

treatment and rehabilitation, education and prevention are of major importance in our fight against drugs.

43. We have asked our appropriate government agencies to build on their established patterns of cooperation to address this common threat. In particular, we will study mechanisms that would assist in the development of healthy, drug-free economies in all States; support further efforts to share relevant information on money-laundering, chemical precursors, new synthetic drugs, trafficking patterns and methods, and other data; and will work together to strengthen the capabilities of law enforcement institutions to combat illicit drugs. Our governments will work together to develop the agenda for the UN General Assembly Special Session on Drugs in June 1998.

### TERRORISM

44. We reaffirm our determination to combat terrorism in all forms, irrespective of motive. We oppose concessions to terrorist demands and are determined to deny hostage-takers any benefits from their acts. We welcome the growing consensus on adopting effective and legitimate means of countering terrorism.
45. Last year, our Ministers adopted twenty-five recommendations to combat terrorism. We have received a positive response worldwide, in particular in the UN General Assembly. Together we have made substantial progress on many of these recommendations, including: drafting and negotiating a UN convention on terrorist bombing; promoting improved international standards for airport security, explosives detection, and vehicle identification; promoting stronger laws and export controls on the manufacture, trade and transport of explosives; initiating a directory of counter-terrorism competencies; inviting all States to promote the use of encryption which may allow, consistent with OECD guidelines, lawful government access to combat terrorism.
46. We have asked our Ministers to intensify diplomatic efforts to ensure that by the year 2000 all States join the international counterterrorism conventions specified in the 1996 UN resolution on measures to counter terrorism. We have instructed our officials to take additional steps: to strengthen the capability of hostage negotiation experts and counterterrorism response units; to exchange information on technologies to detect and deter the use of materials of mass destruction in terrorist attacks; to develop means to deter terrorist attacks on electronic and computer infrastructure; to strengthen maritime security; to exchange information on security practices for international special events; and to strengthen and expand international cooperation and consultation.

### HUMAN CLONING

47. We agree on the need for appropriate domestic measures and close international cooperation to prohibit the use of somatic cell nuclear transfer to create a child.
