Taft at Buffalo Says Government is Hot After Standard Oil.

BUFFALO, Oct. 30.—Sledgehammer blows at the Gompers-Bryan labor legislation program were delivered here to-night by William H. Taft, before two immense audiences. Mr. Taft gave the names of many labor leaders high in the counsel of the American Federation of Labor, who he said were leaving Mr. Gompers.

"Mr. Bryan is greatly troubled," said Mr. Taft, "about my attitude toward the trusts and even more so by the announcement that Mr. Rockefeller is for me. If the Standard Oil Co. were anxious to bring about my election I should take it that the last thing that would be done would be to advertise its support of it. Therefore, this pub-lication which Mr. Bryan is now making so much of, it seems to me, has but little significance in attempting to show that the Standard Oil or any other trust, because it hopes for immunity from me, is supporting me. That is not the way things are done. "I am in a position to state with great emphasis that neither the Standard Oil nor any one connected with its management has contributed a single cent to the Republican campaign

In comparing the remedies for the evils in trusts proposed by the Democratic party with Republican policies, Judge Taft said:

"The administration is prosecuting he Standard Oil Co. and it intends to continue that prosecution until that part which may be evil is stamped

spread discontent in the county, murmurings against the government, serious riots, propagation of seditious writings and a general state of unrest. The discovery of a bomb factory in Calcutta led to confessions which revealed a deep laid plot to create an uprising against the British Government, but, owing to firm action and restraining influences, a better state of things already existed. As to the causes of the unrest they were attributed to an industrial revolution now in progress in the country. New industrial conditions had pushed many castes to the wall and reduced many to a state of poverty. It was stated that missionary effort was dissolving the caste system.
