fee \$25 on entering.

Write for free prospectus and see what
hundreds of past students have to say
about it. Address,

W. E. HAMILL, M.D., 11 King St. West, Toronto.

DETROIT OPTICAL INSTITUTE.

The best course of Personal or Correspondence Optical Instruction for beginners or advanced students. Established 14 years.

FOR PARTICULARS ADDRESS

JOHN S. OWEN, M.D., PRINCIPAL,
23 EAST ADAMS AVE., DETROIT, MICH.

THE

Jebb Optometer

is an instrument capable of diagnosing defects and **accurately measuring** the refractive errors in the eye promptly, and without the use of a Mydriatic.

Simplicity and accuracy are the two leading features.

Correct results arrived at by a simpler and quicker method.

Simplicity and accuracy in testing children's eyesight.

All other instruments aim at the correction of imperfect vision, but the **Jebb Optometer** reveals the true condition and makes it easy and quick to select the correct lens.

The only Optometer made confining the whole within itself, as the instrument renders rays of light parallel within the length of the tube, thus making the twenty feet usually used for test cards superfluous.

NO ONE CAN AFFORD TO BE WITHOUT IT if he desires to keep pace with refractive science.

For Sale by All Leading Jobbers, or address the inventor,

THOS. B. JEBB, - - - - - **ORILLIA, ONT.**
