Common Slow of Sale - Hogs 10c Higher, Selling at \$6.85 Cwt. 1 - Sheep and Lambs Firm.

Receipts of live stock at the city market, as reported by the railways, since last Priday were 78 car loads, composed of 1278 catle, 1059 hogs, 346 sheep and lambs, 81 caives and 20 horses.

There were several loads of fairly good cattle, which were soon picked up, but the bulk were of a common, half finished class that did not sell so readily.

Exporters.

A few lots and loads sold at fairly gool \$5.40; one load at \$5.30, one load at \$5.25 and several lots at \$4.80 to \$5.15 per ewt. Bulls sold at \$4 to \$4.40 per cwt. More finished cattle would have sold.

There was a light run of sheep and prices were firm all round for any of good quality.

First quality lambs sold at \$6,50 to \$7
per cwt.; common lambs at \$4.50 to \$5.50
per cwt. Export ewes sold at \$4,50 to \$5.25
per cwt.; culls and rams, \$3.50 to \$4.25 ler
cwt.

On Friday last The World quoted hogs at \$6.75, and to-day Mr. Harris advanced prices 10c per cwt, not 25c (as was repuried in some of the evening papers). Selects, \$6.85 and lights and fats at \$6.60 per cwt.

I Have Just Returned:from

BUY COBALT CONTACT AT PRESENT QUOTATIONS \$% TO 15%. HOLD THIS STOCK AND YOU WILL RECEIVE FROM \$2 TO \$3 PER SHARE FOR IT.

I advise immediate purchases of this security quoted upon the New York Curb at any price under \$1.50 per share. I have just returned from Cobalt, and I found conditions at the COBALT/CONTACT much better than I had anticipated. My engineers' report upon this property will be gotten out just as quickly as possible and will be mailed to all inquirers. In the meanwhile, buy this stock. As an instance of the possibilities of this property I will say that an assay taken at the bottom of the main shaft ran 4.383.02 OUNCES SILVER TO THE TON. The property is in spleodid shape, ore is being taken out during development work, and within the next 90 days I look for big things from the COBALT CONTACT property. It undoubtedly has the making of one of the greatest mines in the entire Cobalt district. The GREEN MEEHAN, which immediately adjoins the COBALT CONTACT, was personally inspected by me and upon this ground I found one of the greatest showings in the Cobalt camp. This company has produced and shipped ore to the value of \$84,696, at a total cost of only \$4.573, and they have fully three times as much ore blocked out and in sight as has been taken out of the property. The ore is some of the richest in the camp, it is practically solid native silver and this property is considered by competent judges, mining engineers, etc., to be one of the biggest in the district. Remember that this strike is within 150 feet of the recent strike made upon the COBALT CONTACT property. The COBALT CONTACT property directly adjoins and side lines the GREEN MEEHAN. The GREEN MEEHAN property is incorporated for 2,300,000 shares (in former letters I have said that this property was incorporated for 1,500,000 shares, but I find that 2,500,000 is the correct amount). The stock is to-day selling around \$1.50 per share, which makes this mine sell on a basis of \$3,750,000. The RED ROCK, which immediately adjoins the COBALT CONTACT, in my opinion has not one half the showing that the CONTACT has, is selling around \$1.50 per share, which makes this m CAPITALIZATION COUNTS

Green Meehan, Capitalization 2,500,000 Shares

COBALT CONTACT, Capitalization 600,000 Shares at only 50c. par value, at present market prices Capitalization 600,000 Shares at only

\$375,000

This is the smallest capitalization in the Cobalt camp for the ground owned by the company. They own 40 acres full and clear, and the present high showing has been made upon about one and one-half acres of their ground. Twenty-five men are working on the COBALT CONTACT property, day and night shifts being employed, and this stock is today being bought by Canadian people who have examined the property. Now the safest and surest way to make an investment in COBALT CONTACT is to take a trip right to Cobalt and have a look at the mine yourself. At a cost of about \$50 in sil you can make a trip to Cobalt, and within \$100 you can make it very easily. To anyone writing me I shall be very glad to give written permission to thoroughly examine the ground and property, and after you have looked over the property and looked over adjoining properties, I am satisfied you will buy Cobalt Contact stock, and buy it in big blocks. In conclusion regarding the CONTACT property I will say that upon my return to the city I have sold other Cobalt stocks which I have been holding, and whose properties do not look so well, and have MYSELF INVESTED THE PROCEEDS IN COBALT CONTACT STOCK, and if this stock is good enough for ME to PUT MY MONEY into at prevailing prices, I think it good enough for my customers, and I therefore STRONGLY URGE and ADVISE immediate purchases upon wire orders at the market, \$% (62½ ccuts) per share.
