

## 1.5 SECURITY CLASSIFICATION GUIDE

The Department's Security Classification Guide has been published as an UNCLASSIFIED supplement to the Manual of Security Instructions (MSI Supplement No. 1) and distributed separately. ISS is responsible for the publication of, and amendments to, the Security Classification Guide.

## 1.6 SECURITY BULLETINS

- (1) Instructions contained in the Manual of Security Instructions are based on the principles of security approved by the Government of Canada. They are intended to provide complete coverage on all general security matters. It is recognized, however, that special situations and unforeseen circumstances may require special attention or temporary instructions that may not be dealt within the manual itself. This type of information is useful, not only in support of operations, but also as a reference guide.
- (2) Special information of the above type will be distributed in the form of Security Bulletins, which are to be placed in the back of the MSI binder behind the "Bulletins" divider. In this way, distribution to all holders of the manual will be assured and the bulletins will be readily available to all concerned.
- (3) Security Bulletins will remain in effect until cancelled. Notice of cancellation will be by a Manual of Security Instructions Amendment List.

## 1.7 SECURITY PUBLICATIONS AND REFERENCE MATERIALS

The Security Division is responsible for the publication and distribution of specific security-related specifications, operations manuals, guidelines, information leaflets, etc., and for the distribution of such items produced by other government security agencies and/or units.
