One Hundred and Fifty Passengers Have Miraculous Escape From Death.

LONDONERS ABOARD

Accident Due To Misunderstanding of a Railway Signal.

Toronto, June 17.—One hundred and fifty passengers and the crew of the International Limited, G. T. R., eastbound, due here at 9:13 this morning, had a miraculous escape from death or serious injury when the train was derailed on the 20-foot-high Sunnyside embankment, just west of this city. The engine, baggage car and two coaches left the rails, but as the train was running on one of the centre tracks, all remained on the embankment and nobody was hurt. The accident is said to have been caused by a misunderstanding of the misplacing of a signal to stop at a point where workmen were making repairs.

The London passengers on the train were C. A. Whitman, Mr. and Mrs. W. J. Lashbrook, Thos. Stuart Reid, and Frank Laughlin.

30000 MONTREAL WORKERS TO BE ON STRIKE SOON

Serious Tie-Up Is Anticipated by the End of This Week.

TROUBLES INCREASING

No Sign of Settlement At Present in Any of the Strikes.

Montreal, June 17.—Montreal's labor troubles are piling up and present indications are that they will be a serious tie-up by the end of the week. The railway shopmen's executive committee has issued the strike order for Wednesday morning, apparently having abandoned any hope of a settlement before the expiration of the time limit. The full result of their action cannot be estimated, but it is feared that the thousands of other workers whose trades are closely related to those of the shopmen will be drawn into the strike. The strike of the building trade electricians is said to be the forerunner of a general walkout of the dozen trades affiliated with the building trades council. It is thought that over 30,000 will be involved by the end of the week. There is no sign in sight of any settlement of the strikes at present.

VANCOUVER STRIKERS RETURNING TO WORK

Vancouver, June 17.—The Vancouver Engineering Works, employing about 200 men, threw open its doors for the resumption of work yesterday, and it is stated that about 75 per cent of the men went back to their tasks, with other reporting during the day. This concern, it is pointed out, was not closed down by the general strike order. Some of the company's employees went out on sympathetic strike, and two or three days later the management closed the works, telling the men to take a few days' holiday.

Several of the telephone operators were ordered to return to their switchboards. The telephone service in Vancouver is fast approaching normal conditions. No attempts have been made to interfere with the workers.

VANCOUVER PRINTERS OBJECT TO TEXTS OF STRIKE ADVERTISEMENTS

Vancouver, B. C., June 17.—The Vancouver Union of Printers, who have been in the city today to publish full editions. Growing out of the strike serious complications took place today in local newspaper offices. Objection was taken by local printers to the texts of two half-page advertisements ordered for insertion in the two evening papers. One of them was submitted by the Citizens' League, the other by the Citizens' Law and Order League.

The Sun paper, which had a disagreement with its staff on Saturday morning over an editorial to which the paper objected, has not yet resumed publication. President M. G. Scott, of the International Typographical Union, today wired that he had ordered the Sun chapel back to work immediately.

TELEPHONE WORKERS IN CALIFORNIA STRIKE

San Francisco, June 17.—Telephone operators, linemen and other electrical workers throughout California went on strike at 8 a.m. today, unless their demands for a permanent military policy are adopted.

LONDON PHOTOGRAPHER HAS AN ENJOYABLE AND BUSY TIME SNAPPING CITY FROM THE AIR

Gets Forty Films in Thirty Minutes and Does Not Feel Nervous or Insecure While Flying.

Arthur A. Gleason of this city holds the distinction of being the first Londoner to make aerial photographs of his own home town. He probably holds the long distance record locally for speed in photographing as well. He took 40 pictures in the space of 30 minutes from the "cabin" of Lieut. Wilshire's airplane, and of these 20 or more were an entire session.

"I have photographed yacht races from a small open motor boat in a choppy sea," he says, "and I had in view a casual sea-sickness of sailing against wind and balance. Shortly after the excursion aviators arrived in town, Mr. Gleason made his arrangements to go up in the air to take birdseye pictures of the city and the surrounding country. It was necessary to wait several days for ideal conditions, clear atmosphere and entire absence of haze. The psychological time arrived, and at seven minutes to one a good flying day was made from the aviation field. Too busy for nerves."

"I haven't time to think about nerves," he said, "I was entirely too busy. I didn't have a second to wait, so fully was my time occupied with the camera. Before the picture collecting flight was started, the seat was removed from the cabin of the airplane and the camera mounted on a fixture placed on a revolving ring on the deck. An adjustment provided for the pointing down of the camera. Owing to the nature of the work to be done, a possible freedom of motion was necessary. Was the photographer tied in the machine? Not a bit of it. He stood right up like a veteran, though it was positively his first time up, the deck coming suddenly up to his chest. Not Worrying. "For danger or feeling of insecurity, it is not to be compared with making

MISSING EXHIBITS NOW IN POSSESSION OF PROPER TRIBUNAL

Decision Will Be Reached, It Is Expected, Within Ten Days.

Montreal, June 17.—After adjournment of the public hearing of the newsprint inquiry yesterday, a new trial was given to the situation by the production of almost all the missing exhibits. The public hearing, which was in possession, the tribunal settled down to consideration of the evidence, and it is now understood that the tribunal will reach an early decision, which is expected within ten days. This will preclude all likelihood of the tribunal's jurisdiction lapsing before judgment is given.

WINNIPEG STRIKE LEADERS PLACED UNDER ARREST AND SPIRITED AWAY FROM CITY

GERMANS HOWL IN INDIGNATION AT NEW TERMS

Allied Reply Is Received With Utmost Depression.

Winnipeg, June 17.—The new allied terms reached here late last night and the first apparent effect upon the German leaders, who remained awake to wait for the terms was that of depression. A report passed rapidly through the old castle where the government heads are residing temporarily, that the signing of the Peace terms by Germany was highly improbable.

No one would talk for publication, but every official and every member of the foreign office available expressed the deepest pessimism and resentment at the alleged cruelty of the terms. The Germans were specially embittered over a report that a French mob had stoned the helpless German delegates at Versailles.

NORMAL IN CALGARY.

Calgary, Alta., June 17.—There have been no developments in the local strike situation for some time. Save for the postoffice confusion, one would scarcely know a strike existed here. The postoffice has one man working for everyone that is on strike, and though they are inexperienced, the mail service is growing better each day.
