LEGLESS VETERAN OF PRINCESS PATS COMMITS SUICIDE

John Hoar of Chicago Served Overseas With the Canadian Forces and Was Awarded Decorations for Gallantry — Takes His Own Life Rather Than Be Burden To His Wife When Monthly Payments of \$85 Discontinued.

New York, Sept 4.—A dispatch to the Sun and New York Herald from Chicago states that John Hoar, who lost both his legs while serving with the Canadian forces in France, committed suicide Thursday on receiving notice from Ottawa that his diability allowance of \$85 per month had been discontinued. He took this step, says the dispatch, to avoid being a further burden upon his wife, who had been working to support

Hoar is reported to have joined the Princess Pats before the United States entered the war. He was wounded while with his battalion in the Somme. Eefore going to war he had been engaged to Catherine Menrath, and when he returned maimed his fiance insisted on carrying out nise to marry him.

On Thursday, while his wife was away at work, the story runs, Hoar received the letter from Ottawa. Then he killed himself. He had been awarded the Military medal, the D. C. M., and the Croix de Guerre.

100,000 MINERS QUIT **AS PROTEST AGAINST** LATEST WAGE AWARD

Leaders Urge President Wilson To Reopen Con-

CHARGE INEQUALITIES

Anthracite Miners Want the Wages On Same Basis As Bituminous Workers.

SCRANTON, Pa., Sept. 3 .- Anthracite nineworkers through their union officers today appealed to President Wilson to reopen the wage contract signed vesterday, for the purpose of remedying the "inequalities" of the award recently approved by President Wilson. It is estimated that about 100,000 nine workers throughout the anthracite regions have quit work because, i s declared, they are not satisfied with the terms of the coal commission's

"The inequalities in the award," the Cherbourg Port appeal to the president stated, "are so apparent that voluntary uprisings have taken place in opposition, and protest in all of the mining districts despite steamer Aquitania, which left New York on August 28, arrived here at 3 o'clock yesterday afternoon, making the officers of the United Mine Workers of America to prevent those disturb-

The award of the commission gave the anthracite men increases ranging from 17 to 25% per cent, whereas the miners asked for a uniform advance of about 27 per cent for the several classes of workers. Union leaders insist the award gives the men virtually nothing more than the operators offered them last spring, which was rejected. A long telegram was also sent to Secretary of Labor W. B. Wilson, embodying the appeal sent to the president, and urging the secretary to exercise the influence of his office to have a joint wage scale meetoffice to have a joint wage scale meeting held to insure permanent peace and tranquility in the anthracite mining in-

ranquility in the anthracite mining industry.

Following the refusal of the coal operators to receive new demands yesterday, when the new wage scale was signed, a meeting of the general scale committee of the United Mine Workers was called for today, at which a committee of thirteen was appointed, four from each of the three districts and International Vice-President Phillip Murray as chairman, to decide upon a plan of action. It decided to make a direct appeal to President Wilson.

So far as can be learned, the general scale committee took no action; today to have the workers return to work. It was said the question of getting the men back would be left to the local officers in the various mining communities. Soviet Forces Driven Out of

Britain Rapidly Regaining Her Pre-War Commercial Position

London, Sept 4 .- Great Britain is well on her way to regain the com mercial position, which she held before the war, says the official monthly summary issued by the American Chamber of Commerce here. The hamber bases its opinion on the July returns received by the board of trade, which make the best showing since the war, Great Britain's ad verse trade balance being reduced to £8,000,000, compared with £34,

000,000 for June. The present outlook is not so good, says the chamber's statement Some industries are facing a slump, and unemployment was rising slightly at the end of July. It adds, however, that the depression is thought to be only temporary, as the world is still badly in need o goods, and the readjustment of prices will increase the demand. Among the unfavorable factors mentioned, apart from the threatened miners' strike, is the decrease in many lines of their exports to the United States by which sterling exchange is kept down. Moreover, the rise in the cost of living has continued, notably as regards bread, butter petrol and railway freight.

Many Improvements Have Been Made During the Holidays.

London schools will open on schedule, time Tuesday morning, and, excepting for a few minor changes, which are required owing to building conditions, exerything is in readiness for the kiddies to troop in and take their places. Alexandra and Lord Roberts public schools will be utilized during the afternoon until further notice by Collegiate Institute pupils, and for this reason the pupils will attend from 8 a.m. until noon. The high school students will attend yom 1 to 5 p.m., as outlined by Principal W. H. T. Mooney.

"Dr. Bryant and Principal Kirkwood have been advised that the kindergarten and grade 1, and possibly grade 2, pupils may not come to their schools so early, and they will arrange this on Tuesday," said School Inspector C. B. Edwards today. "Every effort will be made to minimize these difficulties."

To Be Ready Soon.

"Knollwood Park school will not be ready for occupation, but we hope by the end of the week that the building will be ready. No provision has therefore been made for grades 1, 2, 3 and 4, but the senior grades will attend the Boyle Memorial school as heretofore." This means that until further notice pupils of the grades enumerated above for Knollwood school will have their summent vacation extended a week, which may or may not prove to be good news for the kiddies of that district.

WOULD REPLACE

The East Middlesex Member **Favors Tearing Down** Castle Carter.

"Tear down the jail" may sound like the slogan of a radical agitator of Bolshevik reformer, but with local reference it is the central active idea in a scheme for the beautification of the west end of Dundas street and the

neurasthenic patients to patronize a big sanatorium whose front sleeping porch looked out over the jail yard, with its little cemetery of criminals who have been hanged there, and nightly alleged to be haunted by the ghost of Mari

Favors Jall Farm.
Anyhow, a jail is an inhumane place to cramp up prisoners for minor of-fences. In the opinion of Mr. Glass, a jail farm for four or five contiguous jail farm for four or five contiguous counties is the proper thing. The jail should be torn down and the site terraced for a recreation park running to the river bank and traversed by Thames street. A big sanatorium, bathhouse or invalid's hotel could be located somewhere near or about the mineral springs, and the river bank near the forks could be transformed into a place of rare beauty. of rare beauty.

and the jail yard cemetery evoked from Mr. Glass a vigorous protest against the institution of capital punishment. The Love case was cited as an illustration of the execution of a possibly innocent man.

Suggests Change.

'Even if there is only one miscarriage of justice in one thousand cases, punishment should not be made wholly irremediable." said Mr. Glass.

Discussing the more cheerful subject of beautifying London, he suggested either a belt line of street cars running to Springbank, including a new line for the north bank, so that visitors could go one way and return the other, or else an improved automobile road on else an improved automobile road on the north bank of the river. Montreal, Sept. 4.—Theory of the rat and the match, as a cause of fire, has been presented to Fire Commis-sioned Latulippe in a communication no less staid and conservative a source than a member of the Meighen Government, S. Frank Glass.

ASKS SECRETARY FOR IMPORTANT LETTER

G. H. Annett, J. P. of Cairo, Sends Open Letter to the Deputy Attorney-General.

You refer to an item in a Toronto Ontario Government commission, pointed to investigate the administration of justice, etc.," that one crow attorney fixed a government investigation beforehand, how papers were suppressed until after the grand jury found a true bill, and how four of the crown attorney's political friends had oxford and Eigin counties might advantageously co-operate in working out the idea.

Undeniably the old jail is an eyesore to the west end of Dundas street; it is anything but modern, and it is very difficult to keep it in a sanitary condition. It is no place to keep prisoners cooped up in the sultry summer days just because their neighbor gives them a drink in his woodshed instead of his front parlor, or they contract cramps from drinking vanilla extract and some thoughtless individual calls the police surgeon to attend them.

Looking into Future.

If any real bad men come to town, there ought to be the proper kind of hotel accommodation to offer them, but some day the city will build a new police station, and the county could rent two or three cells for transients for far less expense than it takes to heat the 1849 model heating plant at Castle Carter.

"Down with the bastile" was the rallying cry that made France a republic, and "Down with Castle Carter" may be the slogan that will boost the property assessment around the west end of Dundas street. Governor James Carter isn't worrying any. He has extend his best efforts every summer trying to make a jail farm pay in the cramped agricultural area available in the back courtyard, and believes that out on a real farm he could graduate on a real farm he could graduate on the policy of this letter for some time back. Yours truly, G. A. ANNETT, J.P.
