Several traffic cases occupied the attention of the police court this morning. All were charges of driving on the wrong side of Haymarket square. Those charged were John Cook, Dr. A. E. Dr. Baxter said he had been trying to avoid striking a street car and had pulled back on to his right side again as soon as it had passed. Mrs. Murphy said the horse had had a sore shoulder in August and she had had a veterinary attend it then. She was told to bring the veterinary to court.

The wedding march was played on the piano by Miss Isabelle Keith of Moncton, a cousin of the bride; and Miss Evelyn Cowan admitted the guests. Following the ceremony a buffet luncheon was served, after which a reception was tendered Mr. and Mrs. Welling. They left this afternoon on a honeymoon trip to Prince Edward Island and on their return will reside in this city. Their popularity was attested by the large number of magnificent presents received, which included checks, cut glass, silver and household effects.

FIGHTING FORCE BACK OF FISHER FOR MAYORALTY

Strong Feeling Asserting Itself—Many Sign Nomination Papers in Interest of Power at Cost.

It is a highly significant fact that those who have been securing signatures for the Fisher nomination paper have met with a fine reception everywhere they have been. The names already signed are widely representative of the community at large, and it is noteworthy that the workers in going about to provide motor cars, and have been given words of encouragement on every hand.

The fact is that in two or three days of this work it has become very clear that the hydro cause and the power at cost principle have an army of friends and advocates, and it is a fighting army at that. The people of St. John want Musquash power at the Kribbs rates, and they want it in a hurry. That is clearly evident from the reception accorded those who have been going about St. John with the nomination papers on behalf of Mr. Fisher.

The Times learns today that the outlook is most encouraging and there is a growing feeling that, as the issue is straight and clear, the public sentiment that gave so overwhelming a verdict for power at cost in the civic elections will be very much in evidence in St. John from this time until the polls close. There is going to be a lot of ginger in this campaign, and the threats and false arguments of the mayor and the Power Company advocates are assisting Mr. Fisher's cause immensely.

It is recognized that the enemy will have a barrel of money, but the knowledge only causes thousands of people to declare with no little emphasis that this town cannot be bought for the New Brunswick Power Company, even if H. B. McLean had a million in his war chest.
