AMERICAN SCHOONERS.

Getting a Lot of Trade in Nova Scotia
Lumber.

(Portland Press.)
The schooner Benjamin C. Cromwell
cleared in ballast for Bridgewater, N. S.
She will load there with lumber for the
South American ports. After de-
livering this, she will return to this
port.

The Cromwell makes the sixth boat
that has gone to Nova Scotia to carry
lumber this season. This is a new de-
parture in American commerce. Hith-
erto the Nova Scotians have furnished
their own boats to carry lumber in, but
for some reason not known at the
present time, the Maine vessels have
been engaged to furnish the lumber.
As a result, the Canadians are feeling
somewhat sore over the usurpation of
their rights and are loud in their de-
nunciation of the Yankees, but while
they cry, the lumber is going and Uncle
Sam smiles at this new feature of Amer-
ican trade.

BETTER THAN NONE.

"Well, that's the best I can do for
you," said the theatrical manager.
"You've been idle so far this season;
now will you remain idle all the rest
of the season or take this small part?"
"I'll take it," said Lowe Comedy. "In
this case a small role is better than a
whole loss."—Philadelphia Press.

A FORMER FREDERICTON LADY.

Mrs. Samwell, wife of the Rev. R. W. Samwell, rector of St. Matthew's,
Ottawa, has been presented with a life
membership in the Women's Auxiliary
of the Women of St. David's church,
Wales, Ontario. Mrs. Samwell, it will
be remembered, was Miss Janie Bliss
of Fredericton, and has many friends
in St. John.

GOBLING SUES WORM.

(Cincinnati Commercial Gazette.)
The sudden termination of the con-
certs of a female orchestra at the
Palma, a vice street concert hall, re-
sulted in the filing of a damage suit
in the superior court yesterday, in
which Tony Goblins, formerly treas-
urer of the Walnut Street Theatre,
seeks to recover \$1,200 from August
Worm.

THE RIVER.

Heavy Rain Has Caused a Rise in
the River, Giving Lumbermen
Hope.

(Fredericton Gleaner.)
Though the heavy rain of yesterday
continued all through the night it has
had scarcely a perceptible effect upon
the river here. The ground was so
thoroughly dry that it has absorbed
the rain which fell, and very little ran
off into the river. Reports from up-
river would indicate that a slight rise
of water may be expected. The lum-
bermen and the contractors for the
corporation driving were anticipating
a sufficient rise of water to bring out
at least a portion of the large quantity
of lumber stranded between Grand
Falls and the beams. Upriver reports
today are:

Woodstock—It rained here all day
yesterday and last night. Today is
cloudy and cool. River has risen about
four inches.

Grand Falls—Rained steadily all
yesterday and last night. The water
in the river is rising.

St. Leonard's—It rained hard all
night and is still raining. Water in
river is coming up some today.

Edmundston—It rained steadily all
last night and it is raining hard
today. The river is rising fast.

WHEAT PORTLAND, ME., EXPRESS SAYS.

The Faddists of whom so much had
been promised, more than came up to
the public's expectation. The impres-
sion which they give as one observes
them at their work is most pleasing
and more than surmounts any orchestra
of like size. Earnest of purpose, jeal-
ous of their reputation and bound to
keep it up to its present high stand-
ard, the ladies work together most ad-
mirably, and under such talented and
magnetic leadership cannot fail to be
very popular among us.

This renowned orchestra will be at
York Theatre for one night only, Oct.
23rd.

PRINCIPAL GRANT HONORED.

York's visit in Kingston yesterday,
they called on Principal Grant at the

TORONTO.

Duke and Duchess Received Five
American Officers at Niagara-on-the-Lake.

TORONTO, Oct. 15.—Mrs. Rose Com-
pton, Toronto's oldest inhabitant, died
yesterday, aged 101. She was the wife
of the city council over forty years
ago, and a native of County Down,
Ireland. She had resided here 75
years.

A rather notable incident of the
royal visit to Niagara-on-the-Lake,
hitherto unreported, was the visit of
five officers of the 14th United States
Infantry to their royal highnesses. The
officers are just home from the Philip-
pines and are stationed at Fort Ni-
agara, just across the river from
Queens Royal. They were received
very courteously by the duke and
duchess and remained for some min-
utes talking about affairs in the Philip-
pines and similar matters.

ing of representatives of the mining
industry of North Hastings held here

ario and dominion governments the

now refined in this country.

THAT BALLOON EXPERIMENT.

PARIS, Oct. 15.—Comte De Laval,
in an interview published today, says
that while he failed to cross the Medi-
terranean, he succeeded in breaking all
ballooning records, as he remained in
the air more than 41 hours, during
which time he succeeded in keeping the
balloon from two to four metres above
the sea level, thus solving the prob-
lem of maintaining stability. He says
he could have remained up for forty-
eight hours, but would have been driv-
en ashore. He threw out ballast only
once a day, and the balloon was at sunset
compensated for the loss of gas by the
weight of the ballast. He says the de-
viator he was able to deviate 30
degrees from the course of the wind,
and occasionally the deviation was as
much as 45 degrees. He attributes his
failure to the weather, the violence of
the wind and the bad quality of the
gas he used.

No striking incident seems to have
taken place during the trip, which was
in fact uneventful. The committee
succeeded in getting his balloon on
board the Du Chayla without accident.

CHARGED WITH 14 MURDERS.

DAYTON, Ohio, Oct. 15.—Coroner
Hatcher has been informed of the ex-
amination made by Prof. Curtis C.
Howard of Columbus of the remains
of Anna C. Fugh, sister and one of
the alleged victims of Mrs. Mary Belle
Witmer, but has decided not to pub-
licly the result of the examination
until it is produced at Mrs. Witmer's
hearing on Friday. Prof. Howard said
he found the arsenic in Mrs. Fugh's
stomach, the confirming the report of
Dr. C. H. Breidenbach, who made an
examination of the stomach soon after
death. Dr. Dresdenbach reported the
presence of copperas, but Professor
Howard did not substantiate this fea-
ture.

SOLDIERS' RIOT AT ALDERSHOT.

LONDON, Oct. 15.—The long stand-
ing feud between the Durham and
Worcester regiments of infantry culmi-
nated last night in a serious affray
at Aldershot, when the Worcesters,
with fixed bayonets and ball cartridges,
attacked the quarters of the Durhams.
Severe fighting followed, during which
many of the men were injured. A
number of the Durhams are suffering
from dangerous bayonet wounds.

COLLISION AT SEA.

ental liner Kaga Maru and the German
steamship Elba collided off Five Mile
Point yesterday in a dense fog. The
Elba tore a hole in the Kaga Maru's
hull seven feet in width but above the
water line. The injured vessel suc-
ceeded in reaching port in safety, but
narrowly escaped being sent to the
bottom with her passengers and cargo.

HAIRD ON FREDERICTON.

(Fredericton Herald.)
Rev. J. M. Maclean, in addressing
the Teachers' Institute at Chatham,
said he felt embarrassed even when
speaking to common people, and how
much more so when addressing an as-
sembly like this! A Montreal man had
told him he liked a New Brunswick
minister very much who had gone
there to preach, except that his words
were very common, and not at all
flowery or high sounding, but added
that he "supposed the minister had got
into the habit of using common words
when preaching to ignorant fishermen
in Fredericton."

CORNERSTONE OF A CHURCH LAID BY MASONIC ORDER.

(Memphis Commercial Appeal.)
The cornerstone of the new Seventh
Baptist church was laid yesterday af-
ternoon with impressive ceremonies by
the masons of Memphis.

After a song by the choir the Masons
proceeded with their ritual. Having
received the cap stone, the work of
the craftsmen was tried with square
and plumb and it was found that
the craftsmen had done their duty
and the stone was true. The Masons
then gave the grand honours and, ac-
companying a song by the choir, Dr. McConnell,
of Atlanta, alluded to the laying of the
cornerstone by the Masons, and said
that it was highly appropriate that
such should have been the case. Re-
viewing the history of the Masonic
order, he told of the building of the
temple at Jerusalem, of the perfect
manner in which the work was done,
and of the symbolic significance of the
ritual. He said that the square, the
level and the plumb represented the
moral principles of the Masonic frater-
nity. A Mason would meet you on the
square and part with you on the level.

OVER 900 LEPERS.

The Present State of Affairs at Mol-
okai, Hawaii.

WASHINGTON, Oct. 15.—There are
now 900 lepers and 100 clean persons
at the Molokai leper settlement in Ha-
waii, according to a report just re-
ceived from chief quarantine officer,
Coffey, in charge of the marine hospital
service in Hawaii. All these are housed,
fed, clothed and governed for \$50,000
a year. The report praises the hope-
ful and cheerful way in which these
poor people resign themselves to their
fate and points out that such content-
ment can thrive only on a comfortable
mode of life and good treatment. Sur-
geon Coffey reports he made careful
inquiries as to the chances of the in-
fection of the clean people, working
among the lepers and that the general
opinion was that in time they would
become lepers. In the last ten years,
however, only ten clean residents have
become lepers.

The results of known exposure to
leprosy says the report, show an un-
derstanding as to the chances of individ-
ual disease one of the most difficult to
operate against.

Women are said to be less liable to
it than men. The number of com-
mitments to the settlements each year
during the last decade show a gradual
decrease.

KILLED BY GAS.

Sad Fate of a Young Couple in
Brooklyn.

NEW YORK, Oct. 15.—William Joyce
and his wife, who have been married
several months, were asphyxiated to
death during the night at the home of
Mrs. Joyce's parents in Brooklyn.
Joseph Duff, 19 years old, brother of
Mrs. Joyce, believes he was the unfor-
tunate cause of the tragedy. Mr.
and Mrs. Joyce, who lived in Manhat-
tan, had spent the evening at the
home of the Duffs, and were asked to
remain over night. They were given
a sleeping room usually occupied by
Joseph Duff, who was away from home
during the evening. When the young
man went to his room and lit the gas
Joyce spoke to him and explained the
situation, whereupon Joseph turned
out the gas and went to another apart-
ment to sleep. He thinks that in his
confusion at finding his room occupied
he may have turned on the gas after
the light had been extinguished. There
is absolutely no ground for suspicion
of suicide. The grief of young Duff is
overwhelming.
