tourist traffic generally is reported above the average.

GOOD NEWS INDEED

"I would scarcely believe it possible," said a well known man who lives on the City Road, and who for three years habeen laid low with rheumatism, that half a gallon of your sulphur water would have done me so much good."

Isn't this good news for you if you suffer from rheumatism, indigestion, dyspeptia or kindred complaints? Of course its, so don't let another day pass without ealling or writing to the Penobsquis Natural Sulphur Spring Co. 24 Waterloo St. for particulars of their famous sulphur water.

W. F. Best, government analyst, in his

and a large gold tooth found in the jaw bone corresponded exactly with the one Mr. Colweil had.

No clothing was to be founr, and the only positive means of identification was the gold tooth.

Mr. Colwell's father received word of the discovery of the remains, and sent on for them. An investigation was held and the bones were proved to be those of the ill-fated St. John man.

N. B. Colwell will be remembered here, by many, as an unright and cheerful the many, as an unright and cheerful the many. The court then adjourned until half-past ten Friday morning.

Work on the Shore Line Railway, which was commenced this month, is progressing found necessary to consult Hon. Wendall poper country via Prince street. One of his antlers is reported to be broken, but other the case of Bustin vs. Byrne will be taken up. The court then adjourned until half-past ten Friday morning.

on for them. An investigation was held and the bones were proved to be those of the ill-fated St. John man.

N. B. Colwell will be remembered here, by many, as an upright and cheerful young man. He was esteemed by all, and many were the hearty farewells tendered him when he left for South Africa.

The funeral will be held on Wednesday, from his father's residence, at two o'clock. Rev. P. J. Stackhouse will conduct a private service at the home, and interment will be in Fernhill cemetery.

A PROGRESSIVE MERCHANT

A PROGRESSIVE MERCHANT

WORK ON THE SHORE LINE

Work on the Shore Line Railway, which was commenced this month, is progressing favorably. A crew of over 100 men are at work on the erection of bridges, the Inglewood Company have contracted for 150,000 sleepers, which are being rapidly the engine before it could be stopped. This delivered, stone abutments are being painted and before the winter sets in the company expect to have the line in good shape.

Bridges are being placed at Lepreaux, New River, Meadow Brook, and Laihy Brook. The new structures are to be three feet higher than the old ones. Two will measure one hundred feet, and two about sixty.

Some little time, but finally re-entered the woods and was lost to view.

All of which goes to prove the greatness of this young country.

The engineer on the Fredericton train pesterday saw six moose on the track near woosis, and one of them was killed by the engine before it could be stopped. This epaks pretty well for New Brunswick as a game country.

THE ST. MARTINS RAILWAY

The Hampton and St. Martins Railway
Co. have purchased a new passenger car
from the Boston & Abany railway. It arrived a few days ago and has been placed on the road. The car is nicely fitted up having been refurnished and painted and will be a valuable acquisition to the company's rolling stock. It is expected in a few days that the new car will be put on alternate trips with the present car that is now used only on Saturdays, leaving St. John attached to the 1.15 train and going direct to St. Martins. It is considered that in view of the increased ed traffic to the "village by the sea" this season; that a daily direct car should be provided.

The Saturday excursions to St. Martins have proved yery popular this year, and solves the picnic at Watter's Landang. The steamer Pokanoket was charter's Landang. The place of the pla
