WOMAN STAGE MANAGER! WHY NOT?

She Shows She Can Handle Details—Yet It's Only Stepping Stone to Higher Achievement

(By Marian Hale)

New York—Just when you think there can't be any new job for women to tackle, and when you despair of locating any more women pioneers to write about, along comes the exception.

The only woman stage manager has just appeared on Broadway—Regina Mermel by name. She's young, pretty, determined and has ideas.

"It's just a means to an end with me," she explains, between jumps, for her job consists in attending to all the difficulties of 42 people besides herself.

"To succeed, I believe you have to know all the angles of the business you are in," she goes on. "A banker, or financier, does. He has held the jobs of those under him in authority and he knows how to direct his men. That's the way I'm going to do."

Then it developed that being a stage manager is not the height of Miss Mermel's ambition.

"I'm going to devote my life to the theatre, but what I want to do is to found a children's theatre, to be run on the lines of the one in Moscow where plays for children will be put on by the very finest actors obtainable," she says.

One year she was a playwright. "I learned all I could about selecting plays, about prices, royalties, copy rights and all that," she tells me. "Then last year I played in 'The Fool' and studied things from the actor's point of view. Incidentally I learned that if you are two inches too short for a part, it doesn't make any difference how well you could act—it won't get it."

"This season I decided I must learn the technique of the back of the stage. So when I heard Bennett was managing 'The Dancer,' as well as acting in it, I went to him and told him my ambition."

Bennett didn't counsel conservatism, he was open to reason. Stage managing is a detail job, and women are supposed to have a way with details. So he made her the assistant manager of his show.

"But he did think the stagehands and electricians might object to taking their orders from a woman," he says. "The men heard of this and came to me in a body. They said they were perfectly agreeable to taking directions from me, and they have co-operated with me at every step."

Some of her duties consist in getting all the actors ready on time, ringing up the curtain, being ready to prompt or jump into a part if necessary, keeping order in the wings, maintaining discipline and at the same time keeping the members of the cast happy and contented.

"But it's a good job for a woman," she insists. "Women have the necessary patience and tact. But there's no glory in it, and no chance to shine."

REGINA MERMEL

Robbsey, who is resident of Toronto this winter, was also a guest.

Congratulations are in order to Mr. and Mrs. C. G. Flewelling on the arrival of a son on Saturday night at their home, 81 Sewell street.

Count the Cost Of Home Wash

Here are the figures that speak for themselves, figures that really are too low for most cases, but safer to consider. They prove your weekly wash costs \$3 more than it should, to say the least.

Wages	\$2.00
Car fares	.15
3 Meals	.80
2 Hods Coal	.40
Soap	.17
Beach	.10
Odd Items	.10

Main Cost of Home Wash.....\$3.72

Add to that the life rubbed out of clothes—the steaming fuss of a Wash Day at home. Then compare the difference with the New System Wet Wash, where the average family bundle totals only 72c, where many cost only 60c. Laundered without rubbing, rinsed by many waters to a cleanliness approached by hand work.

Salads and Dressings

The first requisite for a successful salad is crispness and coolness of all ingredients, of course, but to my mind the condition of the lettuce tells the story.

As soon as lettuce comes from either market or garden, put it into a large pan of clear cold water and let stand at least an hour. Shake the water from the leaves and toss into a cloth big enough to hold the lettuce loosely. If needed immediately gather the corners of the cloth firmly in one hand and whirl as vigorously as possible. It need not be an hour-pin the bundle of lettuce loosely on a line stretched in a shady, breezy spot. This makes a delicious crisp lettuce that does not wilt in the dressing.

If one is fortunate enough to own one of the wire baskets now on the

market for this purpose so much the better.

If lettuce is allowed to stand on it after washing for two or three hours to chill, it is just that much better in the salad.

These dressings are particularly good over head or leaf lettuce:

French Dressing

One half teaspoon salt, 1 teaspoon powdered sugar, ¼ teaspoon pepper, ¼ teaspoon mustard, 4 tablespoons olive or a good vegetable oil, 2 tablespoons vinegar.

Mix dry ingredients and stir in vinegar. Add oil slowly, beating constantly. All ingredients and utensils used in mixing the dressing should be thoroughly chilled. Serve immediately after mixing.

Cheese Dressing

Two tablespoons, smooth cream

The nurse, the doctor, the judge—all agree

HEALTH authorities throughout Canada unanimously recommend rubbers and overshoes for fall and winter foot protection.

School nurses everywhere urge the children to wear their rubbers to and from school, and for out-door play.

In a Montreal court it was held that a person who had slipped on the ice and sued for damages, had not taken reasonable precaution because rubbers were not worn.

Active, scuffling, heedless little feet of boys and girls give rubber footwear its hardest test. All DOMINION brand rubber footwear is made with the wear quality and durability to withstand the hardest kind of wear and tear—to protect the feet and health of children and grownups.

Because of their splendid wearing quality DOMINION brand rubbers are the most economical to buy.

REFERENCES from Millions of Employers

Eversharp has gained its millions of users because Eversharp is a better pencil. And its features can't be copied.

Notice that an Eversharp lead never wobbles—the exclusive rifled tip holds it firm. Extra leads are found in the magazine under the cap. So is the eraser. When you wish to know how much lead is left in the barrel, pull out the automatic index. Carry one Eversharp with black lead and another with colored lead.

The all-metal Wahl Pen is rivaling Eversharp's success. It is the outstanding fountain pen achievement of recent years. The all-metal barrel cannot crack or split. You fill it less often because it holds more ink. And it will last a lifetime.

Eversharp and Wahl Pen are business essentials. Buy both, matched in gold or silver. Eversharp, \$1 to \$10; Wahl Pen, \$4 to \$10. Sold gold at higher prices. Look for the name on each by THE WAHL CO., LTD., Toronto

IMPORTANT: A pencil is no better than its lead. Use the best. Eversharp leads which are recognized as the best in the world. They are made to the highest standard. Get them. Eversharp leads from very soft to very hard. Ask for the new small-diameter colored leads, too! In the new box. A complete refill—eraser and 12 leads.

MADE IN CANADA

These dressings are quickly and easily made, requiring little beating. They are not rich and heavy for warm weather, but quite "lusty" and pleasant enough to whet a jaded appetite.

The "French dressing" is delicious with any vegetable salad and far more acceptable with a dinner salad than mayonnaise.

The other two can be used with a tomato salad, but are not friendly with a combination salad.
