

cluding Tariff changes, as it may be important to Canadian exporters and others that they should be furnished with as early as possible after coming into force, the Minister of Trade and Commerce has directed the publication of reports supplemental to those issued annually, commencing with one for the quarter ended 30th September, 1894. The statistical figures embodied in these reports respecting imports, exports, revenues and expenditures, it must be understood, are unrevised, and consequently may not aggregate at the end of the fiscal year those in the statements as published in the annual reports, but as they are approximately correct, the finally ascertained differences will not be so great as to detract from their present usefulness. Although it has not been found practicable to always give the source from which the information has been derived, the statements in respect of Tariff changes and general trade have been in most cases taken or compiled from published official statements; in those instances where not from official sources care has been taken to publish only what has the appearance of being authentic." The scope of the work referred to is divided into five classes:—1. Statistics; 2. New tariffs; 3. Tariff changes; 4. Commercial agencies; and 5. General commercial information. Part I. contains the import and export returns of Canada, the duty collected, Inland Revenue collected, revenue and expenditure, all during months and three months ended 30th September. Part II. contains the new tariffs of Canada, British India, Jersey and Guernsey, and St. Vincent. Part III. gives the tariff changes in the United Kingdom, Victoria, Mauritius, Gold Coast Colony,

Gambia, British Guiana, Trinidad, Bahamas, and Bermuda. Part IV. contains reports of Commercial agents at Jamaica, Antigua, Montserrat and Dominica; St. Kitts, Nevis and Virgin Islands; Barbadoes, Trinidad and Tobago; Demerara, Norway, Sweden and Denmark, and Australia. Part V. contains the tariff legislation of Spain for Cuba and Porto Rico in regard to codfish, together with trade notes respecting the lumber market at Samoa; imports of flour, St. Helena; flour and wheat, South Africa; commerce of South Africa; cultivation of fancy pease in Canada; market for Canadian flour in Porto Rico; Denunciation of reciprocity arrangement with United States by Guatemala, and the same of a similar arrangement with United States by Brazil.

**FREE TRADE AND THE BRITISH SUGAR REFINING INDUSTRY.**

We commend the following article to the Toronto Globe, Montreal Herald and all other freetraders, republished from the Liverpool Carrier, which cannot be accused of being an advocate of protection:

The pessimistic prophets who have for some years been declaring that the sugar refining industry of this country would be ruined sooner or later by the bounty system of other nations will now find fresh confirmation of their assertion in the publication of the announcement that another well-known Liverpool house has resolved upon a stoppage of their works.
