2

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, MARCH 27, 1919

GOOD THINGS COMING TO THEATRES OF ST. JOHN

MORE PARISIAN GOWNS; OPERA HOUSE TONIGHT

Last Times for Present Bill; Features of the New Programme

If you were one of those unfortunate enough to be away from the line at the Opera House last night and did not get in before all the seats were taken, remember that the excellent programme of five high grade acts is on tonight for the last time, so be there early and you will not be shut out. This evening at 7.30 and 9.

The ladies may be interested in learning that Frances Renault is going to make a change in gowns tonight and will display some creations that are "honest to goodness" real Parisian.

The regular change of bill opening tomorrow night offers as a feature, Miss Clifford, mind reader, mystic, fortune teller and queen of mystery, who will tell you all you wish to know about love, courtship and marriage, answer any question you may ask about business troubles—all you have to do is to write out the questions and bring them to the theatre—Miss Clifford does the rest.

Other good acts on the bill include the "Three Maxin Girls," English variety jugglers, Murray and Berge in a lively skit in black and tan; Henry Bushey, comedy musical offering; Dan Gracey, comedian and singer; and the second chapter of the serial, "The Terror of the Range."

"HER MAN" AGAIN TONIGHT

"Her Man," which was so well received by the large crowds at the Star Theatre last evening, will be shown for the last time tonight at seven and eight thirty. This picture is entirely different from anything you have ever seen before. "Her Man" is a special Pathéplay and is being shown at the Star for the first time in St. John. This production itself constitutes the entire hour and a half show.

BIG VARIETY SHOW AT PALACE FOR FRIDAY AND SATURDAY

The week-end bill at the Palace Theatre is a splendid offering composed of five different pictures. "The Flight For Millions," episode 14, being next to the last chapter, is brim full of action and it is worth your while to see how the heroes, Barry and Hardy, escape from the flooded cellar. Next there is a two act western "Wildfire" drama with familiar faces seen in some of Vitas's previous serials. A Mutt and Jeff comedy cartoon, a Musty Suffer comedy, and last but not least, Little Mary McAllister in a two act comedy, which is easily the best she has ever appeared in. There will be two whole shows Saturday afternoon at the matinee, so that all the children may be accommodated.

BURIED TODAY

The funeral of John Waters took place this afternoon from his residence in St. Patrick street to the Cathedral, where service was conducted by Rev. R. B. Fraser. Interment was made in the old Catholic cemetery.

SMOKE MACDONALD'S INDEX

Notice of Births, Marriages and Deaths, 50c.

BIRTHS

HOPE—On Thursday, March 18, 1919, to Mr. and Mrs. W. L. Hope, 49 Pokok Road, a son—Charles Edward.

By order of trustees,
J. J. HENNESSY,
SIMPSON, BRADLAW,
J. E. BRYANT.

TRY TWO AIR TRIPS ACROSS THE ATLANTIC

Royal Airman to Try From Newfoundland to Scotland and South Africa to Florida.

London, March 27.—(Canadian Press dispatch from Reuters Limited).—The Morning Post says that the airship service of the Royal Air Force will not participate in any Atlantic air race, but the two recently launched naval airships belonging to this section will undertake the voyage as a training test when some defects discovered in their trials have been remedied.

Probably one airship will try crossing between Scotland and Newfoundland and if the weather is favorable will land a man in Newfoundland by parachute, returning to Great Britain on a post-stop voyage. The voyage may be continued to the American mainland. The other vessel will probably cross by the southern route via South Africa to Florida. The admiralty officials do not anticipate either attempt will be made before May.

CREARER AGAINST
FIXING PRICE
FOR THE 1919 WHEAT CROP

Ottawa, March 27.—A declaration by Hon. T. A. Crear that he is personally not in favor of the fixing of a price for the 1919 wheat crop was an important feature of the first meeting of the House of Commons committee of agriculture this morning.

"I am opposed," said the minister of agriculture, "to the fixing of a price for wheat for the coming year, because I think we should take from the public treasury a very considerable sum of money in the nature of a bonus to the farmers of Canada. I can fully appreciate the position of the farmers of western Canada who have suffered from poor crops for the last two years, but, on the other hand, the principle is unsound and it would be difficult to justify and call on the treasury under present conditions."

VOCATIONAL EDUCATIONAL BOARD

Fredericton, March 27.—The vocational education board concluded its session this morning and the inspection of the O'Connor Building, King street, recently acquired by the province. It will be used as board offices.

Last night and this morning the board discussed steps which would be taken to encourage teachers to qualify themselves for their duties as vocational instructors. The desire is that the province eventually will have a corps of teachers fully qualified, all university graduates. It is contemplated that the U. N. B. will be used to fit teachers for this work. A summer school for teachers will be established as soon as possible in connection with the provincial normal school at Fredericton. The course probably will be for four weeks, teachers taking it during the summer vacation.

Arrangements also are to be made whereby the expenses of travel and tuition will be paid for a certain number of teachers who may want to go outside the province to qualify themselves for this particular line of work.

J. Fifth Britton of West St. John has returned from Montreal.

Mrs. Ernest Howes arrived from Fredericton today and is the guest of Mrs. Mooney.

Joseph Kaufman of Montreal, a film man now with the Exhibitors Distributing Corp., came to town today to assume agency duties here.

INFLAMED GUMS— THE CAUSE OF TOOTH-BASE DECAY

Just as the strength of a building is dependent upon its foundations, so are healthy teeth dependent upon healthy gums.

Permeate the gums to become inflamed or tender and you weaken the foundation of the teeth. This condition is called Pyorrhea (Riggs Disease). Loosening of teeth is a direct result. And spongy, receding gums invite painful tooth base decay.

They act, too, as so many doorways for disease germs to enter the system—infecting the joints or tonsils—causing other ailments.

Pyorrhea (Riggs Disease) attacks four out of five people who are over forty. And many under that age, also. Its first symptom is tender gums. So you should look to your gums! Use Foran's, which positively prevents Pyorrhea if used in time and used consistently. It also scientifically cleans the teeth—keeps them white and clean. Brush your teeth with it.

If gum-inflammation has already set in, start using Foran's and consult a dentist immediately for special treatment.

30c and 60c tubes. All Druggists. FORAN'S, LTD., 307 St. James St., Montreal.

CANADA'S HEALTH DEPARTMENT

Hon. Dr. Roberts Foresees Great Benefits—Some Valuable Leaves Taken From New Brunswick's Statute

The new federal health legislation announced in today's Ottawa despatches is to a considerable extent a reflection of an interchange of ideas and experiences submitted in the dominion capital a few months ago when health officials and representative physicians from leading cities were summoned to Ottawa by Hon. N. M. Howell to confer with Hon. Mr. Childer on the general subject of health matters.

At that gathering the discussion of health matters broadened out along various lines and Hon. W. F. Roberts, New Brunswick minister of health, was able to tell how this province had furnished itself with modern legislation traversing all the important avenues of health conservation. The representative body were greatly interested in the St. John physician's detailed explanation and it would appear from the announced deliberations of the Ottawa government, as reported today, that a few valuable leaves have been taken from New Brunswick's note book.

It is the original purpose of the federal authorities to institute a health department along subsidiary lines—a sort of pigeon-hole portfolio—but strong recommendations were made by Hon. Dr. Roberts and others that the portfolio should include the duties of a deputy minister, a regular bureau, as its work would be vastly more extensive and important than might be imagined at a glance. It now appears the Ottawa cabinet has decided to act upon these suggestions, as there are to be not only a minister of health for the dominion, but a deputy minister as well.

Hon. Mr. Roberts foresees great benefits from the proposed health legislation. It will be able to set up unmountable barriers to international and trans-occident plagues and the threatening sleeping sickness, bubonic and other horrors in which the people of the new world are in grave dread abated.

Furthermore a federal law with vigilant officers and provincial co-operation will be able to set up a barrier against the worst of all plagues, the influenza virus, which has been so deadly in its ravages.

Since returning to St. John, several of the Ontario and Quebec physicians were present at the Ottawa conference, have written Hon. Mr. Roberts congratulatory letters upon his New Brunswick health measures and have asked for more information upon the lines outlined by him in his hearing in New Brunswick.

It is undoubtedly blurring the trail for Canada in health legislation abroad of the needs of the hour.

One of the suggestions made by the cabinet member from New Brunswick at the conference was that the health department should be composed of representatives from the various provinces, so that in its meetings the dominion body would be in immediate touch with all sections of the country. Mileage and hotel allowances should be made for this service.

So, viewing the matter in the large, it appears that Canada as a nation is awake to the health needs not only of the present but the safeguards that must be thrown around the country in the future with its feverish reconstruction and influx of foreigners. The late influenza flood that swept from shore to shore across the continent gives an intimation of what epidemic conditions may recur from time to time, paralyzing business and social life and depopulating the land as if by war itself.

New Brunswick is now well armed for such a fight and has the machinery to check smallpox and effectively cope with various epidemic conditions. When everything is in familiar running order the province will afford a model for other provinces, such as the states of New York, Massachusetts, Rhode Island and Maine are models for the rest of the United States, having set themselves to the task of making health laws that fit into the needs of the times.

IS IT WAR ON ITALY?
Paris, March 27.—(By the Associated Press).—Has Jugo-Slavia declared war on Italy? was a question asked by a member of the Italian delegation to the peace conference at Versailles last night that the council of ministers at Belgrade had prohibited any commerce with enemy countries, any imports from Italy into Jugo-Slavia and the transportation of Italian goods to any country across Jugo-Slavia territory.

The decree issued at Belgrade urges all Jugo-Slavia to abandon any business they may have in countries with which commercial relations are prohibited.

Mrs. P. D. Bourque Dead.
Moncton, N. B., March 27.—The death of Mrs. Phillippe D. Bourque, aged eighty-three years, occurred this morning at her home in Moncton. She is survived by her husband, two sons, Aime P. and the C. G. R. audit office here, and Follen de Lynn, Mass., and five daughters, Mrs. Charles Primrose of Lynn, Mrs. D. J. Leger of Winnipeg, Mrs. Harry A. McLean of Bathurst, Mrs. James L. Neville of Fredericton, and Mrs. Ambrose Leger of Moncton.

THE SKY PILOT OF NO MAN'S LAND (Continued.)
The Cabin, (Author of The Four Horsemen of the Apocalypse), The Avalanche, (Atherton), The Year Between, (D. Egerton Jones), The Processional, (Mordant).

These books have just been opened; and the reading rate is only 2 cents a day at the Dominion Lending Library, 7 Market Square. Phone Main 1272.

CORN AND OATS.
Chicago, March 27.—Corn prices took an upward swing today, resulting from the weakness which prevailed in the last part of yesterday's session. The rally was attributed to a renewal of confidence on the part of bulls, who had been disturbed temporarily by talk of a large exportable surplus in Argentina and by gossip that the exchange directors here were to take measures to determine whether prices for the March delivery had become artificial. Opening figures, which ranged from 1/2 cent off to 1 1/2 cent advance with May \$1.04 1/2 to \$1.50 and July \$1.88 1/2 to \$1.40, were followed by material gains all around but then by a general ease.

Oats duplicated the action of corn. After opening unchanged to 3/4 cent higher with May 66 1/2 to 67 1/2, the market scored a general moderate upturn before beginning to fall back.

New York, March 27.—A trade authority announcement published today telling of a decided increase in the volume of steel business since the reduction of prices had a beneficial effect on the popular steel shares, especially United States Steel and Bethlehem Steel. Better known coppers, Baldwin Locomotive, Central Leather, Studebaker and Maxwell Motors, Pan-American Petroleum, Atlantic Gulf, United Cities, Industrial Alcohol and Wilson Packing Supplies, among others, were also advanced. Contrary tendencies were again shown by local traction, also California Packing, Harvester and Pullman. Bonds, including Liberty issues, were steadier.

THE BEST QUALITY AT A REASONABLE PRICE

Choosing a Watch
A Watch is something you should have expert help in selecting. In the standard good makes of watches, there are different grades and different models. When you have these differences explained in detail, by some one who knows watches thoroughly, you get the watch best adapted for your needs and the best value for your money.
