PETERSON LAKE V. NOVA SCOTIA WALDMAN COMPANY MEETS Differences Can Easily Be Settled by Permanent Officers and Directors of

MONTREAL, Sept. 15.—(Special.)—
Regarding the recent charges made by a few of the directors of the Peterson Lake Silver Cobalt Mining. Co. against the Nova Scotia Silver Cobalt Mining Co., of encroachment on Peterson Lake ground and not accounting for shipments of ore, Mr. J. A. Jacobs, secretary-treasurer of the Nova Scotia, in an interview stated that they were absolutely untrue and showed your reporter a copy of a survey made within the last ten days by Cody & Cody, Ontario land surveyors, which proved that the Neva-Scotia was not engraching on Peterson Lake ground; quite the contrary.

As far as the Nova Scotia people are

to supply their mill for at least two

TREKKING INTO QUEBEC

Prospectors Are Gradually Enlarging
Their Field of Operations.

HAILEYBURY, Sept. 14.—The prospectors are trekking freely into Quebec. Every day gangs are going in from different points, but mostly from near Dane and Larder City. Some excellent indications of silver have bee found around Larder City and north

ward to the Abitibl Lake.

Two or three mining companies are carrying on operations at a point on Lake Timiskaming called "Fob," which Lake Timiskaming called "Fob," which is directly across from Silver Centre, the landing place of South Lorrain. One of the mines at this place is being worked by Mr. Stewart of the Nova Scotia and has turned up recently cobalt and galera in good veins. These mines at the present time are working under the mining rights granted by the Oueless Government, but after the first Quebec Government, but after the firs of the year it is just possible they wil

In the same time Cobalt had nothing better than the Silver Tunnel, which

GOOD INDICATIONS ON PAN SILVER CLAIMS On Cobalt Mining Market

Undertone Apparently Weak, While Trading is Purely Professional Development Work is Now Being Pushed at the 200 Foot Level-

World Office,

Wednesday Evening, Sept. 15.
Public dealing in the majority of the Cobalt mining securities at the present time has evidently dwindled down almost to nothing, as an inspection of the outside transactions on to-day's market will show. A few of the every day specialties were traded in to a moderate extent, but with the exception of these the list was practically neglected.

A continuation of the easy undertone which has been in evidence of late was plainly apparent in to-day's trading, the flisted issues in the main responding which declines, tho some firming tool place toward the close.

Little Nipissing continued on the down grade, losing a point during the session, but closing higher at 2 1-2. There is evidently a concerted attempt.

PRICE OF SILVER.

Public dealing in the majority of the closure, results are section of the mining camp which might be designated as that part lyning south of Cross and east of Giroux Lakes, and embracing the Kerr Lake, Hargrave, Badger, Timiskaming, Bear of the cobalt Nugget, "was that-values ver and other properties, is the some of much activity at the present lime, but nowhere in this particular locality is development worker of in the particular locality is development worker of in the part section of the claim, cross of much activity at the present lime, but novince in the banded slate it was concluded by the at the Pan Silver claims adjoin the Timiskaming, Rochester and Cobalt. Central properties and seem to be almost the property, and which may been uncovered. This discovery shows cobalt and calcite, with excellent silver values and embracing the Kerr Lake, Hargrave, Badger, Timiskaming, Bear of much activity at the present lime, but nowhere in this particular locality is development work going on more rapidly than at the Pan Silver claims adjoin the Timiskaming, Rochester and Cobalt. Central properties and seem to be almost a the surface. At the presen A continuation of the easy undertone which has been in evidence of late was plainly apparent in to-day's trading, the listed issues in the main responding with declines, tho some firming took place toward the close.

Little Nipissing continued on the down grade, losing a point during the session, but closing higher at 2 1-2. There is evidently a concerted attempt on the part of some insiders to hammer this stock, with the apparent purpose to the camp, the recent strikes on Nancy Helen veins also giving promise to the city."

Do you know of any mining enter-

now down two hundred feet and from Action Taken to Recover Valuable scotla and Poster were on the easy side, but the declines were not of sufficient size to warrant special comment. In the higher priced stocks Kerr Lake was stronger than for some time past, selling up to \$8.50. La Rose was also higher at \$7.93, closing at \$7.86. This stock sold up to \$8 at Montreal.

The market was somewhat more satisfactory than for the past few days, for tho small declines were generally in evidence, a steadler tone was more so.

The Silver Tunnel Mine is not a prospect. It has shipping ore. An issue of 100,000 shares of treasury stock at 25 cents is being made to extend plant and operations.

ing on Peterson Lake ground; quite the contrary.

As far as the Nova Scotia people are concerned, they are willing, if there should exist any difference, to have the matter adjusted by competent engineers and surveyors, who could easily decide the matter in a few days.

"I am certain that the Nova Scotia directors will meet any action on the part of Peterson Lake, should same be forthcoming, as they are satisfied that their position is absolutely safe," said Mr. Jacobs.

The Nova Scotia mine are anxious to have the matter settled once for all, but some of the directors of Peterson Lake seem to prefer litigation.

The Nova Scotia have a ten-year lease from Peterson Lake and have gone to a great deal of expense to develop same, so much so that they have blocked out a sufficient amount of ore to supply their mill for at least two warms.

Mining Company have declared another dividend of \$3.00 a share or 300 peterson Lake and have blocked out a sufficient amount of ore to supply their mill for at least two warms.

CONCLUSIONS NOT WARRANTED at 15%, 500 at 15

In addition to these extensive workings, surface trenching is going on m several sections of the property, and while no other showings have been made up to this date, those in charge of operations are hopeful of rich values being found at any moment. The latest development of interest on the Pan Silver was the uncovering of a vein while stripping next to the Timiskaming line. This find averaged eight inches in width and was composed of cobalt. It is the intention of those in charge of development operations to pursue the work on this vein, which gives every indication of running into good silver values at depth and further development work in this direction will be closely watched by all interested in the camp at large.

The main shaft on the property is now down two hundred feet and from:

TECHNICAL POINT

Walter's Falls

Does Man Who Telephones Bet Re sort to Gaming House?

resort to the place where such bet is made? That is the question which the magistrate is trying to decide. A number of the handbook cases came day and the point was discussed. William Clarke, used as a crown wit-

ness, was discharged. William Lackle was remanded until called on for sentence. John Honan was remanded to let the police find out if it is not his brother

Tresular inonthy inecting Triesday night, there being present some 80 odd members. It was decided by the members to have a dinner on Monday, October 4th. The metal applied for will most likely be granted.

DOMINION ORES, LIMITED

Capitalization, \$250,000. Shares, 25 Cents

After three weeks' work stripping veins on the property the company's engineer reports that four veins can be worked by tunnels, commencing at the base of the ridge, about 150 feet below the outcropping. This would insure 100 feet of stoping for 1600 feet.

100 FEET OF STOPING FOR 1600 FEET IN LENGTH, WITH NO COST OF SHAFTING OR HOISTING. The cheapest possible method of mining.

Map of District and Literature sent on application. We own and offer 100,000 shades at 25c per share.

REACTIONS ARE LIMITED

We are now reaching the limit to the down grade in Cobalt se-The market had a much improved appearance to us yesterday, The market had a much improved appearance to us yesterday, and it is getting more difficult to buy stocks at the low prices.

We recommend the purchase of Silver Bar, Hargrave, Chambers-Ferland, Beaver, Otisse, Timiskaming and other good low-priced stocks at present quotations. Prices will assuredly be higher in a short time.

You have undoubtedly examined the mineral exhibit from the Kootenay district at the Toronto Exhibition, and noticed the splendid specimens and gold brick from the Sheep Creek district. Do you not think an investment in one of the most promising properties of that camp would be lucrative? Our offer in respect to the Summit Group is still open, and we will be pleased to place our proposition before you upon request.
