CHICAGO WHEAT WAS EASY

Considerable Liquidation in December
Option.

May Delivery Now Quoted at a
Cent Premium Over This Month's
Option—European Wheat Supply
and Requirements—Wheat Under
the Snow in Dakota—Notes and
Gossip.

Liverpool wheat was steady to strong to-
day, futures closing unchanged to 1/4d per
cent above yesterday's final quotations.
Paris wheat closed steady to 1/2 centimes
lower for the day, with flour 10 centimes
lower to 10 centimes higher. Antwerp
wheat advanced 1/2 centimes.

Chicago's wheat market exhibited little
strength to-day. There was considerable
liquidation of this month's delivery, and
at the close the May option showed a pre-
mium of a full cent over December. Re-
sults as to the crop in Russia and Ar-
gentina was to hand.

Liverpool market closed off 1/4d to 1/2d per
cent to-day. Chicago corn was tolerably
firm.

Peas rose 1d at Liverpool.
Land is 1d higher at Liverpool.
Total clearances to-day: Wheat and flour
equal to 800,000 bushels, corn 1,200,000
bushels.

Exports at New York to-day: Flour 19-
125 barrels and 10,085 sacks; wheat 186-
675 bushels.

Sixty loads of wheat were reported work-
ing for export at the seaboard to-day.

Liverpool wheat receipts past three days
100,000 bushels, including 110,000 bushels
of American. Male, same time, 275,200
bushels.

Primary wheat receipts to-day 1,235,000
bushels, corn 381,000 bushels.

Minneapolis reports sales of 90,000 bushels
of flour yesterday, and it is expected that
this will show a decrease for this week of
200,000 bushels in wheat stocks.

Car receipts of grain at Chicago to-day:
Wheat 140,000 bushels, corn 140,000 bushels,
barley 130,000 bushels, oats 415,000 bushels,
rye 200,000 bushels.

Wheat receipts at Minneapolis and Du-
luth to-day 120,000 bushels, against 120,000
bushels of 1892.

Argentine wheat shipments this week
were 8000 bushels, against none last
week and none the corresponding week of
last year. Corn shipments 544,000 bushels,
against 488,000 bushels last week,
and none the corresponding week of last
year.

Gains throughout the greater part of Cal-
ifornia have greatly benefited the growing
grain and pasture and have enabled a
good deal of corn to be plowed and seeding
to be accomplished.

The receipts of wheat at western primary
markets during the first four days of this
week amounted to nearly 6,000,000 bushels.
The shipments from Duluth for four days
were enormous, reaching 3,200,000 bushels.

New York reports that freight engage-
ments were made there on Thursday for
22 loads of wheat (14,000 bushels) for
Adelaide ports. This is a strong indication
that Russia is not selling freely.

Wheat Supply for Europe.
Beerholm, Nov. 18, makes the world's
shipments of wheat to the importing coun-
tries of Europe for the 15 weeks ending 1st
Nov. 12, 12,885,000 quarters, of which 5-
835,000 quarters were shipped to the United
Kingdom and 7,000,000 quarters to the
Continent. The United Kingdom has been
receiving less, and the Continent more than
estimated requirements. Beerholm makes
the aggregate shipments slightly in excess
of the United Kingdom's requirements. The
shipments to United Kingdom are considerably
larger in recent weeks than earlier in the
season. It is expected that the receipts will
now begin to show a gradual but
light weekly decrease. Beerholm shows
that the average wheat crop of Russia in
a preceding seven years was 46,000,000 quar-
ters, average annual export 13,500,000
quarters. He says that the crop in 1893 is
66,500,000 quarters, from which Russia, if
necessary, could spare 20,000,000 quarters,
but probably will not ship over 12,000,000
quarters, as that is all that importing
countries will require from Russia, and
many of the holders in that country will
prefer to reconstitute the reserves, rather
than accept probable current prices. He
says that there seems to be a general dis-
inclination to buy for future delivery, be-
cause of the expectation of large supplies
from Russia and Argentina in the spring.
Froomhall's Odessa correspondent cables
that the rivers in South Russia are still
open, and the arrivals of grain from the
interior are fair. Navigation at St. Peters-
burg is about closing. The reports from
Argentina and Australia are conflicting.

Under the Snow.
The Chicago Daily Bulletin reports that
thousands of acres of wheat in stock in
North Dakota were caught by the recent
snow storm and rendered unfit for milling.
A St. Paul dealer estimates that
about ten million bushels of wheat are now
under the snow. This wheat was not
harvested and the plowing presented obsta-
cles for several weeks, and this was fol-
lowed by the snow, which prevents its
being threshed at all. Along the line of
the Reading Railroad over 1000 cars load-
ed with flour are side-tracked because of
the scarcity of space in ocean vessels.

Liverpool Apple Market.
Messrs. Woodall & Co. cable to-day as
follows: "14,800 bushels. Market active;
prices very firm."

Glasgow Apple Market.
Messrs. L. & H. Williams & Co. cable to-
day: "We think it quite safe to continue
shipping at stock. The market is firm and
demand bright. Prices steady, with list
quotations well supported. Baldwin's, 17s
