RADIAL ESTIMATES VERY CONSERVATIVE; COSTS TAKING DROP

Everything Downward Now,
Witness Informs Radial
Commission.

EVIDENCE OF ENGINEER

Hydro Radial freight estimates have
been very conservative and, if any-
thing, underestimated. This was
brought out by W. S. Hewson, expert
railway engineer, before the Hydro
radial commission at Osageo Hall
yesterday. He explained that the
freight estimates were in many cases
one per capita tonnage basis of population.

In showing the law estimate given
for proposed Hydro radials he point-
ed out that the Toronto and York
Radial average classification was
fourth class on a 2 1/2 tons per capita
basis, while the average classification
of the proposed radials was only
given as eighth class on a 1 1/2
per capita basis.

As an example of the conservatism
of these estimates he gave it as his
opinion that the in and out freight
business of Thorold, Ont., would be
over 100 tons per capita.

In questioning reliability of figures,
General Mitchell asked the witness if
the estimates were based on the 1925
population as some of that population
were not born yet. He was assured
that freight figures were based on the
present situation.

NO PAY FOR MAYOR AS COMMISSIONER

Vote of Council Is Not Sufficient
Authority, City
Auditor Declares.

Altho it was admittedly the intent
of the resolution passed by council
on Monday to authorize the return to
Mayor Church of the salary of \$1,500
bonus voted to him last year, but
also the \$1,750 held back, represent-
ing salary as a police commissioner,
if he declines to pay the \$1,750 to
the mayor, claiming that even the
vote of council is not sufficient
authority. The act contains no provision
for the payment of salary to the
mayor as a member of the police
board, and it is said a vote of council
cannot override the statutes. The
only way in which the difficulty
could be overcome is for council to
vote another bonus to the mayor in
lieu of the police commissioner salary.

MAKE NICKEL COMPANY DISGORGE BACK TAXES, DEWART ASKS HOUSE

Liberal Leader Wants Legislature to Take Proceedings to
Recover From Big Trust Thousands of Dollars Province—
Private Members Demand Much Information.

The Liberal leader, H. Hartley Dewart, has given notice in the legislature of a motion calling for the initiation of proceedings against the International Nickel Company for the recovery of thousands of dollars of back taxes, claimed to be properly due the province. The motion reads: "That in view of the fact that the Mining Tax Act, 1917, does not provide for the recovery by the province of Ontario of the arrears of taxes for the years prior to 1918, properly payable to the province by the Canadian Copper Company (or the International Nickel Company), the arrears of taxes properly payable by it, and that the necessary ancillary legislation be passed conformable to the mining tax act of 1917, to include the years in question from the 21st day of December, 1915, back to the commencement of the period covered by the said illegal agreement, and authorizing the recovery by the government of the province of the arrears of the taxes to which it is entitled and which have not been paid."

Mr. Dewart is also asking the house to record its adherence to the principles of responsible parliamentary government under which the ministry in power shall take a stand as a government upon the prominent questions of the day, and also its disapproval of the delegation of authority and the unnecessary appointment of committees of German members introduced last session was with-

Labor Administration Is

PROGRAM IS OUTLINED

Simplicity and dignity marked the opening of the second session of the fifteenth parliament of the province of Ontario yesterday afternoon. That popular interest was taken in the occasion was shown by the groups who lined up about the entrance to the big stone building in Queen's Park long before the hour scheduled. Even the weather, which, tho bright, was piercing, was no deterrent to public concern in the event. In the wearing the regulation afternoon dress, and preceded by two aides-de-camp in uniform and followed by a bodyguard of uniformed officers, everyone of the waiting decorations, the ribbons and medals making the most striking note of color in connection with the ceremonies.

CORONER'S JURY FINDS FAED APPLIED FOR PROPER DRUG BUT WAS NEGLIGENT LATER

THE VERDICT

"We find that Monica Kenney came to her death in Toronto on January 8, 1921, thru receiving a treatment improperly prepared by Dr. Faed and administered by Dr. McConnell. The jury further find Dr. Faed guilty of gross carelessness in the matter and find that Dr. Faed believed he had received neodiarsenol from Dr. Brodey and that Dr. Brodey gave him diarsenol instead of what he asked for.

"They further find that Dr. McConnell is completely exonerated in the case and find that in the sale of neodiarsenol and diarsenol the packages that contain these drugs should be so different as to prevent further mistakes."

Should a Curative Drug Be A Patentable Article and Restricted in Accessibility?

What is the difference between a curative drug and a penknife? It is upon the proposition that the penknife and the healing remedy stand upon the same basis that E. H. Greer, counsel at, Coroner Graham's inquest for the Synthetic Drug Company, sought to justify the exclusion of other preparations for the treatment of blood diseases by the patent rights of that company in the manufacture and sale, in Canada, of "diarsenol" and "neodiarsenol."

Mr. Greer put the proposition thus: "It is the same thing," said he, "as if you were to take out a patent upon a penknife. You would be protected and others restricted in the manufacture and sale of such knives. The legal position is the same."

"The legal position may be the same," was the reply to his argument, but surely the ethics are entirely different.

"That may be so," was his reply, which closed the conversation.

FILIBUSTER STARTS ON U. S. TARIFF BILL

Democratic Senator Charges That It Will Inevitably In-
crease the Cost of Living.

Washington, Jan. 25.—The Fordney
emergency tariff bill was brought into
the senate for consideration today, but
immediately ran into a snarl by ef-
fective, filibuster. Merits of the bill
and reasons for its early enactment
by the senate had scarcely been out-
lined by Senator McCumber, Republi-
can from North Dakota, before Sen-
ator Harrison, Democrat, Missis-
sippi, launched an attack which con-
tinued until adjournment.

PEOPLE!

"You know how as well
as I do. It is to make farming worth-
while. It is the glow of the dough
that is attractive, and that's why this
measure should be passed quickly."

Such a tariff as was asked on
wheat, he said, could do nothing but
increase the price of bread. The Mis-
sissippi senator inquired whether, in
the recent political campaign, it had
not been one of the chief arguments of
the Republican party that the cost of
living should be lowered, and referred
again to what he said the tariff would
mean in living costs. The bill, he said,
was being used to "hoodwink" the
farmers, and he asked the Republican
side, where then only two senators
were seated, if it were not wrong "to
fool your constituents so soon after
election."

Senator McCumber then asked that
adjournment be taken, and Senator
Harrison walked out of the chamber
with a broad grin.
