

## LENNOX AGAIN IN THE BOX.

Is Very Complaisant, but Consults before Answering Denison.

With His Solicitor—Insurance on the Boilers—Heavy Pavement Recommendations by Engineer—Ward I Assessment—Railways and Market Improvement—Fribute to Gladstone by City Council.

About the only large question which the Property Committee has on hand these days is the hauling of the works on the new City Hall. Chairman Denison still hopes to enter it in July. The presence of the architect, therefore, the signal for a deluge of questions, and more or less plausibly answered. The architect was heard at yesterday's meeting, and informed the committee of what The Works had hitherto published, that he had awarded the truck-pulling contract to William Adams at \$250,000 per yard.

Answers for All But Denison. The rest of the information imparted will be found in the architect's written replies to questions by Ald. Davies, Lamb and J. J. Graham. He refuses to answer Ald. Denison's questions until he has consulted his solicitor as to the advisability of so doing.

He does not consider himself called upon either to answer Ald. Davies' questions about the asphalt and about advertising for electric energy, referring them to the City Engineer. He avows that some of the departments will be enabled to occupy their new apartments by July 1.

In reply to Ald. Lamb, Mr. Lennox explained that he had accepted the radiator with the plain-ribbed pattern because it would be easier kept clean. The contract had now been closed, and the stone would be delivered towards the end of this month. He does not expect the marble work will begin before the first week in June. He is assured that the eastern portion of the but early in June.

To Help the Regulars Save Lives. Ald. Leslie and Hanlan moved for an appropriation to buy boats to provide a life-saving service at Stanley Barracks. By Ald. Lamb's suggestion, Col. Otter will first be consulted.

The architect's recommendation to put a \$12,000 policy for three years on the boilers and machinery at the new City Hall was adopted. The policy requires three inspections of each boiler annually by the Boiler Inspection and Insurance Company's agents.

Men Must Get Fair Wages. Architect Lennox was instructed to see that Sub-Contractor, Gibson, on the asphalt work, paid the machine polishers the 15c per hour required by law. The architect claimed that they had been getting only 10c an hour, but the contractor alleged that they had spent part of the time working in other jobs.

The City Commissioner was instructed to take proceedings to force the Coburn Manufacturing Company to remove lumber from city property and to replace fences.

Rent Schedule for Halls. A schedule was adopted, fixing rentals for St. Lawrence Hall, at \$100 per night, and for the City Hall at \$100 per night, and for the City Hall at \$100 per night, and for the City Hall at \$100 per night.

To Paint Geddes' Sheds. A schedule was adopted, fixing rentals for St. Lawrence Hall, at \$100 per night, and for the City Hall at \$100 per night, and for the City Hall at \$100 per night, and for the City Hall at \$100 per night.

Upon application of W. A. Geddes, it was decided to spend \$100 in painting the sheds and sheds at the city docks. The School Board was granted the use of St. Andrew's Hall on Saturday afternoon for rehearsal purposes.

Gates were recommended for Brock and Dufferin-street wharves to prevent persons from escaping wharfage dues.

Railways Will Co-operate. Ald. McMurrich, the chairman of the subcommittee in charge of the matter, has received replies to communications to the management of the G. T. R. and Toronto and Metropolitan Railway Companies, all of whom express their willingness to heartily co-operate in facilitating the improvements to St. Lawrence Market. The G. T. R. has not yet been heard from, but Superintendent Felt and Leonard have been on the ground with Ald. McMurrich, and their views are eminently satisfactory.

Heavy Grist of Pavements. In addition to the recommendations published yesterday, the Engineer's report for the Board of Works to-day contains the following local improvement recommendations on the initiative: Cedar block, 1000-sq-ft, on plank foundations, cost \$740; Bolton-avenue, Gerrard to Queen, gravel foundation, cost \$480; Garden-avenue, St. Lawrence to Rensselaers, cost \$2400; Balmain-street, cost \$300, city share \$150, annual charge 15c per foot.
