

In addition to the usual special quarterly collections for Home Missions and Building Fund, the scholars have subscribed \$20.51 for Foreign Missions.

Misses Davidson, Bain, McIver, and Spankie have severed their connection with the school after many years of faithful service.

No additions have been made to the Library during the year, although the Librarians hoped that an effort would have been made in this direction. The present volumes are pretty well worn, and parents and guardians should see that the books are properly cared for when taken out by the scholars, as they are sometimes returned in very bad condition.

The annual Pic-Nic and Christmas Festival were heartily enjoyed.

Interesting children's services were held in the church on two occasions, one conducted by the Minister and the other by the venerable Missionary, Dr. Patton.

It is with deep sorrow that we have to record in our report for this year the loss of the oldest teacher in the school by the death of Mr. Alexander Ross, who for a period of about fifty years gave faithful assistance in training the young.

We close our report by referring to the Infant Class report as presented by Mrs. Thompson, which reads as follows: "The plan pursued by the Primary Class for sometime now has been very successful, and I record with thankfulness the great help, support and sympathy received from the assistant teachers. Two teachers, Miss Fowler and Miss McIlroy have gone out with their classes, the places being eagerly filled by earnest young ladies. The pictures used for the last year have been a great source of interest to the children and particularly helpful in the review of the lessons each quarter. The picture suggesting the golden text, and the text recalling the story. A lady and gentleman who take an interest in this work have given the pictures for 94."

All which is respectfully submitted.

J. POLLIE,  
*Secretary.*
