FIGHT ALL RIGHT SAYS GOVERNOR

Dickerson Not a Bit Ashamed of His Part

BARRING THE PICTURES

World Wide Campaign By Christian Endeavorers to Prevent Reproduction of Reno Battle in Theatres—Little Africa Prepares to Welcome Johnson

Reno, July 6—Governor Dickerson has given out the following statement respecting the Jeffries-Johnson fight, at which he was a spectator: "I do not at all regret that the fight was pulled off in Nevada. It was a clean fight and Tex Rickard's assurance to me personally were made perfectly good."

"I am in favor always of manly sport, just as long as the game is played clean and square as this was. There is absolutely no warrant in my judgment for the protest that has been made against it. The fight demonstrated fully that there was nothing about it but what was proper for any state to permit."

"The spirit of fair play had a strong hold on the thousands of people who witnessed it, of whom I was one, and that fact was made evident as the crowd was overwhelmingly in favor of the black man, who demonstrated his complete superiority in every way and won the battle of thinking, seeing and acting simultaneously, as the result of greater mentality, speed and vitality, no demonstration of reproach or insult was offered in any manner."

"The crowd of the men composing it was not made up of the rough and rowdy of that element, as many would lead one to believe is always the case at such events, but of business prominent men. Of my own personal knowledge, the holding of this event in Nevada was beneficial to the people of Reno and I have heard only expressions of goodwill for the city on all sides."

"I can further state that as long as the law licenses glove contests I will not attempt to interfere with such events in any manner in the future."

"As for the contestants in this fight, I can only say that the defeat of Jeffries demonstrated the experience of all students of athletics that after a man has for some time been out of condition he can regain his former vitality and condition of physical perfection for nature will invariably assert itself. He was never so good as the Jeffries of former days."

**In Chicago's Little Africa**  
Chicago, July 6—"Little Africa," which was so boisterous Monday night, settled down today and attention was given to plans to properly receive the black champion when he arrives here tomorrow. Thousands of negroes are expected to join in the reception party. The Eighth Infantry band and a squad of the negro national guard and the negro Elks band will give an official time to the reception. A special touring car will be on hand for Johnson and his party and twenty-six automobiles will carry persons friends in a parade from the station to Johnson's home, where his mother will have ready a chicken feast.

"Mother," Tiny Johnson declared all the riots that have resulted from her son's victory, but said it was due to an unwillingness on the part of many white persons to let a negro express himself. "The white don't like for a black man to be on top," she said, "but Jack's there and his victory will help the entire negro race."

**Barring out the Pictures**  
Boston, July 6—The officials of the Christian Endeavor Society were much pleased today over the result of their movement started here yesterday against the exhibition of the pictures of the Jeffries-Johnson fight. Urgent telegrams have been sent to all branch societies throughout the world to continue the agitation against the pictures.

**Mayor Fitzgerald of this city, who has the granting of all licenses for exhibitions of this nature, said today that Boston ought to take the lead in banishing the pictures of the fight.**

**Harrisburg, Pa., July 6—Mayor E. S. Meade today issued an order prohibiting the showing of the Reno prize pictures in this city.**

**Los Angeles, Calif., July 6—There is an ordinance in Los Angeles prohibiting the exhibition of moving pictures which in the opinion of the authorities tend to lower morals or are harmful to the young. City prosecutor Eddy said he would invoke the law if necessary to prevent the reproduction of the Reno battle on the screens of this city.**

**THE WEATHER**  
Light to moderate variable winds, fine and warm; Thursday, southerly, a steady westerly wind, fair and warm.

**Baltimore Play Spot Afire**  
Baltimore, Md., July 6—Fire early this morning caused \$30,000 damage to frame buildings in Luna Park, an amusement resort in the western suburban section of this city.

EARL GREY GIVES STRIKING EVIDENCE OF REGARD FOR US

Building Greatest Nation Within Greatest Empire Ever Known

Canada's Forward March Most Wonderful Progress in This Wonderful Age—New Cable From Waterville to England—Naval Advisor at Ottawa is Made an Engineer Commander

London, July 6—Earl Grey, in this week's Standard of Empire, gives a statement of his hopes and convictions regarding Canada. He says Canadians are a sane, sober, strenuous, earnest people; a patriotic, invincibly industrious people, worshipping no false gods, following no will-o'-the-wisp but steadily and surely, with their eyes wide open alike to opportunity and danger, building up between the Atlantic and Pacific the greatest nation that has ever been within the greatest empire that has ever been.

Canada, he says, is a wonderful inspiration to any right-thinking men and no better fate could befall any British boy or girl than to grow up to become a good Canadian and play his part in the dominion's great forward march, the most wonderful progress in this wonderful age.

Earl Grey strongly favors emigration of young children to Canada. The Commercial Cable Company has laid new cable from Waterville to England, and replaced a long section from Waterville westward with a heavier type of cable. At the closing of the anti-tuberculosis conference in Edinburgh, Dr. Oaker, referring to the proposal for a national system of insurance against the disease, stated that the state has secured in the matter of non-contributory old age pensions, Newfoundland 3 1/2 per cent at 71 1/2 is proceeding.

At the horticultural section of the Women's Congress, Miss J. S. Turner said there was an opening for women market gardeners in Canada. The report of the International Mercantile Marine Company states that the steamships Laurentic and Megantic secured a good reputation but the financial results disappointed the directors. They were, however, hopeful that the present season will justify the placing of such vessels in the Canadian trade.

**Time's Special Cable.**  
P. C. W. Howe, appointed naval advisor at Ottawa, has been promoted to the rank of engineer commander.

The imperial copyright conference has concluded in Brussels. Hutchinson Coffe, on behalf of the government, gave a brilliant fete in the Canadian section of the exhibition. There were 80 guests. Mr. Charles B. Waring, submitted his argument. The Belgian minister of labor, Mr. Hubert, praised Canada as an immense and beautiful land of promise.

At the Hague today Sir J. Winter applied himself to showing that during the negotiations concerning the treaty of 1813, the Americans desisted only to have access to the bays and harbors of the southern portion of Newfoundland for salting and drying their cod, but not in order to fish there. Moreover, cod fishing was not carried on in the bays of Newfoundland because that fish was found only on the bank in deep water and on the coast.

Concerning Labrador, a discussion ensued between the speaker and arbitrators as to the interpretation of the word "coast," which appears in the treaty sometimes singular and sometimes plural. Sir J. Winter then endeavored to show that until some years ago the Americans had never fished Newfoundland waters, and that the present dispute was merely a strongly expressed opinion of the arbitrators that the treaty provided only for cod-fishing.

THE STORIES DO NOT ALL AGREE

A DARING NEW YORK SOCIETY YACHTS-WOMAN Investigating the Death of Arthur Leary

THERE WAS DRINKING

Talk of Being Passed—Men Who Were at Park Speak of the Incidents—Jury Assembled—A Post Mortem Made Today

Contradictory stories are told in connection with the death of Arthur Leary, a Carleton man, whose lifeless body was found in Seaside Park yesterday. Evidence will be heard at the inquest tomorrow night.

Members of a party of Carleton young men who last saw Leary alive when he went to them and asked for a cigarette and match, agree that he appeared under the influence of liquor, but as to exactly what happened immediately after his arrival on the scene there seems a difference of opinion. Some say that Leary was unknown to them and that, other than his request for a cigarette and their departure from the park almost immediately after his appearance, there was nothing to tell. This story is that when they left Leary he was sitting on the ground with his head forward.

Others say that one of the crowd, Roy Belyea, struck Leary, knocking him down, and also that a bottle of liquor was passed around, and that some members of the party were under the influence.

The man was found by Miss Taffa, a trained nurse, who notified the park police, who in turn sent word to Coronor Kenney, and the body was taken to the rooms of I. O. Beattie, undertaker, of Carleton.

A jury was empaneled this morning by Coronor Kenney. They viewed the body and the boarder's car for Seaside Park, where they looked over the spot where Leary's body was found. Adjournment was then made till tomorrow evening at 7 o'clock in the City Hall, West End.

The following are the jurors—William D. Mackay, foreman; Samuel K. Wilson, Harry G. Smith, Isaac Duffy, Edward Dippetta, A. E. McKinley and Robert Stanhouse. They found that the place where the body was found was a gully in which there are a number of large rocks, as the body lay, the head was on one of these, and the feet on or near another.

**Belyea Says He Did Not Strike**  
Roy Belyea, who is said to have struck or pushed Leary over, and Samuel Journeay, a former policeman, who was a member of the crowd at the park yesterday afternoon assert that they were not acquainted with Leary. They were not present previous to yesterday. Journey says that "the crowd" were sitting talking when Leary came along. He had the appearance of being either sick or under the influence of liquor. He asked for a cigarette and when this was given to him, asked for a match. He then sat on the ground murmuring that he wished he had the fellow who gave him "that stuff." They did not know to what he referred except that it was the liquor.

When they left he was still in the sitting posture, with his head hung forward and his hat over his eyes. They knew nothing further about the finding of the man later.

When it was suggested to Roy Belyea that it was said that he struck Leary, he merely replied that he didn't care what they said, he did not do so.

Ernest Black and John Carr told another story. The former said that yesterday afternoon he and Carr started to leave Seaside Park about 4 o'clock. As they were on their way out they came across Roy Belyea, Samuel Journeay and Clarence Neves. Belyea was singing "rag-time." Later, they were joined by Harry Long, Addison Payne and Charlie Compton, and last of all, Jack Varrock. While they were singing and talking, Leary came up an appearance. He seemed much under the influence of liquor, though he may have been ill. He asked for a cigarette and a match, and was given both. As he stood Belyea took off his coat and commenced to spar towards Leary in what Black thought was a playful manner.

Asked if Belyea struck Leary he said that he "tapped" him on the shoulder, and Leary went to his knees, and arose again only to sink to the ground his head resting against a rock. Belyea, he said, then put on his coat and walked away, but he (Black) went to where the dead man was lying and, believing it drunk or ill, placed his hand on Leary's head, but he (Black) felt that he had fallen off, over his face. He thought a sleep would do him good.

Black said it was time a bottle of whiskey was passed around, but so far as he was concerned he took nothing. He judged Belyea to be under the influence and Journeay also had that appearance.

Dr. Ellis and Warwick made a post mortem this morning, but the result is not told.

**Brazil Orders Big Warship**  
London, July 6—Brazil has definitely ordered from the Armstrong Company a super Dreadnaught of 32,000 tons. The armament will consist of twelve 14-inch guns and twenty-eight 6 and 4 inch guns.

**Aviator Breaks World's Record**  
Betheny Plain, Rheims, July 5—The speed contests today in the international aviation meet were productive of very remarkable flying by the monoplane, Leblanc, with a Hervis machine, beat the world's record for 100 kilometers (62 miles), covering the distance in one hour, sixteen minutes and eleven seconds. He also established new records at 30, 40 and 50 kilometers.

**CANADIAN NORTHERN CONTRACT FOR SHORT ROUTE TO WINNIPEG**  
Toronto, July 6—(Special)—The contract for the Canadian Northern Railway line from Virginia, Wisconsin, to Duluth, seventy-five miles, has been awarded to Foley, Welch & Stewart. The company will erect independent terminals in Duluth and the new line will be completed in a few weeks. The road will be completed in a year. The contract is about \$35,000 a mile, or two and a half millions altogether.

HEROIC ACT PREVENTS GREAT LOSS OF LIFE AND PROPERTY

Pittsburg, Pa., July 6—While firemen poured powerful streams of water on him, W. A. Weaver, superintendent of the Atlantic Refining Plant of the Standard Oil Co., dashed daringly through flames and smoke early today and saved a valve which prevented fire from spreading to a tank of oil nearby. In the vicinity of 30,000 barrels of petroleum in various stages of refinement were stored.

Two thousand people, gathered from their beds by the peril, cheered the superintendent as he came scorching from the burning still. What likely would have been a catastrophe similar to that at Sheridan several years ago when 200 people were seriously injured in a gasoline explosion was prevented and the loss confined to the benzine still.

**THERE WAS TO BE A MILLION DOLLARS IN IT FOR ESTRADA**  
San Juan, Del. Sar, July 6—Released prisoners from Bluefields, who have arrived here, give some brief details of Gen. Estrada's plans to declare the independence of the Atlantic coast. The title of the new republic was to be New Nicaragua, and it was to come under the protection of the United States. It was planned that Gen. Estrada was to be the first president and was to receive \$1,000,000. The finances of the new republic were to be controlled by the United States and justice administered by five magistrates, foreign residents being eligible to these offices.

The plans were discussed by Generals Estrada, Chamorro, and Diaz, several other prominent insurgents and a number of Americans. An agreement on these proposals, however, could not be reached and the conferees finally decided to wait.

**EDYE BEATEN IN HIS SECOND HEAT FOR DIAMOND SCULLS**  
Henley-on-Thames, July 6—In heat six for the Henley diamond sculls, Rudolph Loos, of Germany, beat Edey of London Aerial, time 9 minutes 14 seconds.

At cricket today Zingari lost to the Royal Artillery by one wicket. The Canadians in the first innings made 87, W. Marshall 25, Bennett 25. The artillery made 105, Gibson, seven wickets for 62. The Canadians in the second innings made 223; Lowmound, 99; Stoughton, 58. The Artillery made 107 for nine wickets; Bennett, three for twenty-nine runs.

**Japanese Strikers Freed**  
Honolulu, July 6—The release of K. Makino and three other leaders of the recent sugar plantation strike caused great rejoicing among the local Japanese. The sentences of the four strike leaders were commuted.

**HUGHES MAY BE NEW CHIEF JUSTICE**  
Beverly, Mass., July 6—That Governor Charles E. Frazier, already confirmed an associate justice of the supreme court in succession to the late Justice Brewer, will appoint Melville W. Fuller as chief justice of that tribunal is practically assured here tonight. President Taft has not altogether made up his mind. He declared upon his arrival here that he had had no time to think about the matter yet.

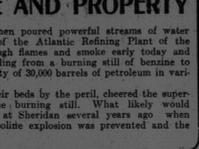

The attitude of the president toward Governor Hughes, however, is well known. His words to Hughes when he tendered the appointment as justice came back with force and significance now: "You are at the turning point of your career," said the president. "One way lies the present, the other a justicship—possibly the chief justicship of the most exalted judicial tribunal in the world."

**ACROSS LONG ISLAND SOUND BY AIR ROUTE**  
New York, July 6—Clear weather and a light breeze this morning promised excellent conditions for Clifford B. Harmon's proposed twenty-mile aeroplane flight from Garden City, L. I., across Long Island Sound to Greenwich, Conn., to land on an island in front of the country place of his father-in-law, Commodore E. G. Benedict.

Portons have been fitted on his biplane and inner tubes of automobile tires will be fitted on the tail of his aeroplane to keep him aloft in case he has to come down on the water. He expects to go to the air at Garden City and follow the shore line up to Rocky, where he will strike directly across the Sound towards his destination.

**PERCY ANDERSON DEAD**  
The death of Percy Anderson took place at an early hour this morning in the General Public Hospital from peritonitis. Mr. Anderson had been in robust health up to within two weeks ago. Besides his wife, he is survived by one son, W. J. Anderson, and one daughter, Mrs. A. B. Clifford. He also leaves four sisters, Mrs. S. A. Cunningham and Mrs. John Logan of this city and Mrs. S. H. Casady of Boston, and Mrs. Bushman of Princeton, Maine. Mr. Anderson resided in Winter street and was an employee of the Schofield Paper Company.

**FIGURES THAT TELL STORIES**  
DOMINION INCOME AND OUTGO, 1909-10  
THE picture shows where the revenue of the Dominion of Canada came from for the year ending 31st March, 1910, and where it went to. This, of course, is aside from borrowings for such permanent works as the Transcontinental Railway. Those who are interested in these matters will be glad to know that the income of the Dominion of Canada for the year amounted to over one hundred millions, or to be exact \$101,501,024.23, thus fulfilling the prediction made by the Minister of Finance more than a year ago, that the hundred million mark would be passed this time. The expenditure on revenue account

amounted to a little less than \$80,000,000. Among the "miscellaneous" expenditures pictured above is one of almost \$1,500,000 added to sinking funds, or in other words, applied to reduction of the public debt. This amount and the \$27,000,000 surplus over expenditure make the contents of the overflow tank here pictured \$23,525,000. This surplus, together with some borrowed money, was spent in such permanent works as the Transcontinental Railway. The amount thus spent on capital account amounted to over \$16,000,000, making it necessary to borrow, in addition to the \$1,500,000, about \$10,500,000.

**GOOD TIMES IN THIS COUNTRY; REVENUE FIGURES; RECORD SURPLUS**

**Spain and the Church**  
Madrid, July 6—Religious debates are raging in both houses of parliament. The Bishop of Madrid, leading the attack in the senate, claimed that the laws of the church are the laws of the country because the constitution makes Catholicism the state religion. Canalejas, in reply, declared that the invasion of state sovereignty by the church was no longer tolerable. "I know that a conspiracy exists to accomplish my downfall," he said. "Whether it succeeds or not does not matter as the time has come when Spain will place herself abreast of modern nations."

**Baltimore Play Spot Afire**  
Baltimore, Md., July 6—Fire early this morning caused \$30,000 damage to frame buildings in Luna Park, an amusement resort in the western suburban section of this city.
