Veteran M. C. Favors Equalized Rate on Grain Via Home Ports

**NOMINATION FOILS** PREMIER'S PLANS

Prime Minister Can't At Once Resume Active Political Leadership

PRINCE ALBERT, Sask., Feb. 2-Captain D. L. Burgess, M.C., Independent, and Right Hon. W. L. M. MAY BE ABANDONED pendent, and Right Hon. W. L. M. King, prime minister of Canada, were nominated here yesterday to contest the constituency made vacant by the resignation of the Liberal memberelect. Captain Burgess' nomination came at the last minute when it appeared positive the prime minister would take the seat by acclamation. In his address to the electors today, Mr. Burgess announced his stand in a political "declaration of independence." He said he is not, nor will be, if elected, nder the lash of any party whip." WANTS GENERAL ELECTION.

Mr. Burgess declared himself in favor of a general election being called at once, Senate reform, a selective immigration policy, early removal of the inarrangement of freight schedules to provide for haulage of products by Canadian transportation systems, for the equalization of grain rates to Canadian transportation systems. The Leith police dismisses thus; the sea ceaseth and it sufficeth us; truly rural; British considerable frozen milk received in the constitution and Methodist Episcopal.

Other tests are: Standing motion- tuted something of a problem but the dian winter ports, especially those on

field, Mr. King's appearance in the House will be considerably delayed, assuming he is elected. The riding of Son of Former French Premier Prince Albert is scattered; polling boxes will have to be carried to the outlying sections by dog-team and re-turned in the same manner. Returns might not be complete till a couple of weeks after polling day (which is a fortnight from today) and till they are, the writ cannot be forwarded to Ottawa and the name of the success-

MONTREAL, Feb. 2—One hundred all-steel 75-ton ore cars ordered by the Canadian Pacific Railway from the Canadian Car and Foundry Company struggles of scientists and the hard have now been completed and are conditions in which they work. ready for delivery, according to word received at headquarters here.

Each car has a capacity around 80 great total weight of 155 tons provided by a fully loaded car. The cars are self-clearing — another big saving in

time and efficiency.

They will be used very largely in the Sudbury district, and will convey ore from the nickel mines in that region to the smelter at Conistan.

Each car is 1 feet long, 10 feet wide and nine feet high from the rails over
