Exciting Runaway on Main-street on Monday.

LEADER OF THE U.M.W. SAYS SITUATION PLEASES

Union Has Added Thousand Members—Justice Dept. Has Representative at Glace Bay.

GLACE BAY, N.S., July 19.—(Special.)—Peter Patterson, one of the International Board Members of the U.M.W. of America, and a native of Pictou County, N.S., asked to-night by your correspondent for a statement said:

"Our organization is in a much stronger position than when the strike was called two weeks ago. We have at least one thousand more men than we had then, and I can tell you that only eighteen of our members have gone back to work. Of this number the majority were boys.

"The Dominion Coal Company brought 95 men Sunday from Montreal and before noon to-day eighteen were initiated into the U.M.W., and many more have come this afternoon asking for initiation. A large number of these men have already been sent away by us to work on the National Transcontinental.

"I have never been better pleased with the situation since the strike was called, than I am to-night; and further, of all the strikes I have been in, the prospects for victory were never better The men who are being brought in by the company are doings us no more harm than keeping up the hopes of the company that we will break down. They are not practical miners, and if the company employs such men, there is not only danger of injury to the miners, but great loss of property and a sacrifice of human lives.

"The company has no right to dictate what organization the employes should belong to, for if they can, they can also dictate what church they should belong to. No doubt this will be tehir next move. The company's action in refusing to give out the output from the different mines to the press to-night is i consider a sign of weakness."

Justice Dept. Taking Notes.

W. E. Roscoe, K.C., of Kentville, N. S., a friend of Sir Frederick Borden, is in town, and his visit has excited some comment on the part of the strike leaders. Rumors were current to-day that he was making an investigation on behalf of the militia department In an interview, however, he stated that he was making observations for the department of justice.

A fight between U.M.W and P.W.A. miners took place at Reserve mines this morning. The attack was made by the U.M.W. upon the men who had been canvassing strikers to induce them to return to work. The U.M.W. were sufficiently disguised to make it impossible to identify the leaders. One of the P.W.A. men is now under the doctor's care. Information has been sworn out against a number of U.M.W. men.

The Other Side.

Grand Master McNeil of the P.W.A. said to-night that since Saturday 100 men had been initiated into the ranks of the P. W. A.

Said a company official: If the strikers continue demanding recognition, they can wait until the cows come hime, for we abso.utely refuse to recognize the U. M. W. We were forced into the fight and in it we itnend to remain. If American coal operators secure our trade, then we will fight until we get it back. It would mean the ruination of Cape Breton to allow the U. M. W. to control the whole situation.

"We don't propose to play into the hands of the U. M. W. in the future by giving the daily output at the various collieries. We are willing to give the total from the mines and the banks, but that is all."

Mackenzie King Not Going.

OTTAWA, July 19.—Hon W. L. Mackenzie King, minister of labor, is out of town, and the officials of the department were unable to say this morning whether he would go to the scene of the Nova Scotia miners' strike or not. The whole matter, it is stated, is now beyond the power of intervention by the labor department and a visit by the minister could only be brought about by special request by one or both of the parties.

After the Bank Robbers.

KENORA, July 19.—(Special.)—Last night some lumbermen at Bishop's Bay, 30 miles south of here, noticed three men answering the description of the Rainy River bank robbers. They brought word to town this morning that they appeared to be heading this way, and Constable Hanson ad a posse of men left to intercept them if possible. They went well armed.

Alarm Dentistry.

"Just wanted to wake him up," was the reason given by William Taylor, 110 West Richmond-street for kicking three of Robert Murphy's teeth down his throat as he slept in a lane off Front-street yesterday afternoon. Taylor was arrested, charged with aggravated assault by Policeman McKee (231).

thruout the corn belt and the tremendous acreage planted in corn this year, it is believed, insures a bumper crop, and not a few traders are anticipating reduced values. On this theory, however, some very large speculative interests have taken the bear side of the market, and it is believed that a very large speculative short interest has been created, which makes a rather firm technical position.

Another Slump in Wheat Prices on Chicago Board.

CHICAGO, July 19.—Liberal arrivals of grain caused a further slump in wheat prices on the board of trade to-day. Final prices showed losses of 1-2 to 1 1-2 cents. Corn closed steady and provisions strong.

The movement of new wheat on a large scale was the chief factor, but clear weather generally thruout the entire wheat belt helped to depress prices. Total arrivals of wheat to-day at Kansas City and St. Louis were 491,300 bushels, against 62,887 bushels the corresponding day a week ago, while it was estimated that from 150 to 200 carloads of new wheat were received here during the day. Cash houses also claimed that country shippers were offering wheat much more freely. The market closed weak at almost the lowest point of the day.

The corn market displayed considerable strength at various times during the day, despite an excellent shipping demand, liberal receipts and favorable crop reports. The market closed steady.

BRITISH BLUE JACKETS READY

Will Take a Hand to Protect Life in Persia.

LONDON, July 20.—A despatch from Terehan to The Times says that the little shah will hold a durbar in the city Tuesday to make the acquaintances of his faithful subjects. He is pathetically unhappy and would willingly exchange his honors for his mother's lap.

So far, no serious difficulties have arisen, altho some of the shah's troops are holding out against disarmament.

From Shiraz, capital of the Province of Fars, comes the news that the town is in a state of anarchy. The notorious Syed Abdul Hussein is marching on the town to punish the Kawam family who recently defeated him.

The British legation has warned the provincial government that unless this advance is stopped, steps must be taken to protect the lives of foreigners and that a force of bluejackets is in readiness to march from Bushire, a port on the Persian Gulf not far from Shiraz. In the meantime the government is seeking to check the advance.

THE NEW PRETENDER.

MADRID, July 19.—Don Jaime, son of Don Carlos, of Bourbon, the pretender to the Spanish throne, who died yesterday, will be proclaimed pretender nine days after the funeral of his father, which all the prominent Carlists in Navarre will attend.

is illustrated by an extract from a letter received from a Canadian missionary in Japan:—

"You are to be congratulated on producing an article that will stand this climate. Our piano has now passed through all the changes of climate in Japan, and it is in fine order. Some other pianos that have been brought here from America are terribly damaged and cracked by the climate."

Desperado at the Beach.

Most people at Scarboro Beach, and there were a good many of them last night, refused to believe that Frenzleo Desperado, the principal performer in the park's new thriller, would really make the leap as advertised. The apparatus seemed a strange combination for a thriller. At the top of a pole, between 60 feet and 70 feet high, a circular platform was affixed; some distance away and between 40 feet and 50 feet lower, was the upper end of an incline, which projected from the ground in the shape of the section of a gigantic wheel rim. In the course of the evening Desperado climbed the pole and stood on his waying perch for some time surveying the crowd below, then he dived and came thru the air like a flag to the incline upon which he alighted head first, his arms breaking the force of the impact. The incline shot him still downwards with marvelous rapidity. Desperado was scratched, but landed safely. Rose Wentworth again proved her popularity in the hippodrome show and led a splendid bill, which included an excellent lady gymnast and Peirot, a troupe of acrobats and a trained animal performance. The beach looked its best and a merrier crowd never assembled in the spacious amusement park. Desperado will no doubt prove a potent attraction thruout the week.

Sympathize With Strikers.

The amalgamated carpenters and joiners, at their meeting last night at the Labor Temple, passed a resolution heartily approving of the action of the miners in the Glace Bay strike, and strongly condemning the ogvernment's action in sending troops, which might tend to create a riot rather than keep them in check.
