puzzled brows she returned.

With a resolve which she wheeled about and walked back, still looking over her shoulder as she fled the roof of the barn no longer in sight.

He had been groping through the brush with a willow stick when he was startled by the faint gleam of light that came from the corner of the barn...

Two or three old boys were on the stand and testified that he had spent just ten minutes in getting a bucket of water for his mother.

The judge ordered the test to be made, however, and after the court room had been emptied, the trial continued.

They were on the hill for fully sixteen hours during the day, and the greater part of the time making a wrong of the millions of insects which infested the air.

Jas. J. Ritchie, Q.C., BARRISTER AND SOLICITOR. MONEY TO LOAN ON REAL ESTATE SECURITY. Fire Insurance in Reliable Companies.

NEWS OF THE WORLD. Ireland's drink bill last year was £11,859,000 sterling—about \$88,000,000.

It was a sacrament. When the last trial had faded from the sight of the dwellings of men to deeper solitudes.

The hills decayed her emotion, and in spite of the fatigue of unweaned emotion, she began to feel the freedom of perfect solitude.

Two or three old boys were on the stand and testified that he had spent just ten minutes in getting a bucket of water for his mother.

They were on the hill for fully sixteen hours during the day, and the greater part of the time making a wrong of the millions of insects which infested the air.
