SICK HEADACHE.

The mechanism of the body is won-derful. Like delicate machinery, a slight cause may be sufficient to disderful. Like delicate machinery, a slight cause may be sufficient to distribute arrange to the extent of rendering it almost useless. Sick headache indicates constitutional trouble than a mere derangement of the stomach, for the liver, kidneys, secreting and excreting organs of the body are all involved.

New York, July 25.—Leo Jakobi, 40 years old, a wealthy proprietor of the Auto Supply Company, and vice-president of a Philadelphia woollen manufactory, shot and killed himself to-day at the home of Dr. J. E. M. Lordly, where he had been under the care of the physician. The deed, it is said, was stomach, for the liver, kidneys, secreting and excreting organs of the body are all involved.

To cure sick headache absolutely so as to avoid new attacks, you have simply to take Ferrozone, one after each meal. Soon you will find yourself a new person. Your stomach will have grown stronger and digestion quite natural. A stream of rich red life-giving and life-sustaining blood will course through your veins. Sleep will become as natural as the sleep of an infant, and all the distressing symptoms which preceded the headaches will have disappeared. Ferrozone cures sick headache by removing the cause, which excites them. It's a radical cure. Thousands testify to the marvelous curative powers of Ferrozone.

ronto and the United States before re-turning to British Columbia. He sails by the SS. Bavarian on Thursday next. He was born in Toronto in 1879. As a token of his work in South Africa. he wears the South African medal with the Paardeberg clasp.

MUSEUM WILL BE ADDED.

Thru B. E. Walker's Generosity New Building Will Be Given 'Varsity.

Byron E. Walker's offer to present his magnificent collection of fossils and alaeontological specimens will in all Canadian Associated Press Cable.)

Bisley Camp, July 25.—The members of the Canadian team in recognition of the kindness and attention shown them by Lieut.-Col. Anderson and Major McDougall, the commandant and the adjutant, presented the former with a handsome carving knife and fork.

The Marquis of Lorne wired Col. Anderson his congratulations on Pte.

Perry's success.

Palaeontological specimens will in all probability result in the addition of a museum to the university, and of the necessary teachers to make a course in palaeontology a possibility.

Owing to the fact that so many of the university authorities are away, however, it is not likely that the plan will be considered till later. Dr. John Hoskin, chalrman of the board of trustees, said yesterday in an interview that he was sure something would be done as soon as possible. It is very likely that inside of the next two years the university will have a museum wherein may be placed such collec-
