

IMPORTATION OF OUTSIDE LABOR IS DEPRECATED

(Continued from page 1.)
test from Birch Grove to Mr. Armstrong.
The pumps have all been removed at Birch Grove colliery and it is fast filling with water.
Evidently the same motive power is still existing at this colliery as was up to the time of dismantling and we know from existing conditions that the removal of three of these pumps was not necessary for at least one month. We understand the union has offered men to have these pumps re-installed. Up to the present no action has been taken by the corporation. We hereby appeal to the members of your Government as the trustees of the people's property about to be destroyed, to take immediate steps to prevent the destruction of the said property.
Next to No. 10 colliery at Reserve, mines Nos. 21 and 22 miles in from Birch Grove area are regarded as the two "wettest" mines in the district. Under normal conditions, the turbines pumps with a capacity of 1,000 gallons per minute are required to keep No. 21 free. Conditions in 22 are not quite so bad and so far both turbines are operating there.

Demand Premier Act.
SYDNEY, N. S., March 10.—The following telegram bearing on the flooding of No. 10 at Reserve Mines, was sent to Premier Armstrong by the citizens committee of that place last night.
Replying to your telegram of March 9, beg to state reference only to No. 10 colliery. Company has sufficient officials to maintain all pumps.
A lookout winter of 1921-22, colliery has eleven weeks. Officials maintained pumps. Referring to McLaughlin wish to state that he has all requirements for No. 10, assurance of power, assurance of men to replace pumps, sufficient officials to operate. From this it appears their purpose to flood No. 10, used in this colliery supplied at New Waterford. All pumps in number ten pumping now. Why flood No. 10? (Reference is to Deep Pump removed). In previous strikes you used your good offices to protect property. Why not this time?

Company Withdraws Offer.
SYDNEY, N. S., March 10.—(By Canadian Press)—J. E. McLurg, vice-president of the British Empire Steel Corporation, today formally withdrew the company's offer of a ten per cent. decrease in the wage scale, paid the Nova Scotia miners, in a message addressed to J. W. McLeod, president of the United Mine Workers of America, District 26.

N. S. ROYALTIES ON MINES INCREASE

Coal Production Fell Off in 1924 and Gold Advances Slightly.

Canadian Press Despatch.
HALIFAX, March 9.—There was a brief session of the Local Legislature today when Hon. William Chisholm, Minister of Works and Mines, tabled the report on the mines for 1924. The mines report showed total royalties and fees for the year ending Sept. 30, 1924, of \$747,972.22, an increase of about \$18,000 over 1923. Of this amount coal royalties furnished \$687,821.87, an increase of about \$16,000 over 1923.

Coal Situation.

In the coal mines, the report shows the number of men employed to be less than the previous year, and a decrease in the number of days worked of 850,000, the total for the year being 2,460,000. The total production of coal for 1924 was 4,973,185, a decrease of 1,200,508 over 1923.

The gold production was slightly increased, the total being 754 ounces.

TO REPAIR WHARVES

Com. Bullock to Ask for Investigation of Pettingill and McLeod Conditions.

Commissioner Bullock said this morning that one of the first matters to be given consideration this year by his department would be repairs to the McLeod and Pettingill wharves. He said that as the amount of the bill had been cut \$10,000 by the council, he proposed to bring this matter up and ask for a committee of the wharves at low tide.

Should the council then decide that the proposed repairs were necessary he would try and take care of the expenditure out of revenue and, failing that, the amount would have to go into next year's assessment.

Was City Employee For Three Years

William G. Ward died at the General Public Hospital Monday, March 9, at 2 p. m., after a lingering illness of about six months. Death came peacefully after a severe operation for sarcoma. He was 31 years old. Mr. Ward was born at Moulton River, Kent Co., N. S., in 1904. He was a valuable employee of the City Public Works department for three years. He is survived by his wife and three small children, the eldest being six years of age, also by his mother, Mrs. Ada M. Ward of Moncton and his brothers Harold of Moncton, Mass., and Fred of Moncton. Mr. Ward was a member of the Prentice Boys' Union Jack Lodge, No. 10, of this city, being financial secretary for over a year.

The funeral service will be held at the family residence, 99½ Orange street at 5 p. m. this evening, the cortege leaving for Balmesville cemetery at 9 a. m. Wednesday morning.

Spring Overcoats

Your Overcoat is important in any business where appearance counts—and isn't that saying any business? Your overcoat is the most important thing you wear. More people see you in it than in any other garment you may have. It is a good investment, but in a good overcoat is the best investment of all. We can fit you properly in an overcoat that will do you full credit anywhere when you slip it on. Price may be your last consideration, but we can promise you a pleasant surprise here,
