TRANSPORTATION **PLAN ADOPTED** 

Controllers Approve Ques-

The chief business before the boar f control yesterday was the discus don and adoption of the mayor's trans portation plan, which provides for certain questions being submitted to the ratepayers on Jan. 1 next. The chief question to be answered is: "Are you in favor of the operation of the Toronto Railway System by a civic commission consisting of three ratepayers, resident in the municipality, appointed by the city council?"

In his proposals, the mayor laid down the following line of policy: . (1) The civic car lines to be operated by R. C. Harris up to 1921. The commissioner, when appointed by the legislature, to plan new routes, build cars, and to raise debentures not exceeding \$5,000;000. Also to report on the needs of the city for further transportation by buses and radials, and to prepare the way with rolling stock

for 1921. (2) When arbitration is commence ed, it is to be undertaken on behalf of the city by the commissioner of works, the commissioner of finance, the corporation counsel, and E. E. Cousins of the harbor board.

After laying down regulations for the issuing of the \$5,000,000 deben-tures, the "line of policy" says the city council is to have the right to serve notice on the Toronto Railway Company before Sept. 1, 1920, and that the \$5,000,000 debenture issue is not Ontario License Board Will Investigate in any way to affect the city's borrowing powers.

Refused to Vote.

The first clause was carried on a onds and securities in a cash box in such a statement, when Controller on."

le law office of Pritchard & Quirk, Cameron retorted; "You can object all Rumors have been persistent of late." carried by the votes of Controller Ma-

> The original scheme recommended commission of six members, and Controller McBride took great exception to the mayor's amendment, say "All these reports are turned

The mayor: "I have been studying this question for the past two years." Controller McBride: "You have been studying yourself." Controller Cameron wanted the personnel of the commission appointed right away, but it was pointed out to him that it was impossible until the ratepayers were consulted.

The matter will be next heard of when it comes before the city council in a week or so, and some lively times are promised if all forecasts are to be re-

# VICTORY LOAN

ONTARIO EMPLOYEES COMMITTEE

HONOR BANNER COMPETITION

One of the most interesting features in connection with the Victory Loan is the campaign among employees in establishments throughout the Province. The campaign has to do with subscriptions of employees only, and a Prince of Wales Honor Banner is awarded to each establishment reaching its objective. This objective is based on two things, viz.: That 75 per cent. of the employees subscribe, and their subscriptions aggregate an amount equal to at least 10% of the concern's annual pay roll. In addition a crest that may be attached to the hanner is awarded to each concern securing subscriptions from 20% of its employees and a banner is awarded to each concern securing subscriptions from 90% of its employees, and a second crest in the event of 100% of the employees buying bonds, also one crest is awarded for each increase of 25% over the amount of the original objective.

There is keen competition among establishments to see which will win the greatest number of crests. The following list shows the establishments in Ontario, excluding Toronto, that have already been awarded the Banner, together with the number of crests won by each. The list will be published in this paper daily:
