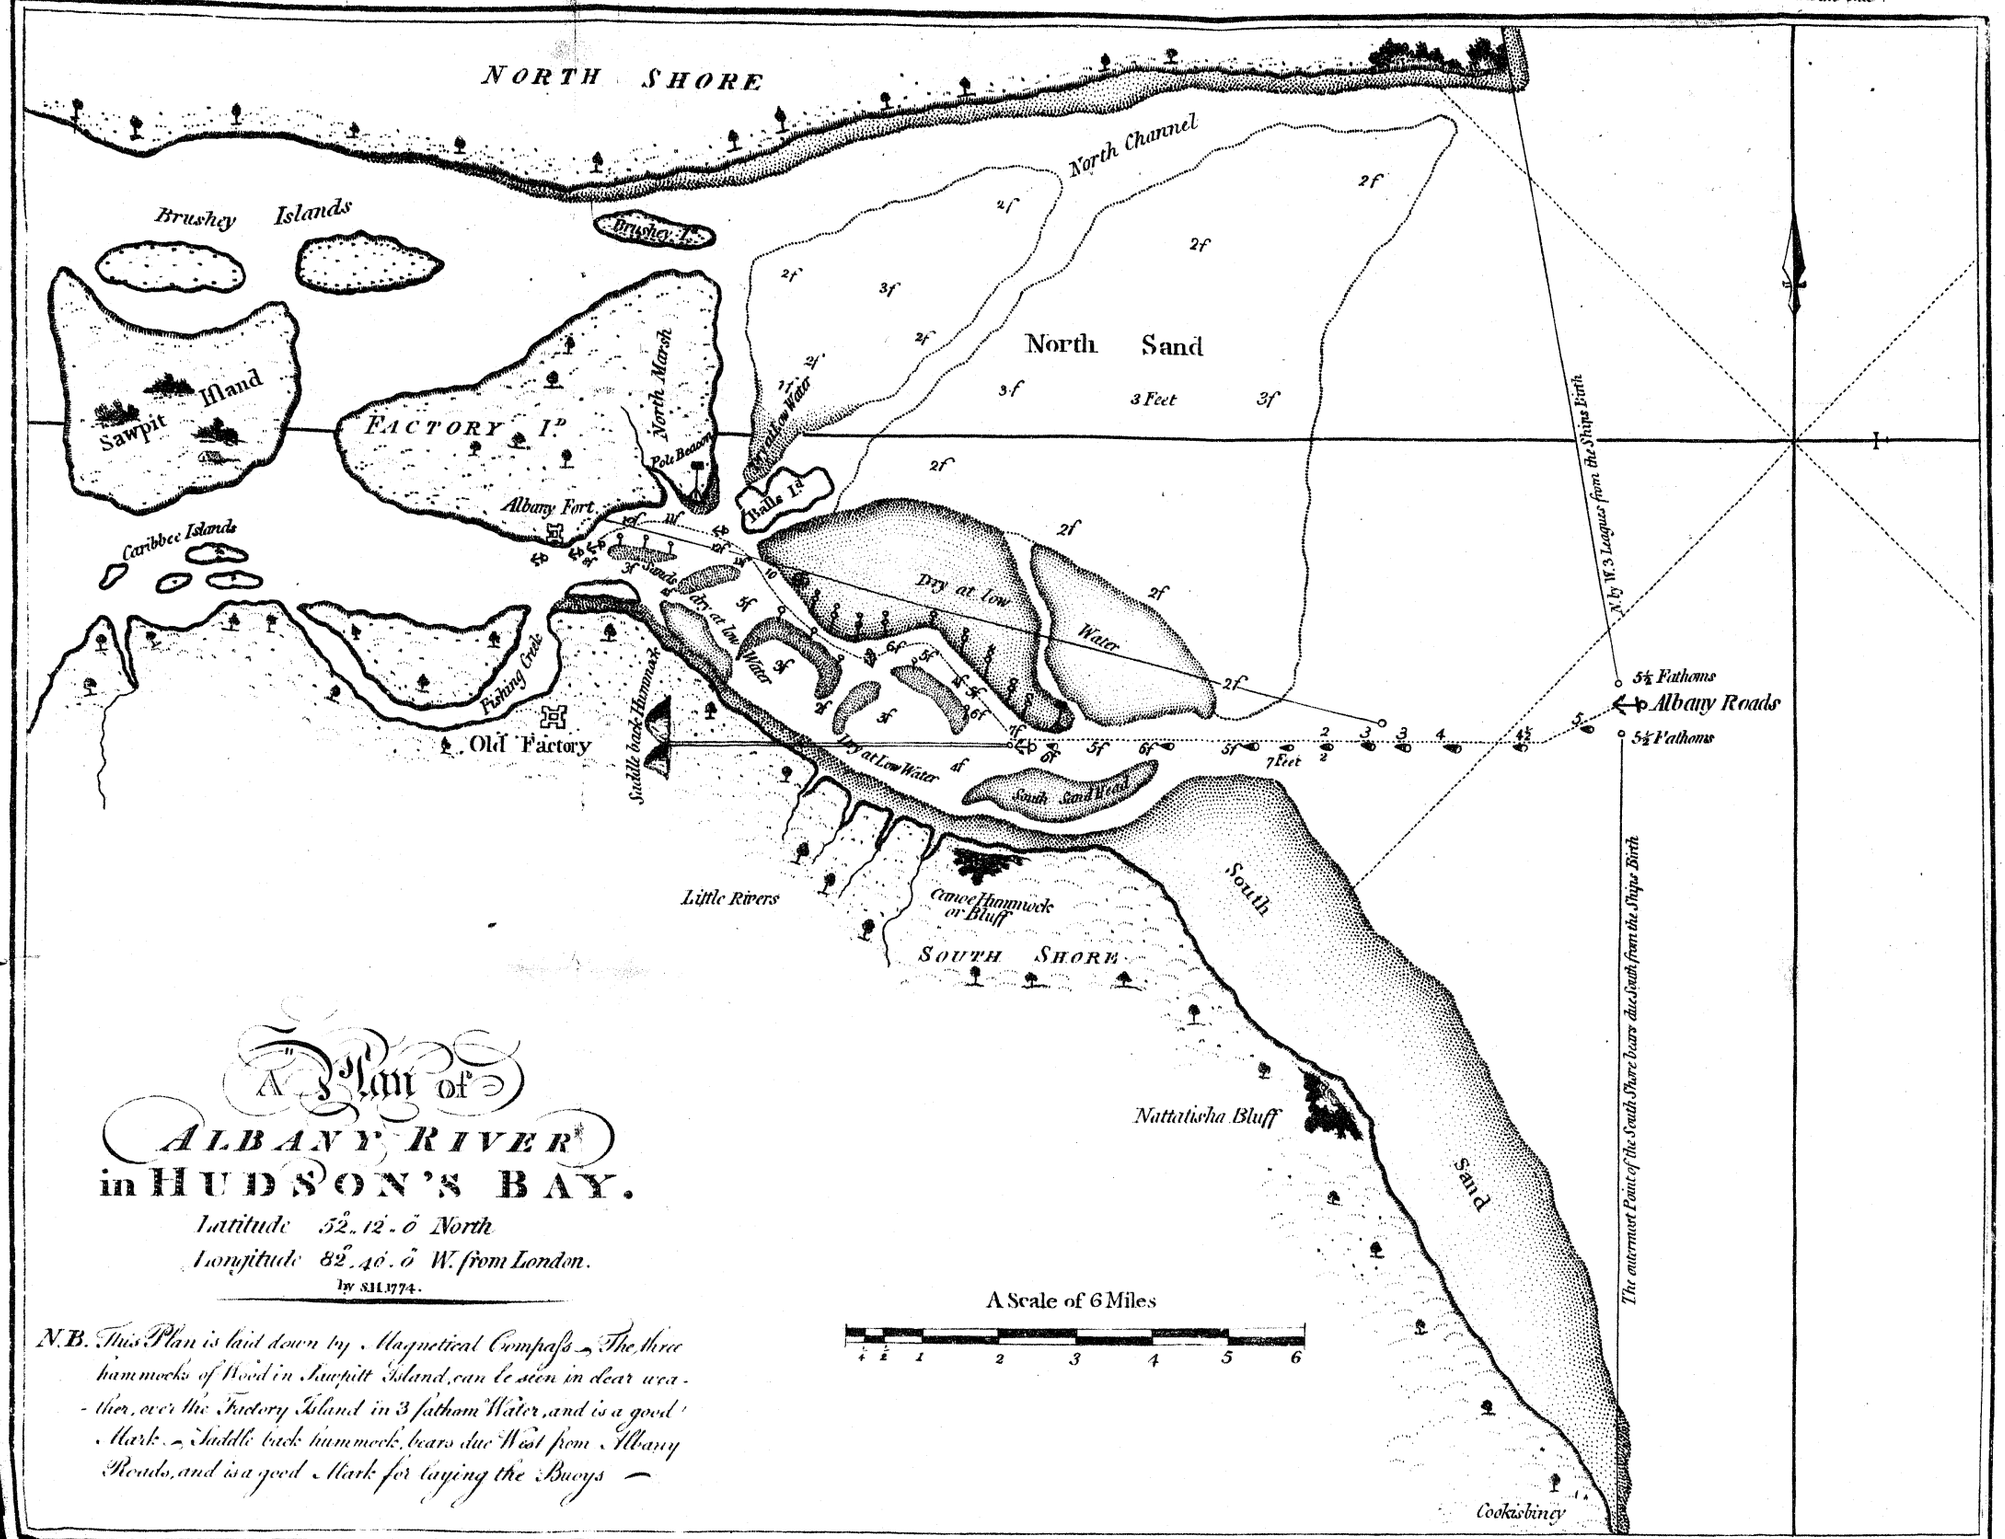
At the end.



A Plan of ALBANY RIVER in HUDSON'S BAY.

Latitude 52°. 12'. 0" North
Longitude 82°. 40'. 0" W. from London.

by S.H. 1774.

N.B. This Plan is laid down by a Magnetical Compass. The three hammocks of Wood in Sawpitt Island, can be seen in clear weather, over the Factory Island in 3 fathom Water, and is a good Mark. Saddle back hummock, bears due West from Albany Roads, and is a good Mark for laying the Buoys.
