

4 For Kidney Troubles use Dr. Morse's Pills.

walk about the room. He has occasionally taken them ever since, and now we behold him a strong active man, and in the bloom of health, and at the age of ninety-five and able to ride in one day thirty-five miles, in order to spend his birthday with this celebrated doctor, his son.

The above astonishing cure was sounded in every ear and re-echoed throughout the land as a most wonderful cure. Many persons afflicted with various diseases immediately applied for the Pills. So powerful in strengthening, and so wonderfully did they cure them of all their diseases, and so great was the call for the Pills, both far and near, that it was impossible for the Doctor alone to make them fast enough, as there was not a moment through the day, but there were, to say the least, eight or ten, sometimes upwards of thirty, at the office at a time to get these Pills. So sure were they to relieve the sick, and with so much success did they cure all manner of diseases, that he entirely laid aside his former way of practicing, and prescribed them for every complaint.

It is an established fact that all diseases spring from one source, namely impurity of the blood. Therefore, our strength, health and life depend upon this vital fluid. When the various passages become clogged and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased;

thus causing all pains and sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important then, that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Suderific, which opens the pores of the skin, and assists nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passages of the lungs, and thus in a soothing manner, performs its duty by throwing off the phlegm and other humors from the lungs by copious spitting. The third is a Diuretic, which gives ease, and double strength to the kidneys. Thus encouraged they draw large amounts of impurity from the blood, which is then thrown out bountifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the pills while engaged in purifying the blood;
